Good Morning,

I need further clarification on the attached memo for piggyback.

1. Are we going to piggyback only to 1 vendor Top Line Recreations, Inc.?

Yes – Only Top Line for this request. We may use the contract in the future for other vendors.

2. Do we have approval clearance from Risk Management?

I am not sure if Risk has the vendor's insurance information. Will you be checking with them?

3. Do we have requested amount for the covered period of service?

I am not sure what this means. Typically, we just work on the project at hand and would not ask for more than the amount on the quote.

4. The period of service will be from date of executed contract through April 18, 2019, with 1 year renewal option.

OK.

Appreciate your prompt response.

DRUG FREE WORKPLACE CERTIFICATION FORM

In accordance with Florida Statute 287.087, preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids are equal with respect to price, quality and service are received by the State or by any political subdivision for the procurement of commodities or contractual services; a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs and penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1) notify employees that as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo-contendere to, any violation of chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. The IRS has created a page on IRS.gov for information about Form W-9, at *www.irs.gov/w9*. Information about any future developments affecting Form W-9 (such as legislation enacted after we release it) will be posted on that page.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, payments made to you in settlement of payment card and third party network transactions, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct.

Note. If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

If access is not reasonably close to the jobsite, any additional costs incurred due to having to transport materials and/or supplies will be the responsibility of the customer.
Rock/Foreign Object Clause. Most installations require digging of holes and footing equipment in concrete below finished grade. Removal of existing ground covers such as asphalt, concrete, tan bark, sand, pea gravel, wood fiber, rubber matting, poured-in-place rubber surfacing, or any other material that interferes or delays the digging of holes, is the responsibility of others, unless otherwise noted. PLAY THAT MOVES YOU®

Creating Play That Moves You requires dedication, research and a fierce passion for bringing a higher level of play to communities. The results are more than worth the effort. Products such as Novo® Playful Furniture and Taktiks® move us to design the best play environments for all. Taking play interaction to the next level is the Konnection™ Swing. There isn't a better way to connect on the playground - whether it's an adult and a child or two kids. The fusion of traditional and active-based play lays the foundation for an environment where everyone can develop physically, emotionally, socially and cognitively through play. It fosters opportunities for the types of experiences that bring communities together and move us in so many ways. Join Our Movement and see how you can bring a higher level of play to your community!

GET MOVING!

Burke's unique fitness offerings keep people of all ages moving! Our Intensity® and Nucleus® playgrounds feature a fusion of traditional and fitness-based play that engages children to move like never before. The ELEVATE® Fitness Course features challenging obstacles designed for healthy competition and fun for ages 5-12 or 13 plus. Our variety of fitness play options ensures everyone has the opportunity to reap the benefits of movement at any age and skill level.

MOVE YOUR MIND

Extensive research suggests that play provides tremendous developmental benefits to children. In fact, it's been said that children learn through play - it helps their brains and bodies develop. There's no such thing as too much of a good thing when it comes to play!

INTERACTIONS THAT MOVE US

Play brings communities together and strengthens families and friendships. Burke's playgrounds provide amazing opportunities for kids to develop socially from playing independently at a young age, transitioning to parallel play and learning how to cooperatively play together as their development continues.

MOTION THAT MOVES YOU

Movement is essential to life and to play. Motion play creates movement for children of all abilities and assists with many developmental areas, including increased spatial awareness, inner ear stimulation and balance. Motion can be soothing to children with sensory processing differences and offers an exciting activity for everyone to enjoy.

PLAY THAT MOVES DEVELOPMENT

Play is an important part of a child's emotional development and it is often through play that they learn necessary skills such as patience and empathy. Play also helps children learn how to express and manage their feelings, which is the grounds for much of a child's future success and well-being.

WORK THAT MOVES US

What we bring to work every day is more than just ourselves. Our ideas, craftsmanship and collaboration form our culture and help us bring a higher level of play to communities around the world.

HANDCRAFTED IN AMERICA'S HEARTLAND

Walk through our Fond du Lac, WI manufacturing facility and you will see playgrounds coming to life through the hands of our people. In the age of assembly lines, we work to combine efficiency with a personal touch that makes every playground special. Bringing quality playgrounds to communities like yours is Work That Moves Us, and we hope the playgrounds we make move you too.

SUPERIOR SERVICE

Customer Service is a hallmark of Burke and we take pride in the fact that when you call, we answer. Yes, a real-live person will answer your call and help to direct you to the proper person. We have factory-direct customer service representatives that are available to answer questions, help with replacements parts or field inquiries about installations.

YOUR BURKE REPRESENTATIVE

We as Burke Representatives are passionate about bringing play to your community and helping you design your perfect play environment! We are knowledgeable and experienced about the entire playground process from site evaluation to design to maintenance and will work with you beyond installation to make sure your playground is, and remains, all you dreamed!

BURKE'S HISTORY

John Edward was a farmer in Fond du Lac, Wisconsin and farmed the land the Burke company headquarters stands on today. In 1920, he incorporated a weather-stripping company that quickly expanded to include the design and production of designer radiator furniture. After receiving a request to fabricate a slide for a family friend, Burke entered the playground industry! Soon playground products were the company's main focus and they introduced Swing King, a residential line of play equipment.

