Independent Authorities – Five-Year Capital Improvement Plan

FIVE YEAR CAPITAL IMPROVEMENT PLAN

FIVE-YEAR CAPITAL IMPROVEMENT PLAN

INTRODUCTION

The Capital Improvement Plan (CIP) is a multi-year forecast of major capital buildings, infrastructure, and other needs. The City of Jacksonville has adopted in Jacksonville Municipal Code Chapter 106, Part 1 Section 106.109 Capital Improvement Funding a “Five-Year Capital Improvements Plan that is designed to be financially feasible and provides the funding source and amount of funding for the capital costs of each project, and the funding source and amount of funding for the anticipated post-construction operation costs of each project”. The Five-Year Capital Improvements Plan shall be filed and approved each fiscal year concurrently with the annual budget.

The proposed Capital Improvement Plan (CIP) for a five-year period beginning October 1, 2019 through the fiscal year ending September 30, 2024 includes location, funding and expenses for projects with current fiscal year appropriations.

The CIP incorporates needs identified in the Capital Improvements Element (CIE) required under the Growth Management Act of 1985. The CIE focuses on anticipated infrastructure requirements based on service level standards and the land use plan adopted by the City Council to prevent deficiencies in level of services.

In addition to the needs identified in the CIE, the CIP includes other improvements not covered by the Growth Management Act such as Public Safety, Targeted Economic Development, Public Facilities (primarily public buildings), and Environmental factors.

Capital projects are budgeted on an “all years” basis, an accounting practice used for funds that may need to carry over from one fiscal year to the next for a defined purpose such as funding a specific capital project or a grant.

On July 1, 2005, SB360 referred to as the “pay-as-you-grow system” took effect. It requires that the City must have committed funding sources to finance CIP projects for the first three years, and committed or planned funding sources for years four and five. Committed funding means funding based on expected revenues from an existing revenue source, {i.e. tax revenues and bonds}, versus planned revenue, which relies on a source that is not currently available to the local government. The definition of financial feasibility in sect. 163.3164(32), F.S., distinguishes between “currently available”, or “committed” and “planned” funding sources.

PROCESS

Chapter 122 of the Jacksonville Municipal Code requires that the CIP be prepared annually by the City of Jacksonville’s Finance Department through submittals received from various City departments, independent authorities, and agencies.

Departments complete a CIP request form with detailed project information and use a standardized matrix to score projects prior to submitting them to the Finance Department. The projects are then reviewed by the Departments of Public Works, Planning & Development, and Finance for reasonableness related to costs, operating budget and level of service impact. The Mayor’s Budget Review Committee (MBRC) makes the final recommendation of projects for the Mayor’s review and approval. The City Council then receives the Mayor’s Proposed Five-Year CIP with the Proposed Annual Budget in July. Once adopted by the City Council the first fiscal year of the CIP becomes the city’s Capital Improvement Budget for that year.

A typical capital project is planned and executed in the following phases:

Design & Engineering: These are costs incurred by the City to design a project in accordance with the scope of work set forth in the development phase. This includes professional consultant fees, legal and technical documentation, constructability review, data collection, advertising, assessment of alternatives related to project design, construction management services, and bid reviews.

Land Acquisition & Site Preparation: These costs are incurred by the City for the purchase of land, easements and right-of-way. This also includes purchase price, surveys, appraisals, environmental audit, permitting, legal costs, maps, charts, aerial photography, and other costs such as wetlands restoration.

Construction: This includes costs incurred by the City for all construction related tasks required to place a project in service. This includes project construction contracts, professional and technical assistance, advertising, legal and technical documentation, costs, inspections, testing, and permitting.

Capital Equipment: This includes costs incurred by the City for all capital equipment related to the needs of the specific facility/project. This includes public safety, telecommunications and AV equipment.

Misc. Equipment & Furnishings: This includes costs incurred by the City for the purchase of appliances, furniture, lockers, flagpoles, toilet accessories and lighting fixtures.

Art in Public Places: Ordinance 96-1105-677 created a new Part 9, Chapter 126, concerning public art. All vertical construction projects have a percentage of their construction cost transferred to the Art in Public Places Trust Fund. These funds are used to implement a City-wide plan for the creation and placement of artworks as developed and administered by the Art in Public Places Commission.

Per Chapter 122, Part 6, Ordinance Code:

Capital Improvement Project. Excluded from the term and definition of Capital Improvement shall be all Community Redevelopment Area Projects. Capital Improvement Project *means* a planned undertaking of the City or an independent agency that leads to the acquisition, construction, or extension of the useful life of capital assets. Capital assets include things such as land, buildings, parks, streets, utilities, and other items of value from which the community derives benefit. To constitute a capital improvement project, the project must:

- 1 Have a total cost greater than \$100,000 and a useful life of more than ten years,
- 2 Be a one-time outlay, which is non-recurring in nature.
- 3 Add to, enhance the value of, or extend the life of the City's physical assets.
- 4 Major equipment purchases must be associated with a Capital Improvement Project and must meet the criteria in item 1 above in order to be included as a Capital Improvement Project.

Any project which meets the definition of a Capital Improvement Project must be included in the Capital Improvement Plan, regardless of funding source.

Excluded from the definition of Capital Improvement Projects are:

- i. City vehicular equipment purchases. Fleet appropriations are to be considered within the Operating Budget.
- ii. Expenditures for maintenance supplies and materials or replacement items which shall be budgeted as operating items.
- iii. Purchases involving ongoing debt service or lease/purchase costs which shall be budgeted in the Operating Budget.
- iv. All routine resurfacing of streets, recurring annual items and routine maintenance and repair.

(b) **Capital Improvement Plan**. The Capital Improvement Plan (CIP) is a comprehensive five-year plan of proposed capital improvement projects, intended to identify and balance the capital needs of the community within the fiscal capabilities and limitations of the city budget. It is a significant element of the annual budget process and intended to be binding on future years in order to fulfill the purposes set forth above. While the CIP is updated annually and subject to change as emergencies arise or projects are delayed by circumstances beyond our control, the annual focus primarily will be on the fifth year of the plan as new projects are added. The first year of the plan is the basis for actual appropriations authorized by the City Council for capital projects when adopting the Annual Budget. The remaining four years establish priorities for future capital improvement projects.

(c) **Capital Improvement Plan Budget**. Capital Improvement Plan Budget shall be submitted annually with the City Annual Budget and is the first year of the Capital Improvement Plan. The required elements of the Capital Improvement Plan Budget are set forth in Section 122.603(b), Ordinance Code.

PROPOSED FIVE-YEAR CIP

The CIP contains 220 updated and/or new projects at \$1,459,182,096 for the next five years and beyond. This reflects a continued investment to provide for the health, safety and quality of life for our citizens. To assist in balancing and prioritizing needs across the City, departments identify projects by one of the following "Program Areas."

