SUBJECT: **DEMO & SITE CLEARANCE OF 45 PROPERTIES**

BID# CF-0164-16 OPEN DATE: **2016-09-21**

GENERAL GOVERNMENT AWARDS COMMITTEE

KIND AND BASIS OF CONTRACT:
CONSTRUCTION FIXED

AGENCY: **MUNICIPAL CODE**

BASIS OF AWARD: **BY ITEM TO THE LOWEST RESPONSIVE, RESPONSIBLE BIDDER**

NUMBER OF BIDS INVITED **6** NUMBER RECEIVED **3** OTHER **0**

SUMMARY OF BIDS AND RECOMMENDED ACTIONS:

Item #37 was awarded to P & G Land Clearing, Inc., on 10/13/16 in the amount of $5,750.00 which included $275.00 cost of asbestos survey as required by bid specifications. The performed asbestos survery requires a wet demolition be performed prior to demolition.

Recommend approval to increase award for Item #37 to P & G Land Clearing, Inc., as the lowest responsive, responsible bidder in the amount of $1,000.00 for wet demolition. Revised total amount for Item #37 not-to-exceed $6,750.00.

This award to be funded by account: ERCD1N1FR-03410 to be executed by Purchase Order/Change Order.

RE: Change Order Request for Item #37 on Formal Demolition Bid #CF-0164-16

The asbestos survey of 1725 W 14th St revealed the asbestos content on the roof system which requires wet demolition of the structure.

I recommend approval of the change order request submitted by P&G Land Clearing in the amount of $1,000.00 (reference purchase order #7A03130).

Contractor	Item Number	Amount
P&G Land Clearing	37	$1,000.00

Reference: One (1) Single Story Structure – Asbestos Demolition Survey
1725 West 14th Street – JON 5826 – Home
Jacksonville, Florida

Dear Mr. Llyod:

Pursuant to your request an Asbestos Demolition Survey has been preformed at the above location for the purpose of identifying asbestos that needs to be removed prior to the planned demolition of the structure. The purpose of the investigation was to visually identify homogenous materials that need to have bulk samples obtained for analysis to determine the presence of Asbestos Containing Building Materials with in the structure. The scope of this survey was limited to the referenced single structure in Jacksonville, Florida. The facility has one single story structure for demolition, which is constructed with concrete, drywall, plaster, siding, stucco, vinyl floor panels, built up roof system, steel and paint. There were thirteen (13) suspected materials that were sampled for Polarized Light Microscopy (PLM) analysis. Based on the visual inspection, it was evident that regulated Asbestos Material was found to be present at the facility. The scope of work for this survey included sampling and analysis of suspect homogenous building materials. The asbestos demolition inspection process was initiated on January 6, 2017. Materials must contain greater than 1% asbestos to be regulated. The following recommendations are provided for the material that was found to contain Asbestos Fibers within the referenced structure.

RECOMMENDATIONS

Recommended response actions have been selected for all Asbestos Containing Materials identified by this survey within the facility. Recommendations for response actions, where arrived at, are stated as follows:

FRIABLE ASBESTOS CONTAINING MATERIALS

Friable Asbestos Material means any material containing more than one (1%) percent asbestos, that when dry can be crumbled, pulverized or reduced to powder by hand pressure.

(904) 665-0100 (904) 612-1456 • MOBILE (904) 665-0101 • FAX

Friable Asbestos Material was found in the following area:

None.

The above material is considered friable and must be removed by a Certified Florida Asbestos Abatement Contractor prior to any disturbance caused by renovation or demolition of the referenced structure.

CATEGORY I, NON-FRIABLE ASBESTOS MATERIAL

HM-7 Roof System - Built Up Roof - Black [5% Chrysotile Asbestos]

CATEGORY II, NON-FRIABLE ASBESTOS MATERIAL

None.

NONREGULATED BY NESHAP - REGULATED BY OSHA

None.

The preceding materials are considered a Category I or II Non-Friable Material and therefore, under normal circumstances, the Category I material does not need not be removed prior to demolition, because generally these materials do not release significant amounts of Asbestos Fibers, even when damaged.

