SUBJECT: CONCRETE MAINTENANCE AND CONSTRUCTION – SOUTH AREA

BID #: CS-0312-17 **OPEN DATE: 2016-12-14**

GENERAL GOVERNMENT AWARDS COMMITTEE

KIND AND BASIS OF CONTRACT: CONSTRUCTION SERVICE – PERIOD OF SERVICE FROM DATE OF AWARD THRU SEPT. 30, 2017 WITH FOUR (4) ONE (1) YEAR RENEWAL OPTIONS

AGENCY: ROW & GROUNDS

BASIS OF AWARD: LOWEST RESPONSIVE, RESPONSIBLE BIDDER BASED ON THE TOTAL BASE BID

NUMBER OF BIDS INVITED: (4) **NUMBER RECEIVED:** (2) **OTHER:** (0)

SUMMARY OF BIDS AND RECOMMENDED ACTIONS:
Recommend approval to reject Aztec American Builders, Inc., due to company and sub-contractors not holding the proper licensing as required by State to perform the services described in in Section 30, pursuant to Sections 2.6.1.7 and 31.46.2.

Accordingly, recommend approval to award to the lowest responsive, responsible bidder, Onas Corporation in the amount of $1,000,000.00 for the service period from date of award through September 30, 2017 with four (4), one (1) year renewal options.

Funding for this award to be encumbered by account PWCP32ERD549-069505-PW0360-01, to be executed by Formal Contract through the Office of General Counsel.

December 28, 2016

MEMORANDUM

TO: Greg Pease, Chief,
Procurement Division

THRU: John P. Pappas P.E., Director of Public Works

FROM: Steven D. Long Jr., P.E. Chief
Right of Way and Stormwater Maintenance Division

RE: **RECOMMENDATION TO AWARD**
Concrete Maintenance & Construction-South Area

BID No.: **CS-0312-17**
Received Date: **December 14, 2016**
Award Amount: **$1,000,000.00**

Please be advised that the Right of Way and Stormwater Maintenance Division of the Department of Public Works has reviewed bids on the above-referenced contract and determined that Aztec American Builders Inc., the lowest bidder, and their listed sub-contractors do not meet the Project Specific Qualifications in accordance with Section 2 Instruction To Bidders Page 2-3 Paragraphs 2.6.1.6 and 2.6.1.7.

Onas Corporation, 2050 University Blvd. N., Jacksonville Florida, 32211, submitted the lowest qualified responsive bid in the amount of $1,496,520.00 for the above-referenced bid. There were a total of four bidders.

We, therefore, recommend the subject bid in the amount of $1,000,000.00 be awarded to Onas Corporation the lowest conforming bidder. Work will be issued by individual purchase orders and funding should be encumbered from Right of Way and Stormwater Maintenance Division account PWCP32ERD549,69505-PW0360-01.

If you require any additional information, you may contact Robert Young at 472-2860.

NOTIFICATION OF FORMAL BID REJECTION

BIDDERS' NAME: Aztec American Builders, Inc.

CONTACT NAME: Guido Gonzalez

BID NUMBER: CS-0312-17

NAME OF BID: Concrete Maintenance and Construction (South Area)

DATE OPENED: December 14, 2016

REASON FOR REJECTION:

Contractor is being rejected for not holding, nor listing a subcontractor as prescribed in Appendix C, the proper licensing as required by the state to perform the services described in Section 30 specific to storm sewers pursuant to Section 2.6.1.7 and 31.46.2.

IF YOU WISH TO PROTEST THE RECOMMENDED REJECTION OF THIS BID, PLEASE RESPOND IN ACCORDANCE WITH THE CITY OF JACKSONVILLE BID PROTEST PROCEDURES. DIRECT ALL PROTEST TO THE RESPECTIVE ANALYST/BUYER, AT CRENFROE@COJ.NET.

ANALYST'S SIGNATURE: _____
CHELSEY RENFROE

appearing on the bid envelope containing the bid shall not be considered.

