SINGLE SOURCE AWARD **BID # SS-0068-19**

Subject: CommandCentral Aware and Video Surveillance Solutions

Department: Jacksonville Sheriff's Office

Description of Purchase:
Recommend approval to amend Single Source Award for CommandCentral Aware and Video Surveillance Solutions, with Motorola Solutions, Inc., to process Amendment No. 3 to incorporate Addendum A, Subscription Services Agreement and Addendum B, SaaS Transition Statement of Work. The total not-to-exceed expenditure amount for the five (5) year award remains $3,405,869.20.

Funding Source: 00111.533101.546030.000000.00000236.00000.0000000- To be executed by formal contract amendment through the Office of General Counsel

Single Source Award To: Motorola Solutions, Inc.

Price Justification: See Attached

Total Award: $3,405,869.20 **Requisition #** N/A

Attachments: Recommendation Memo, Draft Amendment 3, Previous Awards

Certification as to Single Source: Mike Bruno, Director of Investigations and Homeland Security

THE ABOVE PURCHASE IS RECOMMENDED FOR AWARD IN ACCORDANCE WITH CHAPTER 126.206.

Subject: SS-0068-19 Amendment to Motorola Solutions, Inc., for CommandCentral Change Order

Date: January 25, 2022

We are requesting approval to amend award #SS-0068-19 and contract 7664-17 with Motorola Solutions, Inc., to process Amendment No. 3 to incorporate Addendum A, Subscription Services Agreement and Addendum B, SaaS Transition Statement of Work. There is no change to the not to exceed expenditure amount of $ 3,405,869.20. Attached is a draft of Amendment No. 3 along with Addendum A and B for your review. We are requesting that Amendment No. 3 be executed through the Office of General Counsel.

Please let me know if you need any additional information.

AMENDMENT NO. 3
to
COMMUNICATIONS SYSTEM AND SERVICES AGREEMENT

THIS AMENDMENT NO. 3 TO COMMUNICATION SYSTEM AND SERVICES AGREEMENT (this "**Amendment**" or "**Transition Agreement**") by and between the **CITY OF JACKSONVILLE**, a consolidated political subdivision and municipal corporation existing under the laws of the State of Florida, ("***City***") and **MOTOROLA SOLUTIONS, INC.**, a Delaware corporation authorized to conduct business in the State of Florida ("***Motorola***"). City and Motorola are collectively referred to herein as the "Parties" or individually as a "Party".

WHEREAS, City and Motorola are parties to the Communications System and Services Agreement effective December 13, 2018, as amended by the Amendment No. 1 dated August 27, 2019 and the Amendment No. 2 dated August 4, 2020 (City Contract # 7664-17) (the "***Existing Agreement***");

WHEREAS, the Parties entered into the Existing Agreement, under which the City agreed to purchase and Motorola agreed to sell certain products and services (collectively, the "**Existing Solution**") as further described in the Existing Agreement, including CommandCentral Aware on-premise ("**Aware On-Premise**").

WHEREAS, the City desires to purchase a subscription to Motorola's cloud-based CommandCentral Aware solution and certain other products and services necessary or appropriate to allow City to transition from an on-premise solution to a cloud-based solution ("**Aware on Cloud**") and Motorola desires to sell Aware on Cloud to City.

WHEREAS, following City's transition to Aware on Cloud, City will no longer need its existing license to Aware On-Premise as part of the Existing Solutions, nor will City need any associated maintenance services for Aware On-Premise that it has previously ordered from Motorola.

NOW, THEREFORE, the Parties agree as follows:

1. **Incorporation of Recitals**. The above recitals are true and are incorporated herein by reference.

2. **Capitalized Terms**. Unless otherwise defined herein, all capitalized terms shall have the meanings given to them in the Existing Agreement.

3. **Amendment to Services; Aware on Cloud; Acceptance**. Motorola agrees to provide the Aware on Cloud services to the City in lieu of the Aware On-Premise services

described in the Existing Agreement. Motorola shall provide the Aware on Cloud services in accordance with the Subscription Services Agreement ("SSA") and SaaS Transition Statement of Work attached hereto as **Addendum A** and **Addendum B**, respectively. Contemporaneously with the execution of this Amendment, the Parties shall execute the SSA. The SaaS Transition Statement of Work describes the tasks to be performed in implementing Aware on Cloud and the deliverables to be delivered by Motorola to City and is a part of the SSA. Upon City's Acceptance (as defined in Section 11.2 of the Existing Agreement) of Aware on Cloud in its entirety in accordance with the process set forth in Section 11 of the Existing Agreement, including but not limited to, the execution of a Cloud System Acceptance Certificate (the "Transition Effective Date"), all rights and obligations relating to Aware On-Premise shall be terminated, and following the Transition Effective Date neither party shall have any rights or obligations under the Existing Agreement with respect to Aware On-Premise, including without limitation, (i) any ongoing maintenance obligations by Motorola, (ii) any ongoing payment obligations by City with respect to maintenance and (iii) any license to the Aware On-Premise software.

4. **Clarification to Section 2 (Definitions)**. Any words and phrases used in the Existing Agreement, including, but not limited to, the defined terms in Section 2, shall be deemed to include Aware on Cloud services in lieu of Aware On-Premises services as appropriate based on the context of the word or phrase as used in the Existing Agreement. Examples of such words and phrases include, without limitation, the terms "Proposal", "Services", "Solution" and "Statement of Work."