Drainage - Project that improves drainage conditions and reduces flooding

Environment/Quality of Life - Project that would promote or improve the environment for the citizens of Jacksonville (e.g. water treatment plants)

Parks - Project with buildings, grounds and/or recreational facilities within the park boundaries, also including the Preservation Project

Public Facilities – Project for facilities designated for primarily citizen use and includes facilities such as the county courthouse, arena and baseball park

Public Safety - Project relating to public safety including facilities

Roads/Infrastructure/Transportation – Project dedicated to expanding and widening roads; interchanges, overpasses and intersection improvements; and also includes road resurfacing, sidewalks/bike paths, as well as landscaping/tree planting along road improvement projects

Targeted Economic Development – Project is used to stimulate growth and revitalization by providing grants and loans for infrastructure, public improvements, and project development

CAPITAL PROJECTS OPERATING IMPACT

The CIP is an integral element of the City's budgeting process. The cost of operating new or expanded facilities or infrastructure can be significant and will be included in the operating budget in the fiscal year the asset becomes operational. In addition, the future operating impacts are incorporated into the five-year forecast that accompanies the Budget. More information can be found on the individual project sheets contained in this section on expenditures and operating impact related to each project.

RECURRING ANNUAL CAPITAL MAINTENANCE

The CIP annually includes various appropriations which meet and/or exceed all the required minimums set forth via 2015-428-E for recurring capital maintenance needs. A detailed list of those projects and proposed appropriations can be found in the following pages contained in this section.

FUNDING

The CIP is the city's financially feasible plan of capital projects. It includes project costs and schedules over a five-year period to meet the infrastructure needs of the City of Jacksonville and additional State of Florida growth management mandates.

The proposed FY20/21 Capital Improvement Plan (CIP) totals more than \$173.5 million dollars for 125 projects. In an effort to reduce the City's overall debt obligations, the FY2020-2024 proposed Capital Improvement Plan focuses efforts on repair and maintenance of city facilities while funding projects with as much pay-go (current revenue) as possible. In total, more than \$56.2 million is to fund projects with current available cash/grants while the \$117.2 million remaining is debt funded and will be used for compliance under the Americans with Disabilities Act for sidewalks, public buildings, park improvements, improvements associated with UF Health, McCoys Creek, the Jacksonville Zoo, new and renovated Fire Stations as well as various other projects.

General Government Capital Improvement Projects

Dept	Project Name	FY 20-21
FR	Fire Station Capital Maintenance – Misc Improvements	\$1,000,000
FR	Fire Station #56 Renovation	\$180,000
FR	Fire Station #61	\$870,000
FR	Fire Station #63 (new)	\$2,650,000
FR	Fire Station #65 (new)	\$5,000,000

Description or Scope

Renovate Fire Station #56 to continue operation. This renovation includes interior only improvements to the current station.

Justification

This station was scheduled to be closed and relocated to 103rd Street, per FY16/17 CIP. Due to recent economic development in the area and additional flights planned for Cecil Field, this station needs to be renovated to remain in operation.

Description or Scope

The project is the construction and staffing of a new fire station in the Argyle Forest/Oakleaf community. The land for this project has already been acquired by the City of Jacksonville.

Justification

This need was identified in Phase I of the Public Protection Class Rate Reduction Study per Section 421.103. The area is beyond 5 road miles of the nearest fire station and is a Class 10 ISO area with residents paying higher homeowner's insurance. In order to meet ISO requirements in this area and improve the ISO rating, a new Station is needed. Placing a rescue unit here will reduce the avg response times to 8 minutes or less 90% of the time in accordance with the National Fire Protection Agency (NFPA) 1710 Standard. Currently, the closest rescue units' avg response times are 9 minutes 10 seconds.

Useful Life	50 years

Description or Scope

The project is the construction and staffing of a new fire station in the Gate Parkway/St. Johns Town Center area. The land for this project has already been acquired by the City of Jacksonville.

Justification

This need was identified in Phase I of the Public Protection Class Rate Reduction Study in accordance with Section 421.103. The station would be located closer to I-295 and Gate Parkway. Splitting the district with Fire Station #28 assigning another engine will ensure JFRD can meet the demands for its services and ensure average response time is eight minutes or less 90% of the time. There are approximately 250 homeowners in a community east of I-295 and north of Baymeadows Rd. that are in a PPC 10 area. This fire station would be within 5 road miles of that area and improve their PPC rating to a Class 3. This could result in more than \$350,000 in savings annually in the way of reduced insurance premiums.

Useful Life	50 years

Description or Scope

The project is the construction and staffing of a new fire station in the Atlantic and St. Johns Bluff community. A new Fire Engine and Rescue unit is included in this enhancement. Art in Public Places allocation for FY18/19 is \$7,500.00

Justification

This project includes determining the proper location near Atlantic and St. Johns Bluff area, and subsequent purchase of a suitable property for the construction and staffing of a JFRD fire station. Build new Fire Station 65 as identified in the City's 2012-2016 Capital Improvement Program and Tri Data reports to reduce response times for fire and EMS runs.

Description or Scope

The property and structures behind Fire Station 10 (Roosevelt and McBuff) are being offered for sale. JFRD will use the purchased properties to create drive through bays. This will enhance firefighter safety by eliminating the need to back into the bays. Due to expansion of services at FS-10, JFRD needs to expand the fire station. This will include adding additional living quarters, restroom facilities, and locker room.

Justification

This station was originally constructed in 1927 and has had one remodel/expansion in the early 1980's. The addition of personnel and equipment along with an escalation in apparatus size necessitates the need to increase the size of the station.

Description or Scope

The work includes replacement of all existing suspended acoustical ceiling and insulation, interior partitions, repair of gypsum board ceilings, new suspended gypsum board ceiling system, roofing, flooring, lighting fixtures, emergency/exit lighting, walls, attic access, doors, relocated shelving, re-installation of overhead doors and motors, removal of the generator fuel tank and base, new generator, miscellaneous HVAC, electrical, rewire the Station with new cable to update several low voltage systems meeting current codes and all other work needed for the completion of the items described above.

Justification

The design for this project was managed by Public Buildings with a 2016 estimated cost equal to the requested budget. Inflation, bidding cost, CEI cost, additional items needed for the project (re-wiring low voltage systems) and contingency (remodeling existing buildings) are needed to complete the project.

Description or Scope

This project includes an additional bay to be added to the main station for the rescue unit, which will assist with decreased response times along with medication and equipment security. JFRD added a rescue to Station 4 in March of 2017. Currently, the station has two bays attached to the main station. The rescue is currently housed in an outbuilding approximately 100' from the main station.