2.5.5 In the preparation of the Bid, the BIDDER shall include all additional costs for any shift work that may be necessary in the completion of the project. The auxiliary cost should be for items such as water outages, traffic control officers, night lighting, etc. The above referenced costs shall be included into the items which are construction requiring shift work.

2.6 QUALIFICATIONS OF BIDDERS

2.6.1 The Contract shall only be awarded to a responsible Bidder who is qualified by experience and who is financially capable of doing the work specified. In order to award the Contract, the Bidder must promptly submit the following upon request:

2.6.1.1 Experience record showing training and experience on similar work.

2.6.1.2 A list and brief description of satisfactorily completed similar work, its location and date of completion.

2.6.1.3 Evidence of organization, capital, equipment, and machinery necessary to complete the work within the time limit established.

2.6.1.4 Furnish the name of its surety for Contract Bonds and a statement from the surety or authorized agent of the surety stating the surety will provide Contract Bonds if the Bidder is awarded the Contract for this project.

2.6.1.5 Where applicable, evidence that the Bidder is legally qualified to contract for and perform the project (see section 20.54, General Conditions).

Required: Yes X No_____.

2.6.1.6 Where applicable, evidence that Plumbing, Electrical, Mechanical and other contractor or subcontractor are legally qualified to perform work on the project in specialty trades (See Section 20.55, General Conditions).

2.6.1.7 Work requiring the installation of water, sewer and storm drainage systems shall be performed by contractors licensed as underground utility contractors, in accordance with Chapter 489 Florida Statutes.

Required: Yes X No_____.

31.46 PIPE (Line Item No. 34- 42):

31.46.1 Pipe shall consist of the licensed Contractor performing all work and operations required to install new conduits of various size, shape and type (Polyvinyl Chloride "PVC", Reinforced Concrete "RCP" and Corrugated Metal "CMP"). All work shall comply with the requirements of City Standard Specification Sections 200- 207, and all other applicable City Standard Specifications and Details, this section and be in accordance with the American Disabilities Act (ADA) Guidelines and Standards for Transportation Facilities, Downtown Development Review Board (DDRB) guidelines, existing concrete, roadway and drainage, approved drawings and as determined by the Engineer. Additionally, this item shall only be performed when directed by the Engineer or Engineer's representative.

31.46.2 The Contractor is reminded of the requirements of Section 2.6, Paragraph 2.6.1.7, of these Contract Documents, wherein it is stated that "Work requiring the installation of water, sewer and storm drainage systems shall be performed by contractors licensed as a General Contractor or Underground Utility and Excavation Contractor, in accordance with Chapter 489, Florida Statutes."

31.46.3 Construction

- Unless otherwise directed by the Engineer, all pipe bedding shall be Case 2 as detailed on City Standard Drawing D-802. Cost for bedding will be included in the Unit Price of the pipe being installed.

- All pipe joints shall be wrapped with a geotextile filter fabric in accordance with the requirements of Florida DOT Standard Index No. 280. The fabric will extend twelve (12) inches either side of the joint with a minimum of one foot overlap. The cost of the filter fabric wrap and installation shall be included in the Unit Price of the pipe being installed.

31.46.4 Material

- PVC DR-18 Pipe or greater – Pipe supplied shall have a pressure rating suitable for water systems. Pipe will be used to replace or reroute existing PVC water or sewer systems. Joints and/or couplings will be provided that equal or exceed the existing fittings with respect to pressure and performance.

- Reinforced Concrete Pipe - All Reinforced Concrete Pipe (RCP) and Elliptical Reinforced Concrete Pipe (ERCP) shall be in accordance

B. **BASIS OF AWARD**

It is the intent of the City to award this project to the lowest responsive, responsible bidder contingent on the availability of funds and to a bidder who currently does not hold a Concrete Maintenance and Construction contract North or West Area (Bid # CS-0002-16). Bids from a Contractor who currently holds a Concrete Maintenance and Construction contract North or West Area (Bid # CS-0002-16) will not be considered and they will not be awarded this project.

The CITY has the right to reject any or all bids.

C. **REVISIONS OF BID PROPOSAL FORM:**

Request for revision of the Bid Proposal Form must be made to the ENGINEER at least ten (10) days prior to the Bid Opening date. Revision of the Bid Proposal by the Bidder will void the Bid.