5. **Amendment to Section 21.5 (Public Records)**. The last paragraph in Section 21.5 of the Existing Agreement is amended to update the Public Records email and telephone information, and, as amended, shall read as follows:

> **IF MOTOROLA HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO MOTOROLA'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CITY'S CUSTODIAN OF PUBLIC RECORDS AT (904) 255-7674; RRGOVQA@COJ.NET; CITY OF JACKSONVILLE, PUBLIC RECORDS REQUEST, 214 N. HOGAN STREET, SUITE 1180, JACKSONVILLE, FLORIDA 32202.**

6. **Addition of new Section 21.15 (E-Verify Employment Eligibility Requirement)**. A new Section 21.15 (Employment Eligibility) is inserted immediately after Section 21.14 of the Existing Agreement and shall read as follows:

> **21.15. (Employment Eligibility).**
>
> In accordance with Section 448.095, *Florida Statutes*, Motorola confirms that it does not currently, and will not in the future, employ, contract with, or subcontract with unauthorized aliens and Motorola, including any of its subcontractors, has registered accordingly with the E-Verify platform. Motorola acknowledges that any violation with the aforementioned will result in a default to this Agreement and the City shall be entitled to any and all relief available, including but not limited to, consequential damages, rebate of fees, costs and expenses, etc., resulting from the voiding of this Agreement.

7. **Addition of Addendum A (Subscription Services Agreement)**. **Addendum A** (Subscription Services Agreement) attached hereto is added to the Existing Agreement immediately after Exhibit G (Amended CJIS Security Addendum), and incorporated into the Existing Agreement by this reference.

8. **Addition of Addendum B (SaaS Transition Statement of Work)**. **Addendum B** (SaaS Transition Statement of Work) attached hereto is added to the Existing Agreement immediately after Addendum A (Subscription Services Agreement), and incorporated into the Existing Agreement by this reference.

9. **Aware on Cloud Representation and Warranty**. Motorola represents and warrants to City that (i) Aware on Cloud will meet all of the City's business requirements for the Solution as set forth in the Existing Agreement and the Proposal (as defined in the Existing Agreement) and (ii) Motorola will provide all Services, Software and Equipment required to provide Aware on Cloud at no additional cost to the City.

10. **Order of Precedence**. In the event of a conflict between the Existing Agreement and this Transition Agreement, including any exhibits, addenda, or amendments thereto, the Existing Agreement shall control, except to the extent specifically stated otherwise herein. With respect to any matters arising out of or relating to Aware on Cloud, the SSA shall supersede the Existing Agreement to the extent specifically addressed therein. Matters arising out of or relating to Aware on Cloud that are not addressed in the SSA shall be governed by the Existing Agreement.

11. **Ratification of the Existing Agreement**. The provisions of the Existing Agreement shall remain in full force and effect except as expressly provided in this Amendment. In the event of any conflict between the provisions of this Amendment and the provisions of the Agreement, the provisions of this Amendment shall control.

12. **Effective Date**. This Amendment is made effective as of the last date executed by City and Motorola below (the "**Effective Date**").

13. **Authority**. Motorola represents and warrants to City that Motorola has full right and authority to execute and perform its obligations under this Amendment and the Agreement, and Motorola and the person(s) signing this Amendment on Motorola's behalf represent and warrant to City that such person(s) are duly authorized to execute this Amendment on Motorola's behalf without further consent or approval by anyone. Motorola shall deliver to City promptly upon request all documents reasonably requested by City to evidence such authority.

14. **Entire Agreement**. This Amendment is the entire agreement of the parties regarding the modifications to the Existing Agreement provided herein, and supersedes all prior agreements and understandings regarding such subject matter, and may be modified only by a writing executed by the party against whom the modification is sought to be enforced, and shall bind and benefit the parties and their respective successor, legal representatives and assigns.

15. **Counterparts**. This Amendment may be executed in several counterparts, each of which shall be deemed an original, and all of such counterparts together shall constitute one and the same instrument. Facsimile or email transmission of all signatures, with originals to follow, shall constitute and be evidence of an executed Amendment.

[The remainder of this page was left blank intentionally by the parties.]

IN WITNESS WHEREOF, the parties hereto have executed this Amendment as of the Effective Date.

Office of General Counsel

Addendum A to Existing Agreement
SUBSCRIPTION SERVICES AGREEMENT

Motorola Solutions, Inc. ("Motorola") and the City of Jacksonville, a consolidated political subdivision and municipal corporation existing under the laws of the State of Florida ("City"), enter into this Subscription Services Agreement (this "Agreement") pursuant to which City will purchase and Motorola will sell a subscription to access the subscription services described below. Motorola and City may be referred to individually as a "Party" and collectively as the "Parties." This Agreement is entered into pursuant to an Amendment No. 3 to Communications System and Services Agreement of even date herewith between the Parties (the "Transition Agreement") and is subject to the terms and conditions of that certain Communications System and Services Agreement between the Parties and executed by Motorola on December 13, 2018, as amended.

The terms of this Agreement, including addenda, exhibits, and attachments combined with the terms of the Existing Agreement will govern the products and services offered pursuant to this Agreement. To the extent there is a conflict between the terms and conditions of this Agreement and the terms and conditions of the Existing Agreement, the terms of this Addendum A take precedence.

1. DEFINITIONS

Capitalized terms used in this Addendum A have the meanings set forth below. Capitalized terms used in this Agreement which are not defined below shall have the meanings given to them in the Existing Agreement. Any reference to the purchase or sale of software or other Intellectual Property shall mean the sale or purchase of a license or sublicense to use such software or Intellectual Property in accordance with this Agreement.

"Anonymized" means having been stripped of any personal or correlating information revealing original source or uniquely identifying a person or entity.

"Aware on Cloud" shall have the meaning given to the term in the Transition Agreement.

"Cloud Deliverables" mean all deliverables set forth in the SaaS Transition Scope of Work, Addendum B, and shall include the associated requirements of the City for the Solution described in the Existing Agreement.

"Cloud Subscription Services" means those subscription services to be provided by Motorola to City under this Agreement, the nature and scope of which are more fully described in the STSOW and the Existing Agreement.

"Cloud System" shall mean the Aware on Cloud Solution.

