SUBJECT: Amendment 11A Contract #9952-05 CDB-0153-19
Hal Jones Contractor, a Division of Vecellio & Grogan, Inc
Design-Build Services for Marine Projects- Shoal Marker Buoys in Clapboard Creek

Based on the Design Criteria Package developed by City engineers, the Department of Public Works, in accordance with Design/Build CDB-0153-19 has completed negotiations with Hal Jones Contractor, a Division of Vecellio & Grogan, Inc. to install Shoal Marker Buoys in Clapboard Creek. Negotiations have resulted in the GMP amount of $73,223.00 as indicated on the attached Scope and Fee Summary Exhibit L-1 and allows for completion 120 days from the Notice to Proceed. Bonds are not included on this project. Hal Jones Contractor is committed to meeting the 10% JSEB goals for this contract.

Accordingly, this is to recommend that the Contract # 9952-05, originally executed December 9, 2019, between the City and Hal Jones Contractor, a Division of Vecellio & Grogan, Inc. for Design-Build Services for Marine Projects-Annual Contracts, be amended to incorporate the attached Scope and Fee Summary, Exhibit L-1 for Shoal Marker Buoys in Clapboard Creek for the GMP amount of $73,223.00, known as Amendment 11A

Funding for this project should be encumbered as follows:

Re: City Design-Build Marine
Marker Buoys in Back River

Dear Mr. Burket:

Hal Jones Contractor (HJC) is pleased to offer our proposal to furnish labor, materials, equipment and supervision to install buoys to mark a sandbar in Back River. Please see pricing and details below.

Lump Sum $73,223.00

Our proposal is based on the following clarifications and exceptions.

1. A bathymetric survey by ARC Surveying from approximately the tip of Blount Island to the mouth of Clapboard Creek is included in our price. This survey will be conducted upon contract execution.
2. Final quantity and exact locations of the buoys is not yet known. At this time, 20 buoys are included in the price. A unit price of $2,225.00 /ea. can be used to add or deduct the quantity of buoys from the Lump Sum price.
3. Engineering from MCE to determine quantity and locations of the buoys is included.
4. Please see attached buoy product information for Owner approval. These buoys are not lighted.
5. HJC planned to cast approximately 250 lb. concrete blocks to be used as anchors.
6. Builders risk insurance is not included.
7. Concrete testing for anchors is not included.
8. Bond is not included. If desired, please add 1%.
9. Permits are included.

Thank you for the opportunity to offer our proposal under the City's design-build marine contract. If you have any questions regarding this proposal, please do not hesitate to contact me.

Yours truly,

HAL JONES CONTRACTOR
A DIVISION OF VECELLIO & GROGAN, INC

Sur-Mark Buoy

Sur-Mark Buoy

Item # MB-SM

- Molded from tough, UV protected polyethylene
- Foam filled to positively displace water
- Internal concrete ballast is included
- Labels are sold seperately and are NOT included
- Does NOT include chain, shackle, or anchor weight

Qty 1

Details

Sur-Mark™ Buoys
Sur-Mark™ and Sur-Mark™ II regulatory buoys by Taylor Made are molded from tough, UV protected polyethylene and are foam filled to positively displace water. These buoys feature one-piece seamless construction, internal concrete ballast, recessed galvanized eye, and flat bottom for upright storage. Color labels (sold separately) fit both styles. Sur-Mark I and II buoys include orange marking tape.

Ballast/Anchoring:
Buoy includes an internal concrete ballast and recessed galvanized eye bolt, but does NOT include the chain, shackles, or anchor weight.

Product Highlights:
- Molded from tough, UV protected polyethylene
- Foam filled to positively displace water
- Labels are sold seperately and are NOT included
- Internal concrete ballast is included
- Recessed galvanized eye bolt (for chain or cable attachment) is included
- Does NOT include chain, shackle, or anchor weight
- Rated for freshwater and saltwater environments