D. **CONTRACT EXPIRATION DATE:**

The Contract expiration date shall be established 120 calendar days after the scheduled construction completion date in order to comply with Executive Order 2013-05.

E. **BID CHANGES:**

No changes in the amount of Bid appearing on the outside of the Bid envelope will be considered. Only the amounts shown on bidding documents inside the envelope will be considered. The person signing the bid must initial all changes, corrections, and erasures.

F. **CONSTRUCTION COMPLETION:**

The intent of this contract is that the Contractors provide concrete maintenance and construction services during the period of fiscal year 2017(October 1, 2016- September 30, 2017). The Contractors shall begin work within ten (10) calendar days, including Sundays and holidays, after issuance of a Blanket Order or Purchase Order from the City to begin work. No Blanket Orders or Purchase Orders will be issued under this Contract after September 30, 2017. The active Contract will expire 120 days thereafter. All work started under a Blanket Order or Purchase Order shall be completed by the expiration date. By mutual agreement of both parties, provided funds are available, the Contract may be extended four (4) times for a period of one (1) year each. Each extension amendment of the contract will be amended prior to September 30th of the current contract fiscal year with no adjustment of the unit prices allowed; unit prices will remain unchanged throughout the terms of the Contract.

SECTION 30

SCOPE OF WORK

30.1 SCOPE:

This project consists of the Contractor furnishing all labor, materials and equipment for the maintenance and construction of concrete sidewalk, curb, curb and gutter, driveways, roadway, minor storm sewer and ancillary items in South Area one of three (3) designated areas of the City of Jacksonville. The work will be in accordance with the Contract Documents.

30.2 INTENT OF PROJECT:

It is the intent of these contract documents is to provide a continuing contract between the City of Jacksonville and a qualified Contractor during the period of fiscal year 2017 (Contract Date – September 30, 2017) for the maintenance and construction of sidewalks and other concrete structure resulting in a safe and complete sidewalk system and positive drainage within the City limits.

It is not the intent of these Contract Documents to minutely define the mode and fabric of construction on this project, but rather to set forth reasonable and rational criteria for the construction thereof.

30.3 CONSTRUCTION PLANS:

The City of Jacksonville will supply construction drawings, as-builts, Jacksonville GIS infrastructure maps and/ or Citizen Active Response Effort (C.A.R.E) tickets for selected project sites. The Contractor shall construct the project in accordance with these Specifications and plan provided. Other project sites will be constructed in accordance with these Specifications and as approved by the Chief, Right of Way and Stormwater Division.

A City of Jacksonville Representative and the Contractor shall meet on each project site to discuss the specific site's scope of work prior to the Contractor mobilizing. The conclusion will result in an agreed estimate of contract unit prices necessary to complete the work. At no time shall the Contractor dictate unit prices or quantities required to produce a complete project.

The Contractor shall obtain all required permits (local, state and Federal), including but not limited to, the NPDES Permit and the approval of the Maintenance of Traffic Plan prior to the work. The Contractor must adhere to all permit requirements.

30.4 PROJECT SITE LOCATION:

Project sites for this project will be located within the limits of South Area as shown on the Project Location Map below. Work may take place on any street, highway, on City property, or on private property with an approved easement.

30.3.1 The North Area includes all of the City north of the St. Johns River and extending west to the CSX tracks that run from Nassau County to the St. Johns River.

30.3.2 The South Area includes all of the City south of the St. Johns River.

30.3.3 The West Area includes all of the City west of the St. Johns River extending north to the CSX tracks that run from the Nassau County to the St. Johns River.

The 2016 Florida Statutes

Title XXXII
REGULATION OF PROFESSIONS AND OCCUPATIONS

Chapter 489
CONTRACTING

View Entire Chapter

489.105 Definitions.—As used in this part:

(1) "Board" means the Construction Industry Licensing Board.

(2) "Department" means the Department of Business and Professional Regulation.

