Business Request and Requirements
ITD is managing the maintenance renewals of ESRI software for its own use as well as the use of the agencies listed below (see Justification). This ESRI software is foundational to many applications used by internal City Agencies as well as outside civilian and business interests. Just a few of these applications are: the CARE Dashboards, AVL, Infrastructure, Duval Maps, Hurricane Debris Systems and Dashboards, and My Neighborhoods web site.

Justification
ESRI Software/Licenses are used by PARKS RECREATION, ITD (JAXGIS), ENVIRONMENTAL QUALITY, PUBLIC WORKS ENGINEERING DEPARTMENT, PLANNING & DEVELOPMENT, JACKSONVILLE ECONOMIC DEVELOPMENT, MUNICIPAL CODE COMPLIANCE, and MOSQUITO CONTROL. Each year these Software/Licenses are renewed to receive new Software Releases and technical customer support. Without these release updates and support there would be a risk that the systems that utilize this software would cease functioning correctly.

Scope of Project
Software/Licenses are renewed to receive new Software Releases and technical customer support

Delivery Location
Various contacts within each agency.

Success Criteria
The ability to receive upgrades as they are made available to reduce the risk of systems issues and incompatibility as other system elements are upgraded (operating system versions, database releases, middleware, etc.).

Value Statement
ESRI software is used in various ways by ITD and the other agencies listed above as the platform for development and maintenance of many City of Jacksonville systems. These systems are depended upon by City agencies and the public at large. The renewal of this maintenance will allow us to continue the delivery of the systems now in place and the development of new systems as needed.

Risk to the Organization If Not Approved
Unable to get new Software Releases and technical customer support that will impact application development and maintenance
