BID# CF-0090-16 OPEN DATE: **2016-04-06**

GENERAL GOVERNMENT AWARDS COMMITTEE

KIND AND BASIS OF CONTRACT:
CONSTRUCTION FIXED

AGENCY: **MUNICIPAL CODE**

BASIS OF AWARD: **BY ITEM TO THE LOWEST RESPONSIVE, RESPONSIBLE BIDDER**

NUMBER OF BIDS INVITED 7 NUMBER RECEIVED 1 OTHER 0

SUMMARY OF BIDS AND RECOMMENDED ACTIONS:

Item #39 was awarded to P & G Land Clearing, Inc., on 04/16/16 in the amount of $5,750.00 which included $275.00 cost of asbestos survey as required by the bid specifications. The performed asbestos survey requires a wet demolition be performed prior to demolition.

Recommend approval to increase award for Item #39 to P & G Land Clearing, Inc., as the lowest responsive, responsible bidder in the amount of $1,000.00 for the wet demolition. Total revised award amount not-to-exceed $6,750.00.

This award to be funded by account: ERCD1N1FR-03410 to be executed by Purchase Order/Change Order.

RE: **Change order request for item #39 on CF-0090-16**

The asbestos survey of the condemned structure at 2789 Robin Rd. revealed asbestos in the 9"x9" vinyl floor tile (VFT) beige with black mastic (kitchen & dining room), which must be removed utilizing wet demolition method.

I recommend approval of the change order request submitted by P&G Land Clearing in the amount of $1,000.00 (reference purchase order # 7A07524)

Reference: One (1) Single Story Structure – Asbestos Demolition Survey – House
2789 Robin Road
Jacksonville, Florida – JON 6014

Dear Mr. Lloyd:

Pursuant to your request an Asbestos Demolition Survey has been performed at the above location for the purpose of identifying asbestos that needs to be removed prior to the planned demolition of the structure. The purpose of the investigation was to visually identify homogenous materials that need to have bulk samples obtained for analysis to determine the presence of Asbestos Containing Building Materials with in the structure. The scope of this survey was limited to the referenced single story structure in Jacksonville, Florida. The building was inspected for demolition. The facility has one single story structures for demolition, which is constructed with concrete, wood, vinyl floor tile, drywall, plaster, stucco, steel and aluminum. There were four (4) suspected materials that were sampled for Polarized Light Microscopy (PLM) analysis. Based on the visual inspection, it was evident that National Emission Standard for Hazardous Air Pollutants (NESHAP) 40 CFR Part 61 regulated Asbestos Material was found to be present at the facility. The scope of work for this survey included sampling and analysis of suspect homogenous building materials. The asbestos demolition inspection process was initiated on June 5, 2017. Materials must contain greater than 1% asbestos to be regulated. The following recommendations are provided for the material that was found to contain Asbestos Fibers within the referenced structure.

RECOMMENDATIONS

Recommended response actions have been selected for all Asbestos Containing Materials identified by this survey within the facility. Recommendations for response actions, where arrived at, are stated as follows:

FRIABLE ASBESTOS CONTAINING MATERIALS

Friable Asbestos Material means any material containing more than one (1%) percent asbestos, that when dry can be crumbled, pulverized or reduced to powder by hand pressure.

(904) 665-0100 (904) 612-1456 • MOBILE (904) 665-0101• FAX

Friable Asbestos Material was found in the following area:

None.

The above material is considered friable and must be removed by a Certified Florida Asbestos Abatement Contractor prior to any disturbance caused by renovation or demolition of the referenced structure.

CATEGORY I, NON-FRIABLE ASBESTOS MATERIAL

HM-3 9"X9" Vinyl Floor Tile (VFT) Beige with Black Mastic (Kitchen & Dining Room) [3% Chrysotile Asbestos]

CATEGORY II, NON-FRIABLE ASBESTOS MATERIAL

None.

NONREGULATED BY NESHAP; REGULATED BY OSHA

None.

The preceding materials are considered a Category I or II Non-Friable Material and therefore, under normal circumstances, the Category I material does not need not be removed prior to demolition, because generally these materials do not release significant amounts of Asbestos Fibers, even when damaged.

Category I material must be kept wet to prevent the release of fibers during demolition. The Category I asbestos waste must be placed in a permitted asbestos landfill in accordance with FDEP regulations. Friable asbestos and Category II material must be removed prior to demolition or renovation of the structure. Yet, in the event removal is deemed necessary as a part of renovation all Asbestos Containing Material should be removed by a Florida Licensed Asbestos Contractor. The building materials identified in this asbestos renovation survey were in good condition to significantly damaged at the time of the inspection. The material condition can change over time and will degrade with exposure to water, air movement, physical damage, weather and chemical exposure.