Justification

According to NFPA 1710, response times should be four minutes or less 90% of the time in the urban core. This construction will allow JFRD to ensure response times are held to a minimum thus providing life-saving care as quickly as possible.

Description or Scope

The project is the construction and staffing of a new fire station in the E-town Parkway and SR-9B area. The land for this project would be acquired by the City of Jacksonville in FY20-21 as land prices continue to grow and JFRD needs to purchase a parcel while land is still available and affordable. Station would include an engine and a rescue.

Justification

The area around E-town Parkway and SR-9B is expanding at a rapid pace. Numerous developments in and around the area are either in the construction or planning phases. Due to the rapid growth, JFRD needs to purchase land in the area for a future fire station. The entire area around E-town Parkway is rated an ISO Class 10 because no fire stations are located within 5 road miles. The area also fails to meet NFPA 1710 which requires apparatus to be on scene within eight minutes, 90% of the time. Currently, there are very few parcels of land available to purchase in the area. Land prices continue to grow and JFRD needs to purchase a parcel in the very near future while land is still available and affordable.

Description or Scope

The project is the construction and staffing of a new fire station in the Bertha and Harts Rd. community. A new Fire Engine and Rescue unit is included in this enhancement.

Justification

This project includes determining the proper location near Bertha & Harts Rd. area, and subsequent purchase of a suitable property for the construction and staffing of a JFRD fire station. This project was as identified in the City's 2012-2016 Capital Improvement Program and Tri Data report to reduce response times for fire and EMS runs.

Description or Scope

The project includes determining the proper location and subsequent purchase of a suitable property for the construction and staffing of a new JFRD Fire Station #47. Station would include an engine and a rescue unit.

Justification

Homeowners within five road miles of the new fire station could see their insurance premiums reduced by as much as one half to two thirds. For the 626 homeowners affected this could mean more than \$1,064,200 in annual savings by way of lower insurance premiums. The old fire station is currently being used by ISO corrections and is inside a secure fence location. Optimally the station would be relocated to maximize ISO ratings to the community. This improvement will satisfy ISO requirements in an area of the county where there is currently no recognized fire protection. The need for this new fire station was identified in Phase I of the Public Protection Class Rate Reduction Study conducted by a private consultant in accordance with Section 421.103, Fire and Rescue Capital Study.

Useful Life	50 years

Description or Scope

Replace old Fire Station #25 located at 5423 Manor Drive. An Engine and Rescue unit are currently located at this Station. APP allocation is slated to be \$33,750

Justification

The Station was built in 1960 and has serious mold and design issues. This was recommended in the TriData and the City's 2012-2016 Capital Improvement Program. The current Station has become antiquated due to modern fire apparatus size. It also does not meet current ADA, female separation and code requirements.

Project No	PW0371.02
Ordinance No	2008-656
BT No	

Project Comp Date	TBD
Dpt Ranking	7
Prj ID	10
Useful Life	50 years

Description or Scope

Relocate and replace old Fire Station #36 to the area of New Kings Rd. and Edgewood Avenue. An Engine and Rescue are currently located at this Station. APP allocation is slated to be \$33,750

Justification

The current Station is located in a residential neighborhood and should be moved to the area of New Kings and Edgewood Ave. It was built in 1975 and has serious mold and design issues. This was recommended in the TriData Report and the City's 2012-2016 Capital Improvement Program. The current station has become antiquated due to modern fire apparatus size. It also does not meet current ADA, female separation and code requirements.

Description or Scope

Replace old Fire Station #17 located at 710 Huron Street. Replacement will include adding space for a new rescue unit and additional space for fire training, community programming and a voting precinct. The existing area will be cleared and turned into green space. A new Rescue unit is included in this enhancement. APP Allocation is slated to be \$33,750

Justification

The current Station was built in 1950 and has serious mold and design issues. This was recommended in the TriData Report and the City's 2012-2016 Capital Improvement Program.

Project Title	Fire Station #45 Relocation
Project Location	Sawpit Road
Department	Fire and Rescue
Program Area	Public Safety

Council District(s)	2
Project No	FR0038
Ordinance No	2008-656
BT No	

Project Comp Date	TBD
Dpt Ranking	9
Prj ID	7
Useful Life	50 years

Description or Scope

The project is for the construction of a new fire station south of the current location on Sawpit Road. Personnel and equipment for existing engine, rescue unit and tanker would be transferred to the new location. The land on which the existing fire station is located was donated and would revert back to the original donor. An Engine and Rescue are currently located at this Station. APP allocation is slated to be \$33,750

Justification

The new fire station was identified in Phase I of the Public Protection Class Rate Reduction Study conducted in accordance with Section 421.103. A new station must be built to provide fire suppression coverage that meets ISO requirements for areas west of Black Hammock Island. Homes built upon areas along Cedar Point Road and Boney Road have no ISO recognized fire protection. The current location is too far north and too close to the county line and does not efficiently cover a 5 road mile area per ISO requirement. Homeowners currently in this PPC 10 area could see their insurance premiums reduced by one half to two thirds when the fire station is built.

Description or Scope

Replace old Fire Station #12. A Squad is currently located at this Station. The current station will be demolished and the new facility will be built on the existing parcel of land. APP Allocation is slated to be \$33,750

Justification

The current station was built in 1954 and has serious mold and design issues. This replacement was recommended in the TriData report and the 2012-2016 COJ Capital Improvement Program. The current station has become antiquated due to modern fire apparatus size. It also does not meet current ADA, female separation and code requirements.

Description or Scope

This project includes determining the proper location and subsequent purchase of a suitable property for the construction of a JFRD Marine Fire Station to be located in southern Duval County. APP allocation is slated to be \$33,750

Justification

To provide effective full-time marine coverage in the waterways of southern Jacksonville, including Mandarin, NAS Jax, Buckman Bridge and Julington Creek. Current response time from the closest full-time staffed marine unit in Metropolitan Park is approx. 25 minutes to the Mandarin/Buckman Bridge area.

Dpt Ranking	4
Prj ID	24
Useful Life	10 years

Description or Scope

This allocation funds the repair of existing deteriorated/damaged sidewalks throughout Jacksonville. This includes repairs to hazardous sidewalks by removing and replacing sidewalk panels and by horizontal cutting. This effort helps to address pedestrian safety and mobility issues.

Justification

The City of Jacksonville currently has a very large backlog in sidewalk repairs which could result in liability for citizen injuries. Improved sidewalks and ADA ramps will provide safer and more efficient pedestrian movement throughout Jacksonville. The repaired and new sidewalks and ADA compliant sidewalks will encourage companies to locate to Jacksonville.