(3) "Contractor" means the person who is qualified for, and is only responsible for, the project contracted for and means, except as exempted in this part, the person who, for compensation, undertakes to, submits a bid to, or does himself or herself or by others construct, repair, alter, remodel, add to, demolish, subtract from, or improve any building or structure, including related improvements to real estate, for others or for resale to others; and whose job scope is substantially similar to the job scope described in one of the paragraphs of this subsection. For the purposes of regulation under this part, the term "demolish" applies only to demolition of steel tanks more than 50 feet in height; towers more than 50 feet in height; other structures more than 50 feet in height; and all buildings or residences. Contractors are subdivided into two divisions, Division I, consisting of those contractors defined in paragraphs (a)-(c), and Division II, consisting of those contractors defined in paragraphs (d)-(q):

(a) "General contractor" means a contractor whose services are unlimited as to the type of work which he or she may do, who may contract for any activity requiring licensure under this part, and who may perform any work requiring licensure under this part, except as otherwise expressly provided in s. 489.113.

(b) "Building contractor" means a contractor whose services are limited to construction of commercial buildings and single-dwelling or multiple-dwelling residential buildings, which do not exceed three stories in height, and accessory use structures in connection therewith or a contractor whose services are limited to remodeling, repair, or improvement of any size building if the services do not affect the structural members of the building.

(c) "Residential contractor" means a contractor whose services are limited to construction, remodeling, repair, or improvement of one-family, two-family, or three-family residences not exceeding two habitable stories above no more than one uninhabitable story and accessory use structures in connection therewith.

(d) "Sheet metal contractor" means a contractor whose services are unlimited in the sheet metal trade and who has the experience, knowledge, and skill necessary for the manufacture, fabrication, assembling, handling, erection, installation, dismantling, conditioning, adjustment, insulation, alteration, repair, servicing, or design, if not prohibited by law, of ferrous or nonferrous metal work of U.S. No. 10 gauge or its equivalent or lighter gauge and of other materials, including, but not limited to, fiberglass, used in lieu thereof and of air-handling systems, including the setting of air-handling equipment and reinforcement of same, the balancing of air-handling systems, and any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system.

(e) "Roofing contractor" means a contractor whose services are unlimited in the roofing trade and who has the experience, knowledge, and skill to install, maintain, repair, alter, extend, or design, if not prohibited by law, and use materials and items used in the installation, maintenance, extension, and alteration of all kinds of roofing, waterproofing, and coating, except when coating is not represented to protect, repair, waterproof, stop leaks, or extend the life of the roof. The scope of work of a roofing contractor also includes skylights and any related work, required roof-deck attachments, and any repair or replacement of wood roof sheathing or fascia as needed during roof repair or replacement and any related work.

(f) "Class A air-conditioning contractor" means a contractor whose services are unlimited in the execution of contracts requiring the experience, knowledge, and skill to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, central air-conditioning, refrigeration, heating, and ventilating systems, including duct work in connection with a complete system if such duct work is performed by the contractor as necessary to complete an air-

distribution system, boiler and unfired pressure vessel systems, and all appurtenances, apparatus, or equipment used in connection therewith, and any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system; to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, piping, insulation of pipes, vessels and ducts, pressure and process piping, and pneumatic control piping; to replace, disconnect, or reconnect power wiring on the load side of the dedicated existing electrical disconnect switch; to install, disconnect, and reconnect low voltage heating, ventilating, and air-conditioning control wiring; and to install a condensate drain from an air-conditioning unit to an existing safe waste or other approved disposal other than a direct connection to a sanitary system. The scope of work for such contractor also includes any excavation work incidental thereto, but does not include any work such as liquefied petroleum or natural gas fuel lines within buildings, except for disconnecting or reconnecting changeouts of liquefied petroleum or natural gas appliances within buildings; potable water lines or connections thereto; sanitary sewer lines; swimming pool piping and filters; or electrical power wiring. A Class A air-conditioning contractor may test and evaluate central air-conditioning, refrigeration, heating, and ventilating systems, including duct work; however, a mandatory licensing requirement is not established for the performance of these specific services.