"Documentation" means the technical materials provided by Motorola to City in hard copy or electronic form describing the use and operation of the Solution and Software, including any technical manuals, but excluding any sales, advertising or marketing materials or proposals.

"Feedback" means comments or information, in oral or written form, given to Motorola by City, in connection with or relating to the Solution and Subscription Services.

"SaaS Transition Statement of Work" or ("STSOW") means the Statement of Work attached as Addendum B to the Transition Agreement that describes the Subscription Services, Deliverables (if any), Licensed Products and Solution that Motorola will provide to City under the Transition Agreement, and the other work-related responsibilities that the Parties owe to each other. The Subscription as a Service ("SaaS") Transition Statement of Work may contain a performance schedule.

"Transition Effective Date" is the date of Acceptance of Aware on Cloud in its entirety in accordance with the process of the Existing Agreement.

2. SCOPE

2.1 **Cloud Subscription Services.** Motorola will provide to City the Cloud Subscription Services and Deliverables. As part of the Cloud Subscription Services, Motorola will allow City to use the Solution described in the SaaS Transition Statement of Work, this Agreement and the Existing Agreement. Motorola and City will perform their respective responsibilities as described in this Agreement and the Existing Agreement. Motorola will continue to provide support for the System after transition to Aware on Cloud at the service levels set forth in Section 6.5 of the Existing Agreement and pursuant to the Maintenance and Support Agreement attached as Exhibit E thereto.

3. TERM

3.1 **Term.** This Agreement shall commence on the Transition Effective Date and shall remain in effect for five (5) years and expire at 11:59 p.m. on September 7, 2025.

4. Subscription Fees.

Subscription fees shall be governed by the Existing Agreement. Motorola shall not charge additional fees in connection with Aware on Cloud. Accordingly, the maximum indebtedness of City for all fees and charges pursuant to this Agreement is zero and no/100 dollars ($0.00).

5. ACCEPTANCE; SCHEDULE

5.1 **Acceptance.** The Acceptance process described in Section 11 of the Existing Agreement shall govern City's Acceptance of Aware on Cloud.

5.2 **Schedule.** All Cloud Subscription Services will be performed in accordance with the performance schedule to be made and agreed upon by the Parties during contract design review, or as may be otherwise agreed upon by both Parties in writing.

6. DATA AND FEEDBACK

6.1 **City Data.** To the extent permitted by law, City retains ownership of City Data. Subject to the limitations set forth in Exhibit G (Amended CJIS Security Addendum) of the Existing Agreement, City grants Motorola personal, royalty-free, non-exclusive license to use, host, cache, store, reproduce, copy, modify combine, analyze, create derivatives from, communicate, transmit, publish, display, and distribute such City Data solely for the purpose of providing the Subscription Services to City. Motorola agrees to institute commercially reasonable security measures to prevent and detect unauthorized physical and/or remote access to City Data in its possession.

Motorola shall immediately notify City in writing of any breaches of security and/or unauthorized access to City Data. Upon expiration or termination of this Agreement, said license shall expire, and Motorola shall transfer, at no cost to City, all City Data in its possession in a format that is compatible with the City's information technology systems.

6.2 **Feedback.** The Parties agree that all fixes, modifications and improvement to the Licensed Product or Subscription Service conceived of or made by Motorola that are based, either in whole or in part, on the Feedback, and all right, title and interest in and to such fixes, modifications or improvements to the Licensed Product or Subscription Service will vest solely in Motorola.

6.3 **Compliance with CJIS Security Policy.** Notwithstanding any other provision of this Agreement, the Parties' performance under this Agreement shall be governed by the requirements of CJIS Security Policy (CSP) 5.9, as may be amended or replaced from time to time.

7. WARRANTY

7.1 The Warranty provisions contained in Section 12 of the Existing Agreement shall apply to the Services, Software, Hardware and Equipment provided under the Transition Agreement, and the Warranty Period shall be five (5) years from September 8, 2025 and expire at 11:59 p.m. on September 7, 2025.

8. TERMINATION

8.1 **Return Confidential Information.** To the extent permitted by Public Records law, and upon termination or expiration of the Agreement, City will return or certify the destruction of all Confidential Information and Solution Data.

8.2 **Connection Terminated.** Certain Cloud Subscription Services require a connection to City systems to access City Data (e.g. predictive or analytic services). Upon termination of this Agreement, connection to relevant data sources will be disconnected and Motorola will no longer extract any City Data.

9. DISCLAIMER OF LIABILITY

MOTOROLA DISCLAIMS ANY AND ALL LIABILITY FOR ANY AND ALL LOSS OR COSTS OF ANY KIND ASSOCIATED WITH 1) THE INTERRUPTION, INTERFERENCE OR FAILURE OF CONNECTIVITY, VULNERABILITIES OR SECURITY EVENTS, WHETHER OR NOT THEY ARE DISCOVERED BY MOTOROLA AS THESE SERVICES ARE PROVIDED BY THE CITY'S THIRD PARTIES AND MOTOROLA DOES NOT SECURE THE NETWORK ON WHICH THIS INFORMATION TECHNOLOGY RESIDES; 2) PERFORMANCE OF CUSTOMER'S EXISTING NON-MOTOROLA PROVIDED EQUIPMENT AND SOFTWARE OR ACCURACY OF CUSTOMER DATA; 3) IF ANY PORTION OF THE SOLUTION OR LICENSED PRODUCT RESIDES ON CUSTOMER'S PREMISES, DISRUPTIONS OF AND/OR DAMAGE TO CUSTOMER'S OR A THIRD PARTY'S INFORMATION SYSTEMS, EQUIPMENT, AND THE INFORMATION AND DATA, INCLUDING, BUT NOT LIMITED TO, DENIAL OF ACCESS TO A LEGITIMATE SYSTEM USER, AUTOMATIC SHUTDOWN OF INFORMATION SYSTEMS CAUSED BY INTRUSION DETECTION SOFTWARE OR HARDWARE, OR FAILURE OF THE