Description or Scope

This allocation funds the construction of new sidewalks in accordance with the Pedestrian Safety Improvement Program criteria throughout Jacksonville. Funding will be used for installation of new sidewalks to complete missing gaps that will help to address pedestrian safety and mobility issues.

Justification

Improved sidewalks and ADA ramps will provide safer and more efficient pedestrian movement throughout Jacksonville. The new sidewalks and ADA compliant sidewalks will encourage companies to locate to Jacksonville.

Description or Scope

Currently the intersection of Forest Street and Alfred DuPont Place does not meet current standards. Intersection Improvements are needed to better align Alfred DuPont Place with Forest Street. Drainage improvements to support filling the Forest Street pond are also included.

Justification

Current intersection of Alfred DuPont Place and Forest St. is not ideal. Intersection safety improvements are needed to standardize the alignment.

Project Title	Hardscape - Countywide
Project Location	County-wide
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	County-wide
Project No	PW0674 01
Ordinance No	2007 - 813
BT No	

Project Comp Date	Ongoing
Dpt Ranking	6
Prj ID	25
Useful Life	10 years

Description or Scope

This allocation funds countywide repairs to the City's existing Hardscape features. These features include items found within the right-of-way that are considered to be specialty, including but not limited to: sidewalk pavers, textured crosswalks, stamped/colored asphalts, etc. The repairs are focused on system restoration to ensure that all components function in accordance with their intended purpose. The funding is projected to be used for continuing maintenance contract services.

Justification

The City of Jacksonville currently has a backlog in hardscape repairs which could result in liability for citizen injuries. Improved paver sidewalks and crosswalk repairs will provide safer and more efficient pedestrian movement throughout Jacksonville.

Project Title	Roadway Safety Project - Pedestrian Crossings
Project Location	County-wide
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	County-wide
Project No	PW0014 04
Ordinance No	
BT No	

Project Comp Date	Ongoing
Dpt Ranking	7
Prj ID	76
Useful Life	15 years

Description or Scope

Improve existing pedestrian crossings and install pedestrian crossing at unmarked sites on City right of way. Some locations may require pavement markings and signage and other locations may require Rectangular Rapid Flashing Beacons (RRFB).

Justification

The City is currently ranked high in pedestrian fatalities. Mid-block crossings and unmarked crossings pose a challenge to elementary and middle school age children as well as seniors. Site prioritization recognizes the need for pedestrian crossings at elementary and middle school student walkways and at senior living areas with bus stops.

Description or Scope

Install three (3) high-emphasis painted crosswalks with Rapid Rectangular Flashing Beacons (RRFB) and associated concrete sidewalk along Penman Rd. in Jacksonville Beach.

Justification

All three Beaches communities: Atlantic Beach, Neptune Beach and Jacksonville Beach have passed resolutions asking the City of Jacksonville to make Penman Road safer for pedestrians by pursuing complete streets projects. This project will implement short-termed improvements of adding three pedestrian crossings on Penman Road.

Description or Scope

This allocation funds the construction of new sidewalks in accordance with the Pedestrian Safety Improvement Program criteria throughout Jacksonville on Sibbald Road. Funding will be used for installation of new sidewalks to complete missing gaps that will help to address pedestrian safety and mobility issues. Project includes the construction of sidewalk from Linda La to Archery Ave.

Justification

Jacksonville is ranked highest for pedestrian fatalities among most populous cities in America. Improved sidewalks and ADA ramps will provide safer and more efficient pedestrian movement throughout Jacksonville. The new sidewalks and ADA compliant sidewalks will encourage companies to locate to Jacksonville.

Project Title	Gate Parkway Traffic Calming	
Project Location		
Department	Public Works	
Program Area	Roads / Infrastructure / Transportation	

Council District(s)	'4
Project No	PW0498 04
Ordinance No	
BT No	

Project Comp Date	
Dpt Ranking	
Prj ID	449
Useful Life	

Description or Scope

Install traffic calming features along Gate Prkwy. from Southside Blvd. to Town Center Prkwy. Work will include raised, textured intersections and crosswalks, resurfacing, installation of bike lanes, reconstruction of patterned concrete entryway and reduction of speed limit from 40 to 35 MPH.

Justification

Traffic calming is desired along this section of Gate Parkway to help reduce crashes and allow intersections to operate more efficiently. Intersection areas including crosswalks, will be raised approx. three (3) inches and covered with a textured and patterned surface. Travel lanes will be narrowed to allow bike lanes, which will connect with existing bike lanes on both ends of the project. The existing patterned and textured concrete entryway pavement will be reconstructed to better align with the new travel lanes.

Description or Scope

This allocation funds the construction of new sidewalks in accordance with the Pedestrian Safety Improvement Program criteria throughout Jacksonville on Biscayne Blvd. Funding will be used for installation of new sidewalks that will help to address pedestrian safety and mobility issues. Project includes the construction of sidewalks from Biscayne Estates Drive to International Airport Blvd.

Justification

Jacksonville is ranked highest for pedestrian fatalities among most populous cities in America. Improved sidewalks and ADA ramps will provide safer and more efficient pedestrian movement throughout Jacksonville. The new sidewalks and ADA compliant sidewalks will encourage companies to locate in Jacksonville.

Description or Scope

Project scope is the design and construction of new sidewalk to connect Soutel to Belvedere St.

Justification

Jacksonville is ranked highest for pedestrian fatalities among most populous cities in America. Improved sidewalks and ADA ramps will provide safer and more efficient pedestrian movement throughout Jacksonville. The new sidewalks and ADA compliant sidewalks will encourage companies to locate in Jacksonville.

Description or Scope

This allocation funds the construction of new sidewalks in accordance with the Pedestrian Safety Improvement Program criteria throughout Jacksonville on Clyde Drive. Funding will be used for installation of new sidewalks that will help to address pedestrian safety and mobility issues. Project includes the construction of sidewalks from Lem Turner Road to Carbondale Drive.

Justification

Jacksonville is ranked highest for pedestrian fatalities among most populous cities in America. Improved sidewalks and ADA ramps will provide safer and more efficient pedestrian movement throughout Jacksonville. The new sidewalks and ADA compliant sidewalks will encourage companies to locate in Jacksonville.

Description or Scope

The Hogan Street Connector provides a missing connection between the Hogan's Creek Greenway trail and the Northbank Riverwalk trail. The e proposed trail begins on the northern end at Hogan's Creek and interacts with the Florida State College at Jacksonville (FSCJ) campus as a shared-use street.

Justification

Provides direct connection through Downtown Jacksonville Connects two existing trail corridors - the Northbank Riverwalk and the Hogan's Creek Greenway

Description or Scope

With the programmed McCoy's Creek Greenway and the Artist Walk, the Southwest Connector provides neighborhood connections to Brooklyn, Five Points, and Riverside. The trail segment begins at the Artist Walk under I-95 at College Street and is proposed as a greenway connection through Riverside Park. The trail connection within the park will mirror the park's existing walkways.