When World War II began, Burke, like many companies, changed their focus to the war effort. J .E. Burke, always an inventor, devised a self-contained ammunition cart that could be parachuted to army personnel. The Parachute, as it was suitably named, was also used to deliver food and medical supplies. The company's dedication earned special recognition, and in 1943, the J.E. Burke Company was awarded an Excellence in War Production citation. Over the next 40 years, the Burke family grew the business and began to add interesting color and material combinations. In 1972, Burke invented the original Funnel Ball® that became a staple on playgrounds across the country.

In the late 1990's, Greg Burke, grandson of founder J.E. Burke, determined it was time to find a successor to lead the business into the 21st Century. Tim Ahern became the president/CEO of Burke in 1997 and remained until 2015 when Incline Equity Partners invested in Burke and Michael Phelan became the new president/CEO.

Most recently, in May 2017, The Halifax Group joined Burke's management team as an investment partner to continue the company's growth plans. All design and manufacturing operations continue to be located in Fond du Lac, Wisconsin on the same plot of land where J.E. Burke founded the company nearly 100 years ago.

Burke remains committed to the original innovation, customer service and superior quality that sustained the company for generations. We are bringing play to the next level with our focus on "Play That Moves You" and innovating products that move all of us in so many ways.

DIRECT-BOLT CONNECTION SYSTEM: Intensity, ELEVATE® Fitness Course, ACTIVATE® Fitness Circuit and Little Buddies® feature Burke's trusted direct-bolt connection that uses a durable, straightforward direct-bolt system to ensure a trouble-free installation and provide the necessary strength to accommodate the demands of playing children. Like our KoreKonnect system, Direct-Bolt connections are covered for 100 years under our Generations Warranty.

EZKONNECT® DECK MOUNTING SYSTEM: Our exclusive self-leveling deck attachment and factory CNC construction allows for faster and more precise location of decks during installation. The 2-bolt per corner deck attachment increases overall structure strength and stability.

PLATFORMS: Burke's oversized non-slip platforms are constructed of heavy-duty punched steel that can support more than 2 tons. Our vinyl coating is California compliant, free of lead and other hazardous heavy metals.

TAMPER-RESISTANT STAINLESS STEEL HARDWARE: All hardware is covered for 100 years under our Generations Warranty.

PREMIUM POWDER COATINGS: Our industry-leading powder coatings and finishes prevent fading, last longer and deter rust. We also offer a "coastal package" powder coat system. This special powder coat system for metal components and upright posts will provide additional corrosion and chemical protection along with added longevity to the color and gloss retention of the powder coated parts. Contact your Burke Representative for more information on colors, price and warranty.

COMPOUND PLASTICS WITH UV-16: You'll get long wear and bright, vibrant colors that hold up for years thanks to our thick, durable rotomolded plastics with UV-16 protection. This is why we can cover them for 15 years under our non-prorated Generations Warranty.

CLIMBING CABLES: Our climbing cables are flexible enough to provide movement, yet strong enough to last. Our ropes are made from 6 polyester cords with steel reinforcement wrapped around a synthetic fiber core. Each cord contains 8 galvanized steel strands tightly covered with polyester multi-fibers. Our RopeVenture® cables consist of 6 strands, each containing 24 stainless steel reinforcing strands within a nylon sleeve, wrapped around a solid nylon core.

ALUMINUM CONNECTORS: Swivel connectors at the end of our ropes allow assembly at any angle with no unwanted twists in the net. The aluminum fittings used to secure the joints are swaged in place to prevent any movement between the rope and fittings that could cause wear.

TESTIMONIALS

"Service, Safety, Quality. Three words I would use to describe the people, business model, and overall organizational standards that inspires the BCI Burke Company. Every organization has a unique set of challenges and goals when it comes to building an educational environment - and from our experience, BCI Burke came to the table ready to work with us as partners to meet those challenges and goals head on.

We chose to work with BCI Burke because we needed a reliable company that would be able to provide nothing less than the highest quality product with our own time limitations. As with most other businesses, we did not have the luxury of making an investment into a project of this magnitude and not feel 100% certain that we had gotten the very best of our dollar. We also had to assure our stakeholders that we would see that investment last the test of time.

BCI Burke offered us superb and consistent customer service, the ability to achieve our goal on a fast timetable, and the confidence that our playground is genuinely the very best in design and safety. This is something that we will showcase in our school for many years to come.

After working with the company, I know personally they are committed to go the extra mile to satisfy your needs. BCI Burke is a master in their field but also provide the customer with an intuitive understanding of service".

"I am writing to tell you how much I enjoyed and appreciated working with your local representative...Through the years, I have worked with a number of playground companies, but never with anyone with the professionalism, commitment and follow-through of (your Burke Rep). We are all so excited about our children having the opportunity to play on your wonderful equipment; of course, we want everything! We are so impressed with the many, many possible designs. Thank you for the quality of your equipment and your local representatives."
