Where Technology, Creativity and Quality Service Meet

August 20, 2018

Ms. Patricia Welte, ENP, 911 Coordinator
Jacksonville Sheriff's Office
501 East Bay Street
Jacksonville FL 32202

Dear Ms. Welte:

The Duval County 9-1-1 system is unique in its configuration and unlike any other 9-1-1 system in Florida. It consists of carefully engineered systems that include Frequentis Protect and Cassidian Patriot call taking equipment, Solacom IQ gateways selective routers, Data Master DBMS and components that provide the means to connect the Duval 9-1-1 system to the North Florida Routing Regional 9-1-1 Network.

The only company to have trained and certified technicians with experience to install and maintain the Duval County 9-1-1 system is AK Associates. AK Associates is the only vendor in Florida that is a certified reseller and has certified technicians by the equipment manufacturers Frequentis, Solacom and Cassidian for you integrated 9-1-1 system used by Duval County.

In addition, AK Associates is presently under a maintenance contract with Duval County to provide installation and maintenance support. Under the current contract, AK Associates provides the labor for installation and maintenance services to all the 9-1-1 equipment installed by AK Associates. This contract also provides Duval County with free ancillary services and discounts on additional equipment purchases. AK will also provide Duval County with Cassidian, Solacom and Frequentis extended maintenance without an additional mark up.

Cassidian will not sell their extended warranty (maintenance) directly to a customer, and they only provide this coverage through the existing channel partner. Since AK Associates is under contract with Duval County, AK Associates is the only company that can offer this service without voiding the existing contract. If I can provide additional information please do not hesitate to contact me.

Sincerely,

Arthur Kraus