Justification

Provides connections to major parks and commercial hubs

Description or Scope

The S-Line Connector provides the missing trail segments along the existing S-Line Rail Trail within the Urban Core neighborhood. At Boulevard Street on the western end, the trail segment will follow the abandoned rail corridor owned by Jacksonville Electric Authority (JEA) to N. Pearl Street. The crossing of N. Pearl Street is proposed as a mid-block crossing with a bicycle/pedestrian activated signal recommended for a safe crossing of the road by all trail users.

Justification

Completes the missing link between the existing S-Line trails and Establishes the opportunity for future development along the abandoned rail corridor.

Description or Scope

The City of Jacksonville's Eastside Connector will provide connections to the Springfield and Phoenix neighborhoods and add additional bicycle/pedestrian connections from the S-Line Rail Trail and the Hogan's Creek Greenway.

Justification

Provides connections for east side neighborhoods to parks and schools also connects S-Line to the Hogan's Creek Greenway

Description or Scope

East of Main Street, this segment will extend the Hogan's Creek Greenway along the creek corridor to the south of Duval Street where the segment will create a loop connection on the east side of downtown with the Northbank Riverwalk and the TIAA Bank Field, Veterans Memorial Arena, and Baseball Grounds of Jacksonville sports venues.

Justification

Connects Hogan's Creek Greenway to the Northbank Riverwalk

Description or Scope

The Hogan Street Connector provides a missing connection between the Hogan's Creek Greenway trail and the Northbank Riverwalk trail. The proposed trail begins on the northern end at Hogan's Creek and interacts with the Florida State College at Jacksonville (FSCJ) campus as a shared-use street.

Justification

Provides direct connection through Downtown Jacksonville and Connects two existing trail corridors - the Northbank Riverwalk and the Hogan's Creek Greenway

Description or Scope

This project will remediate the Liberty St Bridge, the Coastline Drive Bridge, the former county courthouse parking deck and part of the Northbank Riverwalk. This project will determine the best methodology to replace/repair the structures and explore design parameters with a bulkhead &/or alternate bridge types.

Justification

Originally constructed by the County/City in 1961, this is a unique structure made up of four distinct bridge structures. Recent inspections have noted serious decay issues. Several sections of the bridge structures are closed due in part to two bridge deck failures.

Project Title	Cntywd Intersection Imp & Bridge Rehab - Intersections
Project Location	County-wide
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	County-wide
Project No	PW0381.03
Ordinance No	2015 - 504
BT No	

Project Comp Date	Ongoing
Dpt Ranking	10
Prj ID	74
Useful Life	20 years

Description or Scope

This allocation funds county-wide enhancements to City intersections. The enhancements are focused on City intersection safety and capacity improvements to mitigate hazardous conditions and enhance roadway traffic flow and operations throughout Jacksonville. The Public Works Department has developed a prioritization process to identify sites that require mitigation of safety issues and sites with persistent capacity issues.

Justification

Locations experiencing noticeable volumes of crashes may be improved with corrective measures that will mitigate targeted crash types and crash/conflict contributing factors. The work is usually minor and improvement plans are selected based on anticipated reduction in crashes or elimination of factors that contribute to crashes. It provides flexibility to address unforeseen needs rapidly, since the funding is already in place.

Project Title	Roadway Resurfacing
Project Location	County-wide
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	County-wide
Project No	PW0070 01
Ordinance No	
BT No	

Project Comp Date	Ongoing
Dpt Ranking	1
Prj ID	23
Useful Life	25 years

Description or Scope

This allocation funds resurfacing of City roads throughout Jacksonville. The City is responsible for approximately 3,682 miles of paved centerline roadway. Resurfacing includes full milling and resurfacing, micro-surfacing and rejuvenation of City roadways. All of these treatments extend the lifespan of existing city roadways. Program Management Services for the Pavement Management program are also included in this project. A portion of this project is being funded by Community Development Block Grant (CDBG) grant funding.

Justification

The improved resurfaced roadways will provide safer and more efficient transportation throughout Jacksonville. The project will decrease operating budget in future years and maintenance efforts that will be required on the resurfaced roadways will be reduced resulting in cost savings for maintenance. Also the improved resurfaced roadways will result in lower damage claims for vehicles due to problems with the deteriorated roadway surface such as potholes. The resurfaced roadways will encourage companies to locate to Jacksonville.

Useful Life	25 years

Description or Scope

This project will improve the intersection which has one of the City's highest vehicle accident rates. The intersection will be improved with a concrete curb median added to eliminate cross-lane movements. Access driveways will be eliminated that are too close to the intersection. The traffic signal system will be replaced with a current standard installation.

Justification

Improving this intersection will provide a safer traffic environment and eliminate a major source of traffic accidents. The new signal controls will eliminate several service calls required to maintain the old system and improve the efficient control of traffic through the intersection.

Project No	PW0381.02
Ordinance No	2015 - 504
BT No	

Project Comp Date	Ongoing
Dpt Ranking	16
Prj ID	35
Useful Life	

Description or Scope

This is a continuous requirement necessary to maintain the City's 186 bridge structures. It will be used for general maintenance repairs, design to correct scour and functional obsolescence, and construction of specific bridge projects.

Justification

Adequately maintaining the City's bridge structures is a very important component of ensuring that our City's infrastructure is safe and reliable for the citizens of Jacksonville.

Project Title	5th Street Bridge Replacement
Project Location	5th Street Bridge over Six Mile Creek between Edgewood Aven
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	9
Project No	PW0865 01
Ordinance No	
BT No	

Project Comp Date	Beyond 2021
Dpt Ranking	22
Prj ID	33
Useful Life	50 years

Description or Scope

This is an 80' long two lane concrete bridge located on 5th Street between Ellis Road and Edgewood Avenue North. The most recent FDOT evaluation noted that the bridge is Structurally Deficient and is load rated and needs to be replaced. The timber piles upon which the bridge deck is resting are in seriously degraded condition.

Justification

5th Street is a high-traffic access road that runs between Ellis Road and Edgewood Avenue North. Traffic flow in the area would be severely compromised should the existing structure suffer a significant failure. 5th Street currently carries an average of 6,701 daily trips.