(g) "Class B air-conditioning contractor" means a contractor whose services are limited to 25 tons of cooling and 500,000 Btu of heating in any one system in the execution of contracts requiring the experience, knowledge, and skill to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, central air-conditioning, refrigeration, heating, and ventilating systems, including duct work in connection with a complete system only to the extent such duct work is performed by the contractor as necessary to complete an air-distribution system being installed under this classification, and any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system; to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, piping and insulation of pipes, vessels, and ducts; to replace, disconnect, or reconnect power wiring on the load side of the dedicated existing electrical disconnect switch; to install, disconnect, and reconnect low voltage heating, ventilating, and air-conditioning control wiring; and to install a condensate drain from an air-conditioning unit to an existing safe waste or other approved disposal other than a direct connection to a sanitary system. The scope of work for such contractor also includes any excavation work incidental thereto, but does not include any work such as liquefied petroleum or natural gas fuel lines within buildings, except for disconnecting or reconnecting changeouts of liquefied petroleum or natural gas appliances within buildings; potable water lines or connections thereto; sanitary sewer lines; swimming pool piping and filters; or electrical power wiring. A Class B air-conditioning contractor may test and evaluate central air-conditioning, refrigeration, heating, and ventilating systems, including duct work; however, a mandatory licensing requirement is not established for the performance of these specific services.

(h) "Class C air-conditioning contractor" means a contractor whose business is limited to the servicing of air-conditioning, heating, or refrigeration systems, including any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system, and whose certification or registration, issued pursuant to this part, was valid on October 1, 1988. Only a person who was registered or certified as a Class C air-conditioning contractor as of October 1, 1988, shall be so registered or certified after October 1, 1988. However, the board shall continue to license and regulate those Class C air-conditioning contractors who held Class C licenses before October 1, 1988.

(i) "Mechanical contractor" means a contractor whose services are unlimited in the execution of contracts requiring the experience, knowledge, and skill to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, central air-conditioning, refrigeration, heating, and ventilating systems, including duct work in connection with a complete system if such duct work is performed by the contractor as necessary to complete an air-distribution system, boiler and unfired pressure vessel systems, lift station equipment and piping, and all appurtenances, apparatus, or equipment used in connection therewith, and any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system; to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, piping, insulation of pipes, vessels and ducts, pressure and process piping, pneumatic control piping, gasoline tanks and pump installations and piping for same, standpipes, air piping, vacuum line piping, oxygen lines, nitrous oxide piping, ink and chemical lines, fuel transmission lines, liquefied petroleum gas lines within buildings, and natural gas fuel lines within buildings; to replace, disconnect, or reconnect power wiring on the load side of the dedicated existing electrical disconnect switch; to install, disconnect, and reconnect low voltage heating, ventilating, and air-conditioning control wiring; and to install a condensate drain from an air-conditioning unit to an existing safe waste or other approved disposal other than a direct connection to a sanitary system. The scope of work for such contractor also includes any excavation work incidental thereto, but does not include any work such as potable water lines or connections thereto, sanitary sewer

lines, swimming pool piping and filters, or electrical power wiring. A mechanical contractor may test and evaluate central air-conditioning, refrigeration, heating, and ventilating systems, including duct work; however, a mandatory licensing requirement is not established for the performance of these specific services.

(j) "Commercial pool/spa contractor" means a contractor whose scope of work involves, but is not limited to, the construction, repair, and servicing of any swimming pool, or hot tub or spa, whether public, private, or otherwise, regardless of use. The scope of work includes the installation, repair, or replacement of existing equipment, any cleaning or equipment sanitizing that requires at least a partial disassembling, excluding filter changes, and the installation of new pool/spa equipment, interior finishes, the installation of package pool heaters, the installation of all perimeter piping and filter piping, and the construction of equipment rooms or housing for pool/spa equipment, and also includes the scope of work of a swimming pool/spa servicing contractor. The scope of such work does not include direct connections to a sanitary sewer system or to potable water lines. The installation, construction, modification, or replacement of equipment permanently attached to and associated with the pool or spa for the purpose of water treatment or cleaning of the pool or spa requires licensure; however, the usage of such equipment for the purposes of water treatment or cleaning does not require licensure unless the usage involves construction, modification, or replacement of such equipment. Water treatment that does not require such equipment does not require a license. In addition, a license is not required for the cleaning of the pool or spa in a way that does not affect the structural integrity of the pool or spa or its associated equipment.

