**Subject:** Single Source for Hurst Estrication Equipment

JFRD exclusively uses 16 sets of Hurst E-Draulics extrication equipment in our fleet. Along with the extrication tools, we have batteries and battery chargers that are exclusive to Hurst tools. These tools are secured in mounts that are permanently fixed to JFRD apparatus and these mounts are designed for Hurst tools only. In order to maintain continuity of extrication equipment and prevent the need to buy different batteries, chargers and tool mounts, JFRD must purchase the Hurst brand of extrication tools we currently use. Also, JFRD personnel continually transfer to different apparatus and it is imperative that we use the same model/ brand of extrication tool to prevent any operating errors during life-saving entrapment removal.
