JUSTIFICATION FOR SINGLE SOURCE (JSS)

Pursuant to the City of Jacksonville Procurement Code§ 126.206 & § 126.312, when requesting a purchase from a vendor subject to the referenced sections, please complete this form to justify your request and submit to Procurement with applicable attachments.

1. Requesting Agency:	Jacksonville Sheriff's Office (JSO)
2. Nature and/or description of the requirement being requested. ***Identify each item, component or service being procured. (Attach quote/proposal):*** ***Why does the City need these particular goods or services?***	Full Lead Recovery from Range 1 – 4 at the Jacksonville Sheriff's Office Gun Range. Lead removal for the face of the impact berm, removing an average depth of 18" to as deep as 36" from the front surface of berm to a maximum height of 25' on each of the four berms. The City needs these particular goods or services to ensure the integrity of the berm. As it stands now, the berm is saturated with spent lead, which is causing new lead to fragment upon impact and the fragmented pieces are flying out toward the firing line, which has resulted in shooters being struck with debris.
3. Provide a detailed justification as to why the requested goods/services can only be efficiently and effectively procured through the recommended Single Source vendor:	En-Range is the only fully licensed EPA certified and completely insured company dedicated to cleaning, servicing, and maintaining outdoor shooting ranges in the State of Florida. Also, no other company could provide the services needed in a timely manner.
4. Date of Request	5/12/2023

5. Summary of Market Research

After conducting an extensive search of companies who provide this type of service we found that En-Range is the only company who is able to provide the services for us in a timely manner.

ENVIRONMENTAL SERVICES FOR
INDOOR & OUTDOOR RANGES
Much more than lead & brass removal

Date: March 15, 2023

To: Jacksonville Sheriff's Department

Subject: Justification for Sole Source

En.Range, Inc. is the only fully-licensed, EPA certified, and completely-insured company dedicated to cleaning, servicing, and maintaining indoor and outdoor shooting ranges based in the state of Florida. We specialize in the removal of lead from outdoor shooting ranges and provide a one-stop, full service solution unique in this industry.

Unlike other national competitors that subcontract out their work or hire temporary, unskilled, local laborers, every crew that En.Range deploys is staffed by company employees. Our employees are regularly tested to meet the OSHA heath threshold for lead, trained in the proper safety regulations applicable to working at shooting ranges, lead-contaminated materials handling, and EPA safety and environmental regulations.

En.Range has developed an exclusive recycling program that allows our clients to recycle lead and lead contaminated materials that are generated by the operation of a shooting range. We help clients minmize their hazardous materials landfill footprint significantly—or eliminate it all together—while offering cost savings not available from any other competitor.

Unique to this industry, we offer full indemnification, backed by a $2M insurance policy, that eliminates liablity for our clients for all materials removed from the shooting range.

En.Range services hundreds of gun ranges in Florida and across the United States. We have many law enforcement agencies as clients including the FBI, ATF, CBP and the U.S. Air Force. In Florida, we are proud to call many law enforcement agencies our customers, including:

- Kissimmee Police Department
- Monroe Country Sheriff's Office
- Orlando Police Department
- Tampa International Airport Police Department
- Nassau County Sheriff's Office
- FDLE Crime Labs

We look forward to earning your business and working with you. Please feel free to call the office anytime or my mobile phone at 214-394-4687.

Sincerely,

Daryl A. Pollak