(k) "Residential pool/spa contractor" means a contractor whose scope of work involves, but is not limited to, the construction, repair, and servicing of a residential swimming pool, or hot tub or spa, regardless of use. The scope of work includes the installation, repair, or replacement of existing equipment, any cleaning or equipment sanitizing that requires at least a partial disassembling, excluding filter changes, and the installation of new pool/spa equipment, interior finishes, the installation of package pool heaters, the installation of all perimeter piping and filter piping, and the construction of equipment rooms or housing for pool/spa equipment, and also includes the scope of work of a swimming pool/spa servicing contractor. The scope of such work does not include direct connections to a sanitary sewer system or to potable water lines. The installation, construction, modification, or replacement of equipment permanently attached to and associated with the pool or spa for the purpose of water treatment or cleaning of the pool or spa requires licensure; however, the usage of such equipment for the purposes of water treatment or cleaning does not require licensure unless the usage involves construction, modification, or replacement of such equipment. Water treatment that does not require such equipment does not require a license. In addition, a license is not required for the cleaning of the pool or spa in a way that does not affect the structural integrity of the pool or spa or its associated equipment.

(l) "Swimming pool/spa servicing contractor" means a contractor whose scope of work involves, but is not limited to, the repair and servicing of a swimming pool, or hot tub or spa, whether public or private, or otherwise, regardless of use. The scope of work includes the repair or replacement of existing equipment, any cleaning or equipment sanitizing that requires at least a partial disassembling, excluding filter changes, and the installation of new pool/spa equipment, interior refinishing, the reinstallation or addition of pool heaters, the repair or replacement of all perimeter piping and filter piping, the repair of equipment rooms or housing for pool/spa equipment, and the substantial or complete draining of a swimming pool, or hot tub or spa, for the purpose of repair or renovation. The scope of such work does not include direct connections to a sanitary sewer system or to potable water lines. The installation, construction, modification, substantial or complete disassembly, or replacement of equipment permanently attached to and associated with the pool or spa for the purpose of water treatment or cleaning of the pool or spa requires licensure; however, the usage of such equipment for the purposes of water treatment or cleaning does not require licensure unless the usage involves construction, modification, substantial or complete disassembly, or replacement of such equipment. Water treatment that does not require such equipment does not require a license. In addition, a license is not required for the cleaning of the pool or spa in a way that does not affect the structural integrity of the pool or spa or its associated equipment.

(m) "Plumbing contractor" means a contractor whose services are unlimited in the plumbing trade and includes contracting business consisting of the execution of contracts requiring the experience, financial means, knowledge, and skill to install, maintain, repair, alter, extend, or, if not prohibited by law, design plumbing. A plumbing contractor may install, maintain, repair, alter, extend, or, if not prohibited by law, design the following without obtaining an additional local regulatory license, certificate, or registration: sanitary drainage or storm drainage facilities, water and sewer plants and substations, venting systems, public or private water supply systems, septic tanks, drainage and supply wells, swimming pool piping, irrigation systems, and solar heating water systems and all appurtenances, apparatus, or equipment

used in connection therewith, including boilers and pressure process piping and including the installation of water, natural gas, liquefied petroleum gas and related venting, and storm and sanitary sewer lines. The scope of work of the plumbing contractor also includes the design, if not prohibited by law, and installation, maintenance, repair, alteration, or extension of air-piping, vacuum line piping, oxygen line piping, nitrous oxide piping, and all related medical gas systems; fire line standpipes and fire sprinklers if authorized by law; ink and chemical lines; fuel oil and gasoline piping and tank and pump installation, except bulk storage plants; and pneumatic control piping systems, all in a manner that complies with all plans, specifications, codes, laws, and regulations applicable. The scope of work of the plumbing contractor applies to private property and public property, including any excavation work incidental thereto, and includes the work of the specialty plumbing contractor. Such contractor shall subcontract, with a qualified contractor in the field concerned, all other work incidental to the work but which is specified as being the work of a trade other than that of a plumbing contractor. This definition does not limit the scope of work of any specialty contractor certified pursuant to s. 489.113(6) and does not require certification or registration under this part as a category I liquefied petroleum gas dealer, LP gas installer, or specialty installer who is licensed under chapter 527 or an authorized employee of a public natural gas utility or of a private natural gas utility regulated by the Public Service Commission when disconnecting and reconnecting water lines in the servicing or replacement of an existing water heater. A plumbing contractor may perform drain cleaning and clearing and install or repair rainwater catchment systems; however, a mandatory licensing requirement is not established for the performance of these specific services.