Commented [VMW1]: Except to extent any such losses or costs are insured by the insurance policies required in this Agreement, MOTOROLA DISCLAIMS ANY AND ALL LIABILITY FOR ANY AND ALL LOSS OR COSTS OF ANY KIND ASSOCIATED WITH 1) THE INTERRUPTION, INTERFERENCE OR FAILURE OF CONNECTIVITY, VULNERABILITIES OR SECURITY EVENTS, WHETHER OR NOT THEY ARE DISCOVERED BY MOTOROLA AS THESE SERVICES ARE PROVIDED BY THE CITY'S THIRD PARTIES AND MOTOROLA DOES NOT SECURE THE NETWORK ON WHICH THIS INFORMATION TECHNOLOGY RESIDES; 2) PERFORMANCE OF CUSTOMER'S EXISTING NON-MOTOROLA PROVIDED EQUIPMENT AND SOFTWARE OR ACCURACY OF CUSTOMER DATA; 3) IF ANY PORTION OF THE SOLUTION OR LICENSED PRODUCT RESIDES ON CUSTOMER'S PREMISES, DISRUPTIONS OF AND/OR DAMAGE TO CUSTOMER'S OR A THIRD PARTY'S INFORMATION SYSTEMS, EQUIPMENT, AND THE INFORMATION AND DATA, INCLUDING, BUT NOT LIMITED TO, DENIAL OF ACCESS TO A LEGITIMATE SYSTEM USER, AUTOMATIC SHUTDOWN OF INFORMATION SYSTEMS CAUSED BY INTRUSION DETECTION SOFTWARE OR HARDWARE, OR FAILURE OF THE INFORMATION SYSTEM RESULTING FROM THE PROVISION OR DELIVERY OF THE SERVICE; 4) AVAILABILITY OR ACCURACY OF SOLUTION DATA; 5) INTERPRETATION, USE OR MISUSE IN ANY WAY OF SOLUTION DATA; 6) IMPLEMENTATION OF RECOMMENDATIONS PROVIDED IN CONNECTION WITH THE SUBSCRIPTION SERVICES; 7) TRACKING, AND LOCATION BASED SERVICES, BREACH OF PRIVACY, AND THE USE OR MISUSE OF PERSONALLY IDENTIFIABLE INFORMATION BY A PARTY OTHER THAN MOTOROLA OR A THIRD PARTY.

INFORMATION SYSTEM RESULTING FROM THE PROVISION OR DELIVERY OF THE SERVICE; 4) AVAILABILITY OR ACCURACY OF SOLUTION DATA; 5) INTERPRETATION, USE OR MISUSE IN ANY WAY OF SOLUTION DATA; 6) IMPLEMENTATION OF RECOMMENDATIONS PROVIDED IN CONNECTION WITH THE SUBSCRIPTION SERVICES; 7) TRACKING, AND LOCATION BASED SERVICES, BREACH OF PRIVACY, AND THE USE OR MISUSE OF PERSONALLY IDENTIFIABLE INFORMATION BY A PARTY OTHER THAN MOTOROLA OR A THIRD PARTY.

10. GENERAL

10.1. **Authority To Execute Agreement.** Each Party represents that it has obtained all necessary approvals, consents and authorizations to enter into this Agreement and to perform its duties under this Agreement; the person executing this Agreement on its behalf has the authority to do so; upon execution and delivery of this Agreement by the parties, it is a valid and binding contract, enforceable in accordance with its terms; and the execution, delivery, and performance of this Agreement does not violate any bylaw, charter, regulation, law or any other governing authority of the Party.

10.2. **Survival Of Terms.** Any provision which by its intent survives the Term of this Agreement shall survive the expiration or termination of this Agreement for any reason.

10.3. **ENTIRE AGREEMENT.** This Agreement and the Existing Agreement constitute the entire agreement of the Parties regarding the subject matter of this Agreement and supersede all previous agreements, proposals, and understandings, whether written or oral, relating to this subject matter. This Agreement may be amended or modified only by a written instrument signed by authorized representatives of both Parties. The preprinted terms and conditions found on any City purchase or purchase order, acknowledgment or other form will not be considered an amendment or modification of this Agreement, even if a representative of each Party signs that document.

Addendum B to Existing Agreement

SaaS Transition Statement of Work

COMMANDCENTRAL AWARE MIGRATION

COMMANDCENTRAL AWARE MIGRATION STATEMENT OF WORK

1.1 Overview

This Statement of Work ("SOW") describes tasks to be performed in implementing the solution and the deliverables to be furnished to the City. The tasks described herein will be performed by Motorola Solutions, Inc. (as applicable), and the City to migrate an existing on-premise CommandCentral Aware system to a SaaS Aware platform. Motorola will not be using subcontractors to perform the work described in this Agreement.

Motorola Solutions' project manager will use this Statement of Work to guide the deployment process and coordinate the activities of Motorola Solutions resources and teams. The project manager will also work closely with the City's project manager to clearly communicate the required migration activities and schedule tasks involving City resources.

The scope of this project is limited to supplying software and services described in this SOW and contract agreements. Deviations and changes to this SOW after Transition Agreement execution are subject to mutual agreement between Motorola Solutions and the City and will be addressed in accordance with the change order provision of the Existing Agreement.

1.2 Implementation Considerations

Motorola Solutions has considered several items in preparing this migration offering and has made implementation decisions as noted below. Motorola Solutions and the City will verify all assumptions and seek alternate solutions in the case of an invalid assumption. Motorola reserves the right to modify the offering to incorporate changes for any invalid assumptions. Such modifications shall not be effective until accepted in writing by the City. Changes to the equipment or scope of the project after contract may require a change order.

