

2019-309

The Trails Land Use Amendment Public Hearing dates have changed from the notice that was sent from the Planning Department and provided at the meeting.

The currently scheduled date for the Trails Land Use Amendment 2019-309 to be heard before the Planning Commission at City Hall in the Council Chambers has not been officially approved by the new City Council. As soon as this date and others are approved, we will post them here.

Currently information shared at the Neighborhood meeting is being considered. The above meeting and all others are subject to change but will be kept up to date on this site.

This Ordinance stays listed on the agenda even on the dates that it is not being heard or voted on. It will be listed at DF, which means it is Deferred and the Public Hearing will be opened and continued and no action will be taken.