(n) "Underground utility and excavation contractor" means a contractor whose services are limited to the construction, installation, and repair, on public or private property, whether accomplished through open excavations or through other means, including, but not limited to, directional drilling, auger boring, jacking and boring, trenchless technologies, wet and dry taps, grouting, and slip lining, of main sanitary sewer collection systems, main water distribution systems, storm sewer collection systems, and the continuation of utility lines from the main systems to a point of termination up to and including the meter location for the individual occupancy, sewer collection systems at property line on residential or single-occupancy commercial properties, or on multioccupancy properties at manhole or wye lateral extended to an invert elevation as engineered to accommodate future building sewers, water distribution systems, or storm sewer collection systems at storm sewer structures. However, an underground utility and excavation contractor may install empty underground conduits in rights-of-way, easements, platted rights-of-way in new site development, and sleeves for parking lot crossings no smaller than 2 inches in diameter if each conduit system installed is designed by a licensed professional engineer or an authorized employee of a municipality, county, or public utility and the installation of such conduit does not include installation of any conductor wiring or connection to an energized electrical system. An underground utility and excavation contractor may not install piping that is an integral part of a fire protection system as defined in s. 633.102 beginning at the point where the piping is used exclusively for such system.

(o) "Solar contractor" means a contractor whose services consist of the installation, alteration, repair, maintenance, relocation, or replacement of solar panels for potable solar water heating systems, swimming pool solar heating systems, and photovoltaic systems and any appurtenances, apparatus, or equipment used in connection therewith, whether public, private, or otherwise, regardless of use. A contractor, certified or registered pursuant to this chapter, is not required to become a certified or registered solar contractor or to contract with a solar contractor in order to provide services enumerated in this paragraph that are within the scope of the services such contractors may render under this part.

(p) "Pollutant storage systems contractor" means a contractor whose services are limited to, and who has the experience, knowledge, and skill to install, maintain, repair, alter, extend, or design, if not prohibited by law, and use materials and items used in the installation, maintenance, extension, and alteration of, pollutant storage tanks. Any person installing a pollutant storage tank shall perform such installation in accordance with the standards adopted pursuant to s. 376.303.

(q) "Specialty contractor" means a contractor whose scope of work and responsibility is limited to a particular phase of construction established in a category adopted by board rule and whose scope is limited to a subset of the activities described in one of the paragraphs of this subsection.

(4) "Primary qualifying agent" means a person who possesses the requisite skill, knowledge, and experience, and has the responsibility, to supervise, direct, manage, and control the contracting activities of the business organization with which he or she is connected; who has the responsibility to supervise, direct, manage, and control construction activities on a job for which he or she has obtained the building permit; and whose technical and personal qualifications have been determined by investigation and examination as provided in this part, as attested by the department.

(5) "Secondary qualifying agent" means a person who possesses the requisite skill, knowledge, and experience, and has the responsibility to supervise, direct, manage, and control construction activities on a job for which he or she has obtained a permit, and whose technical and personal qualifications have been determined by investigation and examination as provided in this part, as attested by the department.