1. The preliminary estimate for implementation is three to four months commencing from the date of Transition Agreement execution, and subject to Motorola Solutions and City resource availability. A project schedule will be finalized during the Migration Planning Review.
2. Existing on-premise Aware deployments may have Common Solution Development Platform ("CDSP") Connectors. CDSP is a software application that resides on an on-premises server to communicate from disparate applications data to CommandCentral Aware. Motorola will need to replace these connectors with

new versions written for the CloudConnect platform. If connector development is required, the project implementation time may be extended.

3. Motorola is responsible, at Motorola's expense as required, to provide any Software Development Kits ("SDKs") and/or Application Programming Interfaces ("APIs") required for Motorola to complete its third-party vendor interfaces to SaaS Aware.
4. All work is to be performed during normal work hours, Monday through Friday, 8:00 a.m. to 5:00p.m., eastern standard time.
5. City will provide Motorola Solutions staff access to facilities and systems as required for Motorola Solutions to perform its tasks in accordance with the project schedule, to include remote access for software installation, configuration and diagnostics; and for post-deployment Support Team services.
6. State, local or federal permits may be required for the installation and operation of any equipment associated with this solution. Motorola shall be responsible for obtaining any required permits. The City shall provide Motorola any information or authorizations needed for Motorola to obtain any permits required for the installation and operation of the equipment associated with this solution.
7. Motorola Solutions has no responsibility for the performance of and/or delays caused by contractors or vendors engaged by the City for this project.

1.3 Migration Planning and Pre-Implementation Review

A clear understanding of the needs and expectations of both Motorola Solutions and the City are critical to the successful migration and on-going operation of CommandCentral Aware. In order to establish expectations and to raise immediate visibility to ongoing operation and maintenance requirements, we will work with you to help you understand the impact of moving from an on-premise solution to a cloud based solution. The migration planning and pre-implementation review also helps you understand your preparedness for the migration and changes introduced by cloud based CommandCentral Aware solution.

1.3.1 Migration Project Planning

The objective of migration project planning is to review the scope of the project, project schedule, technical components, and validate access to the Learning Management System ("LMS") and CommandCentral Admin Console with the City project team.

Upon execution of the Transition Agreement, the Motorola Solutions project manager will contact the City's designated project manager to review the overall project plan and goals, the task requirements of each phase of the project and help to identify areas of potential risk due to the deployed configuration, resource availability, experience or skills.

Motorola Solutions Responsibilities

1. Make initial contact with the City Project Manager.
2. Review the overall migration deployment methodologies, inter-agency/inter-department decision considerations (as applicable), and third-party engagement/considerations (as applicable).
3. Discuss the City involvement in system provisioning and data gathering to understand the scope and time commitment required.
4. Discuss the online LMS training approach.

5. Obtain mutual agreement of the Migration Review teleconference agenda and date.
6. Schedule the Migration Review teleconference.
7. Coordinate enabling designated City administrator with access to the LMS and CommandCentral Aware Console.

City Responsibilities

1. Provide acknowledgement of the mutually agreed upon Migration Review teleconference agenda.
2. Provide Motorola Solutions with the names and contact information for the designated LMS and CommandCentral Aware Administrators.

1.3.2 Migration Review Teleconference

The objective of the migration review teleconference is to review the currently deployed solution, objective of the SaaS Aware migration project, scope of implementation requirements, resource commitment requirements, cross-functional team involvement, and review the required technical resources required.

Motorola Solutions Responsibilities:

1. Conduct a migration review teleconference.
2. Ensure key project team participants attend the teleconference.
3. Introduce all project participants.
4. Review the role of each project participant to identify communication flows and decision-making authority between project participants.
5. Review the overall project scope and objectives.
6. Review the resource and scheduling requirements.
7. Review the functional demonstration process (Aware and Interfaces).
8. Review the initial Project Schedule with City to address scheduled activities.
9. Verify City Administrator(s) have access to the LMS and CommandCentral Admin Console.

City Responsibilities:

1. Ensure key project team participants attend the teleconference.
2. Introduce all project participants.
3. Review the role of each project participant to identify communication flows and decision-making authority between project participants.
4. Provide remote access to Motorola Solutions staff to facilitate the delivery of services described in this Statement of Work.
5. Ensure that necessary non-disclosure agreements, approvals, and other related issues are complete in accordance with Project design and schedule as applicable.
6. Provide all paperwork and/or forms (i.e. fingerprints, background checks, card keys and any other security requirement) required for Motorola Solutions resources to obtain physical and or remote access to each of the sites identified for this project.
7. Validate access to the LMS and CommandCentral Admin Console.

Completion Criteria:

Migration Review meeting completed.

1.3.3 General Installation and Configuration

Motorola Solutions Responsibilities

1. Configure server with contracted software and apply licenses.
2. Configure the Aware workstation(s) access to the CloudConnect server.
3. Connect and test the monitors connected to the workstation in accordance with the system design diagram and documentation.
4. Configure the MCC7500e proxy server and firewall to integrate the City's Radio network into the Aware workstation(s).
5. Upgrade the core with the MCC7500e license.
6. Provision of the username/password for the MCC7500e consoles.
7. Install the MCC7500e console software on both aware consoles and configure the audio devices (microphone, speakers and headsets).
8. Configure network connectivity and test connection to the CloudConnect server.
9. Configure video management systems servers and provision cameras (not to exceed 200 cameras) supplied by the City.

City Responsibilities

1. Provide access to the sites as required for Motorola Solutions to complete installation activities.
2. Provide IP addresses for server and workstation equipment.
3. Provide AC receptacles within ten (10) feet of locations where equipment is to be installed.
4. Provide a 1 Gigabit network Ethernet port within six (6) feet for each of the workstation's installation area. Provide user names, email addresses, phone numbers in order to create logons for the system.
5. Provide all required 3rd party API and SDK licensing and documentation for City's existing systems such as CAD, Video Management Systems, etc.
6. Provide an antivirus software for the Aware clients as/if desired.