Category I material must be kept wet to prevent the release of fibers during demolition. The Category I asbestos waste must be placed in a permitted asbestos landfill in accordance with FDEP regulations. Friable asbestos and Category II material must be removed prior to demolition or renovation of the structure. Yet, in the event removal is deemed necessary as a part of renovation all Asbestos Containing Material should be removed by a Florida Licensed Asbestos Contractor.

The building materials identified in this asbestos renovation survey were in good condition to significantly damaged condition at the time of the inspection. The material condition can change over time and will degrade with exposure to water, air movement, physical damage, weather and chemical exposure.

The structure has an address of, 1725 West 14th Street, Jacksonville, Florida. The facility was at one time a house. The facility has no detached structures.

When implementing the response actions, parties responsible for final selection should remember that actions shall be sufficient to protect HUMAN HEALTH AND THE ENVIRONMENT, but may also be the least burdensome method. Nothing in these recommendations should be construed as PROHIBITING or discouraging removal.

All parties shall comply with all applicable laws, ordinances, rules and regulations of Federal, State and Local Governments and Agencies relating to or affecting the proposed work in whole or in part when implementing any response action associated with the facility.

The following samples are recommended to be further analyzed by the point count method using a positive stop approach.

None.

This asbestos survey shall not be used as a design or specification for the removal of asbestos within the referenced structure.

RECOMMENDATIONS: (1725 West 14th Street, Jacksonville, Florida)

The HM-7 asbestos material should be removed prior to demolition. A wet method removal prior to demolition of the house would be the best method for protection of human health and the environment to properly manage this asbestos under the Occupational Health and Safety Administration (OSHA) and the National Emission Standards for Hazardous Air Pollutions (NESHAP) regulations. The removal should be done by a Florida Licensed Asbestos Contractor. The least burdensome method may be used, which would be to demolish the structure using wet methods by a demolition contractor. The built up roof was the original roof. A second roof has been placed over the original roof.

It has been a pleasure working with you and I look forward to working with you once again in the future. I can be reached at (904) 665-0100 or mobile (904) 612-1456 if you should have any questions.

Respectfully submitted,

1/17/17

RE: 046507 0000
Legal Description: 3-89 03-2S-26E GRAND BLVD LOT 17 BLK 66

PART 1: PRELIMINARY PROCEED ORDER

Pursuant to Jacksonville Property Safety and Maintenance Code, Chapter Section 518.304, this notice authorizes you to obtain all required permits and utility disconnections for demolition of the unsafe structure at subject address. You must file the Notice of Asbestos Removal (NAR) with the Neighborhoods Department, Environmental Quality Division, if demolition or abatement work requires such notice, prior to commencing work at subject property. You must submit a copy of the NAR (with acknowledged receipt from Environmental Quality Division) and demolition permits to Municipal Code Compliance Division, Contract Compliance Section, before commencement of work. An authorized representative of Municipal Code Compliance Division, Contract Compliance Section, must acknowledge receipt of the NAR before signing subsequent final proceed order (Part 2.)

Failure to obtain NAR, to obtain required permits, to provide copies of these documents to Contract Compliance, and to obtain the final proceed order prior to commencement of demolition and/or site clearance on subject property renders the *Notice to Proceed* null and void. As a result of such action, any work performed by the contractor is without authorization of, and not on behalf of, the City of Jacksonville. The effective date of this proceed order shall be three (3) working days from the issue date.

Chief, Municipal Code Compliance Division or
Authorized Representative

Date

PART 2: FINAL PROCEED ORDER

The undersigned representative of the Municipal Code Compliance, Contract Administration, on behalf of the Chief of Municipal Code Compliance, hereby acknowledges receipt of a copy of the NAR & Demolition Permit and authorizes commencement of demolition and/or site clearance at the subject property, in accordance with the Demolition and Site Clearance contract specifications, and purchase order/contract terms

NEIGHBORHOODS DEPARTMENT

NOTE: The City of Jacksonville may or may not have conducted an asbestos survey. The contractor must properly remove and dispose of any regulated, asbestos-containing materials (RACM), or other hazardous materials from properties regulated by the EPA or any other property, where the contractor discovers such material during the course of authorized work, and must comply with all applicable laws, rules and regulations pertaining to same.

Please complete all work in accordance with purchase order/contract specification to allow final site inspection and payment authorization.
