SUBJECT: CDB-0006-16 – Design-Build Services - Horizontal & Civil Engineering – Temporary Access Roadway for Fire Station 73 AMENDMENT 20A

Based on an onsite inspection, the Fire & Rescue Department, in accordance with Design/Build CDB-0006-16, Contract 6533-54 has completed negotiations with J. B. Coxwell Contracting, Inc., to provide a temporary access roadway that provides immediate access from Fire Station 73 to the Cecil Field airport and runway. Negotiations have resulted in the attached Scope and Fee, Exhibit V-1 for the GMP amount of $12,406.73 for this work and allows for the completion within 30 days from notice to proceed.

Accordingly, this is to recommend that Contract No. 6533-54, originally executed May 2, 2016, between the City and J. B. Coxwell Contracting, Inc. for Design-Build Services- Horizontal & Civil Engineering, be amended to incorporate the attached Scope and Fee Summary, Exhibit V-1 for Temporary Access Roadway for Fire Station 73 for the GMP amount of $12,406.73, known as Amendment 20A.

To be encumbered as follows:

FRCP32EFS-069505-FR0051-01	$12,406.73
TOTAL	$12,406.73

Re: Scope of Services and Fee Proposal for Earthwork for Temporary Access Roadway Design-Build Construction Delivery for City of Jacksonville-RFQ CDB-0006-16 City Contract No. 6533-54

Dear Mr. Peterson:

J.B. Coxwell Contracting, Inc. (JBCCI) is pleased to submit for your review and consideration the following lump sum fee proposal for the earthwork associated with the construction of a temporary access road for the new JFRD Station at Cecil Commerce Center.

The proposed total lump sum amount for this project is $12,406.73 which does not include a project contingency. The construction services will be completed within thirty (30) days from the from notice-to-proceed.

It is JBCCI's understanding that a temporary +/-500LF access road will be built from the north end of the existing runway to the new JFRD Station at Cecil Commerce Center. JBCCI's scope of work is to create the temporary access road subgrade with the existing material (fill) on site and grade the area from the proposed site to the opening in the woods near the existing north end of the runway (area is approx. +/- 500LF). This work is estimated to be completed within 3 days after the initial mobilization. We anticipate using a Cat D-6 Dozer and Cat 320 Excavator to accomplish this work. We do not plan to perform any drainage improvements, mix the subgrade, compact the fill material (other than with the heavy equipment spreading the fill) or meet any specific elevations with the proposed grading. The intent is to create a rough graded subgrade for the temporary access roadway to be capped with asphalt millings by others. This fee does not include any engineering, permitting,. drainage construction, or other non-specified fees. This proposal includes one mobilization/demobilization fee. If there are changes to the proposed scope of work which would cause additional mobilizations/ demobilizations, JBCCI would negotiate those additional fees with the client.

This lump sum proposal is inclusive of only those services noted above and which are anticipated at this time. No services or work other than those noted in the proposals are included. In addition, any unknown condition(s) which may surface during construction or any other increase in scope of services may result in a request for additional fees. No work will proceed however, without first obtaining approval from the City for any additional services.

We are again very appreciative of the opportunity to provide you with our design-build services. Should you have any questions or need any further information, please do not hesitate to contact us.

Regards,
J.B. Coxwell Contracting, Inc.