The structure has an address of, 2789 Robin Road, Jacksonville, Florida. The facility was at one time a house. The facility has one single story structure for demolition.

When implementing the response actions, parties responsible for final selection should remember that actions shall be sufficient to protect HUMAN HEALTH AND THE ENVIRONMENT, but may also be the least burdensome method. Nothing in these recommendations should be construed as PROHIBITING or discouraging removal.

All parties shall comply with all applicable laws, ordinances, rules and regulations of Federal, State and Local Governments and Agencies relating to or affecting the proposed work in whole or in part when implementing any response action associated with the facility.

The following samples are recommended to be further analyzed by the point count method using a positive stop approach.

None.

This asbestos survey shall not be used as a design or specification for the removal of asbestos within the referenced structure.

RECOMMENDATIONS FOR ASBESTOS ABATEMENT: (2789 Robin Road, Jacksonville, Florida)

The HM-3 asbestos material should be wet demolished or should be removed by an asbestos abatement contractor keeping in mind that the most economical method or least burdensome method can be used. This material is regulated by both of the following regulations: the Occupational Safety and Health Administration (OSHA) Construction Standard for Asbestos found in Title 29 Code of Federal Regulations (CFR) Part 1926.1101 and by the National Emission Standards for Hazardous Air Pollutants (NESHAP) Title 40 CFR Part 61.145.

It has been a pleasure working with you and I look forward to working with you once again in the future. I can be reached at (904) 665-0100 or mobile (904) 612-1456 if you should have any questions.

Respectfully submitted,

Timothy W Rudolph 6/7/2017

RE: 154556 0000
Legal Description: 20-085 56-2S-27E FAIRMONT S/D LOT 7 BLK 4

PART 1. PRELIMINARY PROCEED ORDER

Pursuant to Jacksonville Property Safety and Maintenance Code, Chapter Section 518.304, this notice authorizes you to obtain all required permits and utility disconnections for demolition of the unsafe structure at subject address. You must file the Notice of Asbestos Removal (NAR) with the Neighborhoods Department, Environmental Quality Division, if demolition or abatement work requires such notice, prior to commencing work at subject property. You must submit a copy of the NAR (with acknowledged receipt from Environmental Quality Division) and demolition permits to Municipal Code Compliance Division, Contract Compliance Section, before commencement of work. An authorized representative of Municipal Code Compliance Division, Contract Compliance Section, must acknowledge receipt of the NAR before signing subsequent final proceed order (Part 2.)

Failure to obtain NAR, to obtain required permits, to provide copies of these documents to Contract Compliance, and to obtain the final proceed order prior to commencement of demolition and/or site clearance on subject property renders the *Notice to Proceed* null and void. As a result of such action, any work performed by the contractor is without authorization of, and not on behalf of, the City of Jacksonville. The effective date of this proceed order shall be three (3) working days from the issue date..

Chief, Municipal Code Compliance Division or
Authorized Representative

Date 06/01/17

PART 2: FINAL PROCEED ORDER

The undersigned representative of the Municipal Code Compliance, Contract Administration, on behalf of the Chief of Municipal Code Compliance, hereby acknowledges receipt of a copy of the NAR & Demolition Permit and authorizes commencement of demolition and/or site clearance at the subject property, in accordance with the Demolition and Site Clearance contract specifications, and purchase order/contract terms

NEIGHBORHOODS DEPARTMENT

NOTE: The City of Jacksonville may or may not have conducted an asbestos survey. The contractor must properly remove and dispose of any regulated, asbestos-containing materials (RACM), or other hazardous materials from properties regulated by the EPA or any other property, where the contractor discovers such material during the course of authorized work, and must comply with all applicable laws, rules and regulations pertaining to same.

Please complete all work in accordance with purchase order/contract specification to allow final site inspection and payment authorization.

Gentlemen:

Pursuant to Jacksonville Property Safety and Maintenance Code, Section 518.151 or Section 518.304, the Chief of Municipal Code Compliance Division, City of Jacksonville, has authorized and ordered referenced contractor to remove unsafe conditions and/or other public nuisances at the subject property.

It is unlawful and a Class 'D' offense for any person, including the owner of the property, to interfere with this abatement action (Section 518.309).

If you have any questions regarding this action, you may contact Municipal Code Compliance Division at (904)255-7000.