Project Title	Cedar Point Road Bridges
Project Location	Cedar Point Road (Bridges located near Boney Rd & Gate Rd)
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	2
Project No	PW0792.01
Ordinance No	
BT No	

Project Comp Date	September 2021
Dpt Ranking	26
Prj ID	41
Useful Life	50 years

Description or Scope

Two bridges located on this road are functionally obsolete, 724129 and 724130, due to the bridge parapets being non-standard and the bridge deck being too narrow. The scope is to add an additional deck beam on either side of both bridges. This will require extending the abutment pier to support the new beam. The new span will support adding an EDOT approved parapet. Both bridges will receive a new guardrail system and abutment improvements. Miscellaneous repairs will be performed to eliminate any structural deficiencies.

Justification

Both bridges have been deemed functionally obsolete.

Description or Scope

This project will replace the existing bridge with a new bridge and open up the waterway which is currently restricted by the current bridge construction.

Justification

This bridge underwent repairs in FY 16 . The structure needs to be replaced to ultimately satisfy the needs of the structure.

Prj ID	472
Useful Life	50 years

Description or Scope

This project will construct a new bridge beside the existing one that will be identical in architecture. The existing bridge will be converted to westbound 2-lane and the new bridge will be eastbound 2-lane eliminating the traffic bottleneck.

Justification

Since the completion of the original bridge, continued development in the area has increased the traffic loading substantially. The roadway approaches to the southwest and east are both 4-lanes with medians and are necked down to use the current 2 lane bridge crossing.

Ordinance No	
BT No	

Project Comp Date	Ongoing
Dpt Ranking	34
Prj ID	77
Useful Life	15 years

Description or Scope

The purpose of this project is to provide funding for signalization of intersections. When the Traffic Engineering Division deems that an intersection meets the criteria for signalization, these funds will provide the resources to design and install the necessary traffic signals.

Prj ID	79
Useful Life	15 years

Description or Scope

Calculate the traffic signal clearance periods for each approach of City traffic signals and program the information into the traffic signal controller.

Justification

Traffic signal clearance periods are the yellow and all-red indications. Most of the City traffic signals do not have the required calculated clearance periods. Approaching speeds or speed limits, centerline grade, driver reaction time and intersection crossing width are factors included in determination of clearance periods. Clearance periods that are too short or too long generate safety issues at signalized intersections.

Project Location	Countywide
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	Countywide
Project No	
Ordinance No	
BT No	

Project Comp Date	TBD
Dpt Ranking	37
Prj ID	217
Useful Life	20 years

Description or Scope

The project will provide communications to the traffic signals along selected City arterials. A communication link to a traffic signal controller will allow for remote assessment of signal issues, provide automated warning for power outages, allow for video capability, and remote real time observation of the intersection and corridor.

Justification

A communication link to a traffic signal controller will allow for remote assessment of signal issues, provide automated warning for power outages, allow for video capability, and remote real time observation of the intersection and corridor. Fiber communications will allow for a more rapid assessment and reduced labor costs.

Description or Scope
Convert all School Zones on city roads to full electric flash indications

Justification
Florida Statute 316.1895 requires all school zones to utilize electric flashers by July 1, 2022. Jacksonville has 120 schools with school zones that are in need of upgrading from static signs. An inventory and cost estimate has been assembled.

Project Title	Roadway Sign Stripe and Signal
Project Location	County-wide
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	County-wide
Project No	PW0057 01
Ordinance No	
BT No	

Project Comp Date	Ongoing
Dpt Ranking	44
Prj ID	75
Useful Life	6 - 10 years

Description or Scope

This project supports the Traffic Engineering Division's county-wide effort to re-stripe and re-sign deficient roadways. Additional efforts include signal repair and replacement or enhancement of traffic signal equipment.

Justification

Roadways that lack or are missing lane lines/lane control markings (arrows, etc.) are difficult to traverse with opposing traffic. Drivers are exposed to side swipe and off-set head on collisions. Turns and curves are critical segments that require clear lane delineation. Repair of signalized intersections is critical in providing traffic control during weekday peak periods. Signs are replaced as reflectivity is reduced. Regulatory signs and school zones are critical locations. Signs useful life: 10 years, Signal useful life: 8 years, Striping useful life: 6 years.

Council District(s)	County-wide
Project No	PW0096 01
Ordinance No	
BT No	

Project Comp Date	Ongoing
Dpt Ranking	45
Prj ID	26
Useful Life	15 years

Description or Scope

This allocation funds countywide railroad crossing maintenance. The City has long standing agreements with the major railroad companies that place the maintenance and repair cost of railroad crossings on the City. By agreement, the City has to have funds available at all times to pay for any work that may be deemed necessary by the railroads.

Justification

The City of Jacksonville has to be able to fulfill the obligation of the agreements in place with the railroads. The crossing improvements are safety related and are performed by the railroads.

Project Title	Downtown Network Switches Replacement
Project Location	Downtown
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	7
Project No	PW0914 01
Ordinance No	
BT No	

Project Comp Date	TBD
Dpt Ranking	36
Prj ID	48
Useful Life	12 years

Description or Scope

Replace outdated fiber optic network switches.

Justification

Network switches are fiber optic connections. There are 110 network switches in the downtown area that have reached or exceeded their life expectancy and are starting to fail. They need to be replaced. Network switch failure results in lost communication to the traffic signal controller (computer). Lost communication to a signalized intersection will reset the program to a default plan that will be different from the adjacent traffic signals, provide no alarms such as failures or flash mode, will not receive timing updates and lose synchronization. Each intersection has a network switch. The estimated cost of switches in the downtown area is \$132,000 (\$1,200 per piece).

Project Title	Countywide Bulkhead - Assess, Repair & Replacement
Project Location	County-wide
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	County-wide
Project No	PW0781.01
Ordinance No	2015 - 504
BT No	

Project Comp Date	Ongoing
Dpt Ranking	46
Prj ID	80
Useful Life	50 years

Description or Scope

This funds inspection/repair/replacement of the City's countywide bulkhead assets not limited to the St. Johns River. Funding will be used to evaluate and address failing bulkheads. Citywide bulkhead replacement (failures and poor countywide bulkheads).

Justification

Bulkheads are necessary in order to prevent the erosion and loss of public and private property. Bulkheads also contribute to the prevention of unwanted sediment and pollutants entering our surface waters, Where structures are adjacent or in close proximity to the bulkheads, their stability often relies upon the bulkhead and it's effect upon the stability of the foundation and underlying soil.

Project Title	Northbank Bulkhead
Project Location	Northbank Riverwalk in Downtown
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	7 & 9
Project No	PW0076 01
Ordinance No	
BT No	

Project Comp Date	Beyond 5th year
Dpt Ranking	47
Prj ID	37
Useful Life	25 years

Description or Scope

Our continuous inspection of the Northbank Riverwalk (previously in 2006 and recently in 2010) indicates a need to begin phasing the entire replacement of the bulkhead. There is approximately 7,070 linear feet of bulkhead (including 1,400 linear feet at Met Park) and it is estimated that the complete replacement cost will be over \$31 million. Our plan is to phase the replacement over time. The FY18/19 funding will be for the approx. 645 ft of bulkhead adjacent to the Times Union Center for Performing Arts.

