- Submittal: Provide the date the business was established, current business license, and a list of at least five (5) completed contracts of similar scope. Include location of project, name, phone number, and address of client, and the beginning and ending date of each contract.

Bidder's supervisor must have at least two (2) years' experience in herbicide spraying of rights-of-way and aquatics; each crew leader must have at least one (1) years' experience in herbicide spraying of rights-of-way and aquatics. All required certifications must be maintained during the life of the contract (NO EXCEPTIONS).

- Submittal: Submit a copy of resumes and the required certifications with the bid package.

The BIDDER must have in its possession at least the required commercial grade high production equipment to be used in order to meet the equipment requirements described in Section 31- Special Conditions either by ownership or long term lease agreement at the time of the Bid. All equipment shall be in good operating condition and be no more than 10 years old. The CONTRACT MANAGER also reserves the right to inspect the tools and equipment proposed to be used at the business location to confirm conformance with the specifications before awarding the PROJECT to the lowest responsible BIDDER.

- Submittal: Submit a list the BIDDER's equipment proposed to be used. Also, submit a separate list of equipment that is owned or leased by each sub-contractor performing part of the contract work. For each piece of equipment, show registration, name and model number, manufacturer, year of manufacture, and date purchased or leased. If the equipment is leased, include the name and phone number of the lessor.

BIDDER must own, lease or rent an interior office space and a warehouse or outdoor storage yard to contain the equipment required by this contract at the time of the Award. The office and equipment storage must be at a location zoned for commercial or industrial use in the city/county where it is located. The CONTRACTOR must have a local office located in Duval, St. Johns, Nassau, Baker or Clay County with a local or toll free telephone number, cellphone number, and email address, at which he/she may be contacted.

- Submittal: Submit address of facility and proof that the facility is owned, leased, or rented by the BIDDER.

C. BASIS OF AWARD

The project may be awarded to the lowest responsive, responsible Bidder contingent on the availability of funds within the project's approved budget. The corrected extended prices of the Total Lump Sum Base Bid will be used to determine the lowest qualified Bid. Proposals in which the prices obviously are unbalanced will be rejected. The City has the right to reject any or all bids.

If there are errors in the price extensions or in the total amount for any base bid, unit prices shall prevail, with the corrected base bid being used to determine the lowest qualified Bidder. The award of the contract will establish the Contractor and the unit prices which will be used during the life of the Contract.

The award will not be made until the CITY has completed all necessary investigations to determine if the low BIDDER is qualified to do the work and has the necessary organization, capital and equipment to carry out the contract.

D. REVISIONS OF BID PROPOSAL FORM

Request for revision of the Bid Proposal Form must be made to the Procurement Division at least ten (10) days prior to date of opening of Bids. Revision of the Bid Proposal by the Bidder will void the Bid.

E. CONTRACT EXPIRATION DATE

The Contract expiration date shall be established as follows:

The Contract shall be for two (2) years beginning on the date established in the Contract. The Contract may be extended two (2) times, each extension for two (2) years by the mutual agreement of both parties, provided funds are available. The contract and each contract extension shall remain in effect until the contract requirements for services, covered by each purchase order is completed and accepted by the City. The Contract will expire 120 days thereafter in order to comply with Executive Order 2013-05.

The Contractor may submit a written request to increase the unit prices before each contract renewal, if the request is received by certified letter at least 30 days before the completion of the previous two year contract period. The City may agree to or decline the price increase or may choose to terminate the contract. The Contractor's request for a price increase will be based solely upon the percentage change of the June Consumer Price Index for all Urban Consumers-South Region All Items, (Series CUUR0300SAO) each year of the previous two years, compounded annually, beginning on the date of the execution of the contract and each contract renewal. If the City agrees to the requested price increases, the new adjusted Contract Unit Prices will be calculated using the Contract Unit Prices of the established in the previous contract or contract renewal and adjusting them by the amount of the submitted CPI increase.

F. BID CHANGES

No changes in the amount of Bids appearing on the outside of Bids will be considered. Only the amounts shown on bid documents inside the envelope will be considered. All changes, corrections and erasures must be initialed by the person signing the bid.

HERBICIDE SPRAYING OF OUTFALL DITCHES

SECTION 30
SCOPE OF WORK

30.1 SCOPE

The work covered by these specifications consists of furnishing all equipment, labor and materials and performing all operations necessary to kill vegetation in outfall ditch bottoms using non-selective herbicides, and to selectively kill undesirable vegetation, including broadleaf and woody plants, along ditch banks using selective herbicides on a scheduled basis during length of the contract. In addition, the CONTRACTOR MANAGER may choose to chemically treat undesirable vegetation in roadside ditches, rights-of-way, easements, paved areas and individual parcels selected by CONTRACT MANAGER. In order to provide these services, the CONTRACTOR must be a Certified Pest Control Operator licensed in the State of Florida. The CONTRACTOR shall base its bid upon a chemical application necessary to kill undesirable vegetation, and to protect existing desirable vegetation identified by the CONTRACT MANAGER. The CONTRACTOR shall be responsible for the replacement of desirable vegetation damaged or killed by its misuse or misapplication of the chemicals.

30.2 WORK SITES

The work sites are outfall ditches maintained by the City. Appendix A lists the work sites and locations that may be assigned to the CONTRACTOR. This list is supplied to the CONTRACTOR to give an idea of the type and locations of ditches that may be assigned for treatment. The list does not commit the CITY to assign work to the CONTRACTOR at any or all of these locations. In addition, the CITY may select certain roadside ditches, pond and canal banks, side drains, drainage structures, and paved areas for herbicide treatment to remove undesirable vegetation.

30.3 INTENT OF CONTRACT DOCUMENTS

It is the intent of these Contract Documents to establish the type, scope and quality of landscape maintenance required by the City. It is not the intent of these Contract Documents to minutely define every detail of maintenance but rather to set fourth rational and reasonable criteria for the required maintenance described in the specifications.