Completion Criteria

CloudConnect Server configuration is complete and accessible on the City network.

1.4 Saas Aware Migration

The principle project activity is the migration of Aware operations from the on-premise solution to the cloud based CommandCentral Aware solution. The process described in this section is intended to accomplish the transition in an orderly fashion that minimizes down time and assures that the SaaS Aware solution operates in a manner that is similar to the originally deployed system, although by design the feature set provided by SaaS Aware may not necessarily be identical to that provided in the originally deployed system.

1.4.1 CommandCentral SaaS Aware On-Boarding

The on-boarding process is an internal Motorola task that established the City's access to the SaaS Aware product.

Motorola Solutions Responsibilities

1. Enable the City's SaaS Aware environment.

2. Validate access with CommandCentral Admin console.

City Responsibilities

None.

Completion Criteria

SaaS Aware environment available to City.

1.4.2 CommandCentral SaaS Aware Provisioning

SaaS Aware provisioning is the process of duplicating the original on-premise Aware provisioning parameters in the SaaS Aware environment.

Motorola Solutions Responsibilities

1. Obtain the current on-premise Aware provisioning data from the City or the on-premise Aware server.
2. Provision the SaaS Aware environment in a manner similar to the on-premise Aware system. This includes City users, groups, rules and cameras.
3. Review any provisioning changes or new provisioning information required by the SaaS Aware solution with the City and agree on the desired configuration.

City Responsibilities

1. Provide Motorola Solutions with provisioning data from the on-premise Aware system.
2. Clarify any provisioning questions that may arise while Motorola Solutions provisions the SaaS Aware environment.
3. Validate SaaS Aware provisioning.
4. Maintain and update SaaS Aware provisioning data using the CommandCentral Admin Console.

Completion Criteria

SaaS Aware provisioning is considered complete upon Motorola Solutions conclusion of provisioning activities.

1.4.3 CloudConnect Deployment or Upgrade

The current version of Cloud Connect is required to support the deployment and operation of SaaS Aware connectors. If CloudConnect is not part of the currently deployed solution, then Motorola Solutions will install it on-premise. If it is already deployed, Motorola Solutions will verify the installed version and upgrade to the latest version if required. A second CloudConnect VM may be installed to enable SaaS Aware integration and testing while minimizing disruption of the existing system.

Motorola Solutions Responsibilities

1. Validate City provided CloudConnect VM configuration and Network Connectivity to SaaS Aware.
2. Deploy or Upgrade CloudConnect on City's Production server VMs.
3. Verify network connectivity and test connection to the CloudConnect server.

City Responsibilities

1. Provide a VM environment suitable for CloudConnect operation for the Production server.
2. Provide network and firewall configuration to allow communication between CloudConnect and SaaS Aware.

Completion Criteria

CloudConnect Server configuration is complete.

1.4.4 CommandCentral Aware Geospatial Mapping Configuration

Motorola Solutions Responsibilities

1. Installation and configuration of the connection to the City mapping system, (i.e. ESRI online, ESRI server, or static map layers).
2. Add camera locations to ESRI system map and configure hot links within Aware system.
3. Test mapping layers and links in accordance with the system Design Document.

City Responsibilities

1. Provide access to ESRI/GIS system and/or GIS personnel
2. Provide published GIS map layers.
3. Work with Motorola Solutions staff to publish specific maps beneficial to the City analysis.

Completion Criteria

Aware Geospatial Mapping configuration is complete.

1.4.5 Connector Development

Motorola Solutions will reuse Interface Connectors previously deployed with the on-premise Aware system if possible. The original CSDP Connectors have been rewritten and tested to assure compatibility with CloudConnect and SaaS Aware. Performance will need to be confirmed on the City's environment. No new features or functions will be introduced into the interface connector unless specifically required to assure CloudConnect and SaaS Aware compatibility.

Motorola Solutions Responsibilities

1. Review existing CSDP Connectors and confirm that the same Connectors are required for the SaaS Aware implementation.
2. Develop connectors, as required.
3. Deploy connectors via on-premise CloudConnect, validate connection to on-premise systems and SaaS Aware.
   A. Install the Tritech CAD connector and confirm events display properly.
   B. Install the Milestone, Genetec, Exacqvision and Avigilon VMS connectors and confirm video displays properly.
   C. Install the Vigilant ALPR connector and confirm that ALPR events with vehicle and license tag photos display properly.
   D. Install the ShotSpotter connector and confirm ShotSpotter events display properly with audio links.
4. Perform a functional demonstration of each re-enabled interface connector.

City Responsibilities

1. Act as liaison between Motorola Solutions and third-party vendors or systems as needed to re-establish Connector connectivity and validate functionality.
2. Provide personnel proficient with and authorized to make changes to the network and third-party systems to support Motorola Solutions' connector development and testing.
3. Witness the functional demonstration of each interface connector.

Completion Criteria

1. Connector development and testing completed
2. Connectors ready for production operation.

1.4.6 Workstation and Connector Deployment

Interface Connectors previously used with the on-premise Aware system will continue to be used but directed to the Aware Cloud. No new features or functions will be introduced into the interface connector during this phase of deployment.

Motorola Solutions Responsibilities

1. Configure the Aware Training workstation to access the CloudConnect server.
2. Reconfiguration of the connection to the City mapping system, (i.e. ESRI online, ESRI server, or static map layers).
3. Establish communications with the CommandCentral Aware instance.
4. Configure interface connector(s) to support the previously provided functionality.
5. Perform a functional demonstration of each re-enabled interface connector.