Justification

Replacement of this deteriorating bulkhead will reduce on-going maintenance costs and eliminate potential liabilities assigned to the City. Future years' funding will be required to continue the effort of completing this replacement task and ongoing City maintenance.

Project Title	St. Johns River Bulkhead, Assess/Restore
Project Location	County-wide
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	County-wide
Project No	PW0549 03
Ordinance No	2007 - 813
BT No	

Project Comp Date	Ongoing
Dpt Ranking	48
Prj ID	31
Useful Life	50 years

Description or Scope

This funds inspection/repair/replacement of the City's countywide bulkhead assets. Previous years' funding has been utilized to inventory and assess 557 Structures throughout Jacksonville. They have been assessed as being either in excellent, good, poor, or failing conditions to allow for a prioritization of improvement. Previous years' allocations have also funded the repair/replacement of the highest priority structures (those identified as Failure & Poor condition - 86 Structures) and continual funding supports ongoing inspections in order to update the project prioritization list and address the next group of highest priority structures.

Justification

Extending bulkhead life and/or replacement of deteriorated bulkheads will reduce on-going maintenance costs and eliminate potential liabilities assigned to the City. Future years' funding will be required to continue the effort of maintaining the City's bulkhead infrastructure.

Project Title	Willowbranch Creek Bulkhead Replacement
Project Location	Willow Branch Creek running from Sydney Street to the St John
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	14
Project No	PW0835 01
Ordinance No	
BT No	

Project Comp Date	September 2020
Dpt Ranking	49
Prj ID	36
Useful Life	50 years

Description or Scope

This project will design and construct a replacement bulkhead for The Willowbranch Creek system. The design will address bulkhead demolition, replacing the bulkhead, removing exotic species from the banks, ensuring ADA compliance with all crossings, bringing all pedestrian crossings up to current safety standards, and eliminating eroding areas due to bulkhead failure.

Justification

The creek has been channelized as part of the Willowbranch Park. The bulkheads were constructed many decades ago using simple CMU construction. Many areas are failing, some spots have failed. The channel has been degraded and eroding. This project will correct these deficiencies with a new bulkhead, upgrading the safety of pedestrian crossings, ensuring ADA compliance with the crossings, landscaping, and correcting improper drainage connections.

Description or Scope

Drainage improvement project including channel improvements to McCoy's Creek between Hollybrook and Myrtle Avenue.

Justification

The existing connection of McCoy's Creek isolates and denies access to the creek limiting public access and recreational opportunity. The area floods frequently from both rainfall and storm event due to restricted flow of the creek.

Useful Life	30 years

Description or Scope

The bulkheads along McCoy's Creek are in poor and deteriorating condition that has numerous areas of exposed ash materials behind the bulkheads that come into contact with the waters of the creek. Project evaluates, repairs, and/or replaces bulkheads as needed to prevent ash material exposure to the waters of the creek. Some excavation of ash materials would be required with standard disposal protocols.

Justification

Failing bulkheads along this creek not only create flooding issues and continue to erode from storm events but also pose an environmental risk due to adjacent ash sites.

Useful Life	25 years

Description or Scope

Stormwater improvement from Myrtle to the outfall as well as opening up the mouth of McCoy's Creek to support access to the creek, and improved recreational opportunity associated with McCoy's Creek.

Justification

The existing connection of McCoy's Creek isolates and denies access to the creek limiting public access and recreational opportunity. This segment restricts flow and floods during storm events and the project will remove 40 structures from the flood hazard and increase economic value.

Description or Scope

The existing stormwater pump station which serves the Myrtle Street underpass has failed. A temporary fix has been made but the 50 year old pump station needs to be rebuilt.

Justification

If the temporary system fails the underpass at Myrtle Street becomes impassable. This is only one of a few pedestrian pathways from the adjacent neighborhood and the downtown area.

Description or Scope

Intersection improvements including vehicular and pedestrian signal upgrades, new concrete sidewalk, curb and gutter. Pedestrian overpass aesthetics; landscape renovations and enhancements along the corridor.

Justification

Provide safer environment for traffic, pedestrians and bicyclists within the project limits. Reconditioning of the pedestrian overpass, landscaping enhancements will create green appeal and reestablish an attractiveness to the area.

Description or Scope

Design & Construction to widen Chaffee Road from 2 lanes to 4 lanes with medians and auxiliary turn lanes from Normandy Blvd to I-10.

Justification

Residential and Commercial development along Chaffee Road from Normandy Boulevard to Crystal Springs Road is rapidly increasing. Road and traffic control improvements are needed to provide a roadway that provides for the safe movement of traffic, bicyclists and pedestrians within this corridor.

Project Title	Soutel Drive Road Diet
Project Location	Soutel Drive from New Kings Rd to Lem Turner Rd
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	9, 10
Project No	PW0812.02
Ordinance No	
BT No	

Project Comp Date	2020
Dpt Ranking	58
Prj ID	229
Useful Life	

Description or Scope

Design and construction of Soutel Drive road diet, bike lanes, and sidewalk improvements. Road diet will turn 4-lane section into a 3-lane section with bike lanes. Pedestrian improvements will include fixing broken sidewalks, ADA curb ramps, striping crosswalks, pedestrian refuge islands, and Rectangular Rapid Flashing Beacons.

Justification

This is a low-volume road in a low-income area with a significant amount of biking and walking, as well as a large number of severe and fatal bike/ped crashes. Adding bicycle facilities will improve safety for bicyclists, and adding a center turn lane will create an opportunity for pedestrian refuge islands at crossings. This type of 3-lane configuration is also safer for motorists, as it provides a place for left-turning vehicles to wait for oncoming traffic.

Project Title	Rogero Road - Roundabout
Project Location	Rogero and Arlington Rd Intersection
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	1
Project No	PW0795 03
Ordinance No	
BT No	

Project Comp Date	Beyond 2021
Dpt Ranking	59
Prj ID	44
Useful Life	30 years

Description or Scope

Design and Construction of a roundabout at the intersection of Rogero Road and Arlington Road.

Justification

Neighborhood Association has requested a roundabout at the Arlington Road/Rogero Road Intersection. Traffic Engineering is having an Operational Analysis Study prepared to determine if a roundabout is warranted.

Description or Scope

This project will include signalization improvements, reconstruction of intersections of Palm Avenue, Gary Street, Baptist Way and Prudential Drive. Project improvements include turn lanes, sidewalks, drainage, bike lanes, landscaping, hardscaping and lighting enhancements.