(6) "Contracting" means, except as exempted in this part, engaging in business as a contractor and includes, but is not limited to, performance of any of the acts as set forth in subsection (3) which define types of contractors. The attempted sale of contracting services and the negotiation or bid for a contract on these services also constitutes contracting. If the services offered require licensure or agent qualification, the offering, negotiation for a bid, or attempted sale of these services requires the corresponding licensure. However, the term "contracting" shall not extend to an individual, partnership, corporation, trust, or other legal entity that offers to sell or sells completed residences on property on which the individual or business entity has any legal or equitable interest, or to the individual or business entity that offers to sell or sells manufactured or factory-built buildings that will be completed on site on property on which either party to a contract has any legal or equitable interest, if the services of a qualified contractor certified or registered pursuant to the requirements of this chapter have been or will be retained for the purpose of constructing or completing such residences.

(7) "Certificate" means a certificate of competency issued by the department as provided in this part.

(8) "Certified contractor" means any contractor who possesses a certificate of competency issued by the department and who shall be allowed to contract in any jurisdiction in the state without being required to fulfill the competency requirements of that jurisdiction.

(9) "Registration" means registration with the department as provided in this part.

(10) "Registered contractor" means any contractor who has registered with the department pursuant to fulfilling the competency requirements in the jurisdiction for which the registration is issued. Registered contractors may contract only in such jurisdictions.

(11) "Certification" means the act of obtaining or holding a certificate of competency from the department as provided in this part.

(12) "Local construction regulation board" means a board, composed of not fewer than three residents of a county or municipality, which the governing body of that county or municipality may create and appoint to maintain the proper standard of construction of that county or municipality.

(13) "Business organization" means any partnership, corporation, business trust, joint venture, or other legal entity which engages or offers to engage in the business of contracting or acts as a contractor as defined in this section.

(14) "Financially responsible officer" means a person other than the primary qualifying agent who with the approval of the board assumes personal responsibility for all financial aspects of the business organization.

(15) "Structural component" means any vertical or horizontal load-bearing member of a structure which supports dead or live loads in addition to its own weight and includes, but is not limited to, a foundation, an exterior or interior load-bearing wall, a column, a column beam, a floor, and a roof structure.

(16) "Arbitration" means a process whereby a neutral third person or panel, called an arbitrator or arbitration panel, considers the facts and arguments presented by the parties and renders a decision which is binding on the parties.

(17) "Pollutant storage tank" means a tank, together with associated piping or dispensing facilities, which is or could be used for the storage or supply of pollutants as defined in s. 376.301 and which is required to be registered under chapter 17-761, Florida Administrative Code.

(18) "Tank" means any container other than one which is aboveground and either elevated or situated upon an impermeable surface, or which is located in an accessible underground area and either elevated or situated upon an impermeable surface therein, in such manner that any leak in such container may be readily detected.

(19) "Initial issuance" means the first time a certificate or registration is granted to an individual or business organization, including the first time an individual becomes a qualifying agent for that business organization and the first time a business organization is qualified by that individual.

History.—ss. 2, 17, ch. 79-200; ss. 1, 3, ch. 80-85; s. 367, ch. 81-259; ss. 2, 3, ch. 81-318; ss. 28, 49, ch. 82-179; s. 1, ch. 83-140; s. 5, ch. 83-160; s. 1, ch. 85-290; ss. 27, 31, ch. 86-159; s. 6, ch. 87-374; ss. 3, 20, 21, ch. 88-156; s. 2, ch. 89-343; s. 30, ch. 89-374; ss. 33, 34, ch. 90-228; ss. 35, 66, ch. 91-137; s. 4, ch. 91-429; s. 1, ch. 92-55; s. 10, ch. 92-115; s. 57, ch. 92-149; s. 4, ch. 93-154; s. 2, ch. 93-166; s. 256, ch. 94-119; s. 184, ch. 94-218; s. 1, ch. 96-365; s. 1126, ch. 97-103; s. 8, ch. 98-170; ss. 23, 59, ch. 98-419; s. 33, ch. 2000-372; s. 6, ch. 2005-30; s. 4, ch. 2008-191; s. 30, ch. 2008-240; s. 26, ch. 2009-195; s. 14, ch. 2011-222; s. 9, ch. 2012-13; s. 15, ch. 2012-72; s. 144, ch. 2013-183; s. 3, ch. 2016-129.