City Responsibilities

1. Act as liaison between Motorola Solutions and third-party vendors or systems as needed to re-establish connectivity with CommandCentral Aware.
2. Provide personnel proficient with and authorized to make changes to the network and third-party systems to support Motorola Solutions' connector re-enablement as needed.
3. Witness the functional demonstration of each re-enabled interface connector.

Completion Criteria

All Connectors deployed on CloudConnect and tested with the external system.

1.4.7 Functional Demonstration

The objective of functional demonstration is to validate City access to the CommandCentral Aware cloud-based features, map display and location updates, video display and system integration via configured interfaces installed on the Sandbox environment.

Motorola will conduct the functional demonstration on a single upgraded Aware client after the SaaS Aware system and all contracted connectors are available. After successful completion of the demonstration, the Production server and Aware clients will be upgraded.

Motorola Solutions Responsibilities

1. Create functional demonstration script.

2. Provide script to City for review and agreement.
3. Conduct functional demonstration.
4. Correct any configuration issues impacting access to cloud based features, map display, location updates, video display and or interface integration.
5. Create a summary report documenting the activities of the functional demonstration and any corrective actions taken by City or Motorola Solutions during the demonstration.
6. Provide City instruction on using the City Feedback Tool for feature/enhancement requests.

City Responsibilities

1. Review and, if acceptable, agree to the scope of the demonstration script.
2. Witness the functional demonstration and acknowledge its completion.
3. Resolve any provisioning impacting the functional demonstration.
4. Provide Motorola Solutions with any requests for feature enhancements.

Completion Criteria:

Conclusion of the functional demonstration.

1.4.8 Aware Production Server and Workstation Configuration

The Production workstations must be updated to the current version and configured for use with the SaaS Aware system. Updating the workstations makes available SaaS Aware so that operators can gradually transition from on-premise Aware to SaaS Aware. As a result, this activity completes the migration to SaaS Aware. It should only be performed after CloudConnect, Connectors, and SaaS Aware provisioning have been validated and the Functional Demonstration has been completed on the Test workstation.

Motorola Solutions Responsibilities

1. Upgrade Aware Production Server and workstations.
2. Configure the MCC7500e proxy server and firewall to integrate the City's Radio network into the new CommandCentral Aware workstation(s).
3. Deploy connectors via on-premise CloudConnect, validate connection to on-premise systems and SaaS Aware.
   A. Install the Tritech CAD connector and confirm events and display properly.
   B. Install the Milestone, Genetec, Exacqvision and Avigilon VMS connectors and confirm video displays properly.
   C. Install the Vigilant ALPR connector and confirm that ALPR events with vehicle and license tag photos display properly.
   D. Install the ShotSpotter connector and confirm ShotSpotter events display properly with audio links
4. Validate workstation connectivity and operation.

City Responsibilities

1. None.

Completion Criteria

Aware workstations upgraded and operational with SaaS Aware and the interfaces that had previously been installed in the on-premise version.

1.4.9 CommandCentral Aware Provisioning

Motorola Solutions Responsibilities

Provide remote telephone support to support Customers provisioning efforts.

City Responsibilities

Using the CommandCentral Admin Console, provision users, groups, rules and cameras based off City provided provisioning data.

Completion Criteria

Aware provisioning is complete upon Motorola Solutions providing remote telephone support City completing provisioning activities as needed.

1.4.10 CommandCentral Aware Training

CommandCentral Aware training is made available to you via Motorola Solutions Software Enterprise Learning Management System (LMS). This subscription service provides you with continual access to our library of on-line learning content and allows your users the benefit of learning at times convenient to them. Content is added and updated on a regular basis to keep information current. All Motorola Solutions tasks are completed remotely and enable the City to engage in training when convenient to them.

LMS Administrators are able to add/modify users, run reports, and add/modify groups within the panorama.

Motorola Solutions Responsibilities

1. Initial setup of Panorama* and addition of administrators.
2. Provide instruction to City LMS Administrators on:
    A. Adding and maintaining user
    B. Adding and maintaining Groups*
    C. Assign courses and Learning Paths*
    D. Running report.

City Responsibilities

1. Provide Motorola with names (first and last) and emails of City LMS administrators
2. Provide access to learningservices.motorolasolutions.com
3. Complete LMS Administrator training
4. Advise users of the availability of the LMS
5. Add/modify users, run reports and add/modify groups

Completion Criteria

Work is considered complete upon conclusion of Motorola Solutions provided LMS Administrator instruction.

*Panorama - A panorama is an individual instance of the Learning Management System that provides autonomy to the agency utilizing.

*Groups - A more granular segmentation of the LMS that are generally utilized to separate learners of like function (i.e. dispatchers, call takers, patrol, firefighter). These may also be referred to as clients within the LMS.

*Learning Path - A collection of courses that follow a logical order, may or may not enforce linear progress.

1.4.11 Decommission On-Premise Aware

After all Aware clients have been transitioned to operation on SaaS Aware the on-premise Aware product and VM may be decommissioned. If a physical server was in place for the on-premise Aware system it will continue to serve as a platform for Cloud Connect.

Motorola Solutions Responsibilities

1. Confirm that all clients have been upgraded and transitioned to operation with SaaS Aware.
2. Confirm that all connectors are operational with SaaS Aware.
3. Uninstall Aware application.
4. Uninstall CSDP and CSDP Connectors.

City Responsibilities

1. Confirm that the on-premise Aware software may be decommissioned.
2. Decommission VM.

Completion Criteria

Original on-premise Aware software decommissioned and uninstalled.

1.4.12 As-Built Documentation

Within ten (10) business days of completing the Functional Demonstration, Motorola Solutions and the City will have completed all implementation tasks and will prepare the City for resuming on-going support through Motorola Solutions Support organization.

Motorola Solutions Responsibilities

Provide an electronic as-built documentation on a Compact Disk (CD). The documentation will include a completed Functional Demonstration Summary Report and updated CommandCentral Solution Configuration / Diagram.

City Responsibilities

Acknowledged receipt of As-Built documentation provided by Motorola.

Completion Criteria

City receipt of As-Built documentation.

1.4.13 Transition to Support

Following the completion of the functional demonstration, City may commence using CommandCentral Aware for all purposes including productive use. Motorola Solutions

and City will schedule a mutually agreeable time to transition Customers on-going support to Motorola Solutions Support organization. The transition to the Motorola's Solutions Support organization completes the implementation activities.

Motorola Solutions Responsibilities:

1. Provide City with Motorola Solutions Support engagement process and contact information.
2. Gather contact information for City users authorized to engage Motorola Solutions Support.
3. Schedule and facilitate the handover call between City and Motorola Solutions Support organization.

City Responsibilities:

1. Provide Motorola Solutions with specific contact information for those users authorized to engage Motorola Solutions Support.
2. Participate in the handover call and familiarize themselves with the terms and conditions of support.
3. Engage the Motorola Solutions Support organization as needed.

Completion Criteria

Conclusion of the Handover to Support Call constitutes completion of implementation activities.

Amended Exhibit G

Amended CJIS Security Addendum

BACKGROUND

The FBI Criminal Justice Information Services (hereinafter referred to as "CJIS") Security Policy Version 5.7 mandates all agencies connected to the FBI CJIS systems adhere to regulation set forth within the Security Policy. Part of the Security Policy outlines directives dealing with personnel security. Included within the term "personnel" are all individuals who are utilized by criminal justice agencies to implement, deploy, and/or maintain the computers and/or networks of the criminal justice agency which are used to access FBI CJIS systems. These individuals include city/county IT personnel, and private vendors.

The subject of non-criminal justice governmental personnel and private vendors is addressed in Sections 5.1.1.4 and 5.1.1.5 of the CJIS Security Policy and in the Security Addendum, which can be found in Appendix H. These sections include information on documentation which should be maintained in order to remain in compliance with the Security Policy.

The subject of Cloud Computing is addressed in Section 5.10.1.5 of the CJIS Security Policy. This section contains the requirements for the use of City Data in a cloud environment.

PURPOSE

This Management Control Agreement establishes procedures and policies that will guide the parties to comply and adhere to the CJIS Security Policy pertaining to non-governmental personnel and private vendors and to the use of City Data in a cloud environment.

REQUIREMENTS

1. Motorola shall submit to both a criminal records check and a driver license records check for all Motorola and subcontractor personnel (if applicable) assigned to work under the Contract.

2. Any Motorola or subcontractor (if applicable) personnel that will be accessing Jacksonville Sheriff's Office (hereinafter referred to as JSO) office locations, computer databases, data, information systems, security equipment, or surveillance equipment in order to provide service delivery shall be subject to JSO security clearance or other security requirements as contained in section 282.318, Fla. Stat., and Rule 74-2.002, Florida Administrative Code (F.A.C) Each employee of Motorola and/or all subcontractors must pass a background check that meets requirements specified in the most recent publication of the Criminal Justice Information Systems (CJIS) Security Policy and all applicable Florida Statutes and Florida Administrative Code rules as stated herein.

3. The financial cost of these background checks will be the responsibility of Motorola and shall not be borne by JSO. All Motorola and subcontractor personnel (if applicable) assigned to work on the project shall submit fingerprints to the JSO for the purpose of undergoing background investigations through the Florida Department of Law Enforcement and/or the Federal Bureau of Investigation prior to any person being permitted to work in any JSO facility, JSO work location, or on any JSO computer or network.

4. All Motorola and subcontractor personnel (if applicable) assigned to work under the contract shall receive, and pass, CJIS Security Awareness Training for the appropriate security level commensurate with their job task, as determined by the JSO.

5. Motorola shall provide signed FBI CJIS security addendum acknowledgements for all personnel assigned to work under this contract.

CLOUD REQUIREMENTS

1. The storage of City Data, regardless of encryption status, shall only be permitted in cloud environments (e.g., government or third-party/commercial datacenters, etc.) which reside within the physical boundaries of APB-member country (i.e., U.S., U.S. territories, Indian tribes, and Canada) and legal authority of an APB-member agency (i.e., U.S. – federal/state/territory, Indian Tribe, or the Royal Canadian Mounted Police (RCMP)).

2. Metadata derived from unencrypted City Data shall be protected in the same manner as City Data and shall not be used for advertising or other commercial purposes by Motorola or any associated entity.

3. Motorola's use of metadata derived from unencrypted City Data shall be limited to the following uses: spam and spyware filtering, data loss prevention, spillage reporting, transaction logs (events and content as provided in CJIS Security Policy Section 5.4.1), data usage/indexing metrics, and diagnostic/syslog data.

SINGLE SOURCE AWARD **BID # SS-0068-19**

Subject: CommandCentral Aware and Video Surveillance Solutions

Department: Jacksonville Sheriff's Office

Description of Purchase:
Recommend approval to increase the Single Source Award for CommandCentral Aware and Video Surveillance Solutions, with Motorola Solutions, Inc., in the amount of $32,583.20, for the relocation of five (5) cameras removed from the Gator Bowl Blvd. area due to construction. The revised total not-to-exceed expenditure amount for the five (5) year award period is $3,405,869.20.

Funding Source: 00111.533101.546030.000000.00000236.00000.0000000- To be executed by formal contract amendment through the Office of General Counsel

Single Source Award To: Motorola Solutions, Inc.

Price Justification: See Attached

Total Award: $3,405,869.20 **Requisition #** N/A

Attachments: Recommendation Memo, Change Order and Previous Awards

Certification as to Single Source: Nick Burgos, Director of Investigations and Homeland Security

THE ABOVE PURCHASE IS RECOMMENDED FOR AWARD IN ACCORDANCE WITH CHAPTER 126.206.

ANALYST: Taryn Manser