Justification

These improvements are expected to increase the roadway level of service in the area, increase and enhance pedestrian and bicycle connectivity and mobility.

Project Title	Five Points Project - Improvements
Project Location	Five Points
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	14
Project No	PW0502.01
Ordinance No	
BT No	

Project Comp Date	Beyond 2021
Dpt Ranking	63
Prj ID	39
Useful Life	20 years

Description or Scope

This project provides modifications to existing roadway infrastructure within the Five Points area to enhance pedestrian utilization and improve vehicular safety. Within this area the improvements will impact: Park Street, Post Street, Margaret Street, Lomax Street, Oak Street and Herschel Street. Improvements include turning Lomax Street into a one-way eastbound street, expanded sidewalk areas, reduced roadway widths for safer pedestrian crossings and the retention of the historic beacon that sits at the heart of the Five Points Intersection.

Justification

The plan for functional and aesthetic improvements in the Five Points area is intended to advance the goal of Riverside Avondale Preservation for making the area the safest and most walk-able neighborhood in Florida.

Description or Scope

: Realignment of the northern approach of Orange Picker Road to provide a standard Orange Picker Road & Brady Road interaction. Additional parking for Alberts Field will be constructed with the realignment.

Justification

Current intersection alignment of Orange Picker Road and Brady Road is not ideal. Intersection improvements are needed to standardize the alignment.

Description or Scope

The intent of this project is to improve surface water quality by removing septic tanks that are contributing pollutants to existing surface water bodies. It is a requirement of the Basin Management Action Plan (BMAP) for both the lower mainstream of St. Johns River and the many impaired tributaries of the St. Johns River.

Justification

Surface water quality impairments and legal requirements to meet the BMAP obligations require the City to execute a septic tank phase-out program. This is a joint initiative between the City, JEA and key stakeholders in the area.

Project Title	Underdrain Replacements
Project Location	Countywide
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	Countywide
Project No	PW0911.01
Ordinance No	
BT No	

Project Comp Date	
Dpt Ranking	
Prj ID	459
Useful Life	15 years

Description or Scope

Underdrain is a drainage system installed under a road to collect and transport subsurface groundwater. These buried conduits are usually wrapped in geotextile fabric which allow water to enter the underdrain while keeping sediments out. Underdrain is installed to keep the groundwater (protect) from coming in contact with the roadway subgrade and base.

Justification

: After many years of operating underdrain systems loose their effectiveness by becoming clogged and no longer capture groundwater. Once this occurs the roadway useful life becomes compromised and shorted.

Project Title	San Mateo Elementary School Sidewalk
Project Location	
Department	Public Works
Program Area	Roads / Infrastructure / Transportation

Council District(s)	2
Project No	TBD
Ordinance No	
BT No	

Project Comp Date	
Dpt Ranking	69
Prj ID	400
Useful Life	25 years

Description or Scope

Build approximately 1200' of sidewalk along the north side of Eastport Road and across railroad tracks (will need Railroad approval). Add crosswalks and a flashing school zone to aid students walking from the Eastport Apartments to San Mateo Elementary School. (New funding)

Justification

The Duval School Safety Committee has identified this walking path currently in use by elementary school students, to be in need of sidewalk to fill a gap in the sidewalk network. A flashing school zone is also needed to provide a safe path across Eastport Road, which is posted at 35 MPH.

Project Title	Firestone Rd - Wheat Rd Intersection Improvements	
Project Location		
Department	Public Works	
Program Area	Roads / Infrastructure / Transportation	

Council District(s)	10
Project No	TBD
Ordinance No	
BT No	

Project Comp Date	
Dpt Ranking	71
Prj ID	402
Useful Life	25 years

Description or Scope

Install traffic signal, pedestrian crossings, and drainage improvements on intersection approaches.

Justification

This intersection was identified in the Bicycle/Pedestrian Master Plan as needing pedestrian crossing enhancements. During evaluation it was determined that signal warrants are met and a full signal with pedestrian crossings would be safer and more efficient. Piping of approx. 100' of ditch and overhead utility conflicts contribute to the higher cost estimate.

Prj ID	460
Useful Life	

Description or Scope

Review and analyze available data, models, studies, and design guidance documents to identify the critical CITY infrastructure which may be susceptible to increasing levels of precipitation, increasing changes in sea level or increased tidal surge, to identify the challenges and risks associated with these potential variances, and to provide for resiliency against the more severe storms, larger tidal events, and resulting impacts.

Justification

Northeast Florida and the City of Jacksonville were directly impacted by both Hurricane Matthew in October, 2016 and Hurricane Irma in September, 2017. In addition, after a two (2) year drought period, over thirty-two inches (32") of rainfall was recorded in Jacksonville during the three (3) month period of June through August 2017, where fifty-two inches (52") of rainfall is the average annual amount over the past thirty (30) years. The extreme weather affected The City's stormwater management systems (stormwater pump stations, stormwater facilities/ponds, stormwater conveyance systems).

Description or Scope

This project focuses on the cleanup of the City owned parcel that is located immediately south of the Burke Street Regional Stormwater pond where a former dump from the early 1920-40's that was discovered during the construction of the pond. The City assessed the stormwater pond area to remediate the dump foot print that was located within the boundaries of the pond. During the assessment, contamination was discovered on the adjacent City owned parcel located to the south of the pond site along the west bank of McCoy's Creek.

Justification

Municipal incinerator ash was discovered on the Burke Street Pond site after an investigation mandated by the FDEP that was evaluating neighborhood children in the Hollybrooke Apartments across McCoy's Creek. During the subsequent cleanup of the ash materials surrounding the former pond, a historical dump was encountered on the new stormwater pond facility's southern bank. Subsequent source removal and assessment of the new stormwater facility identified additional ash deposits on the City owned property located to the south of the new stormwater pond site. The FDEP identified the City as the responsible party for the cleanup of the site.

Project Title	JAX ASH - McCoys Creek Buffer to Creek Bank
Project Location	
Department	Public Works
Program Area	Environmental / Quality of Life

Council District(s)	9
Project No	PW0512.09
Ordinance No	
BT No	

Project Comp Date	
Dpt Ranking	74
Prj ID	386
Useful Life	30 years

Description or Scope

The approved remediation method is to excavate the upper two feet of soil, replace with clean backfill, place institutional and engineering controls on the parcel. The ash is used as daily cover for the Trail Ridge Landfill. The program is overseen by the EPA and administered by the Solid Waste Division. The un-resolved method of creek bank restoration left approximately 3,000 feet of 20-30 wide strips along both sides of the creek bank were left for future remediation.

Justification

The ash remediation program is composed of four areas of the City where municipal solid waste was burned in an incinerator as a method of treatment to render the material inert prior to disposal. The incinerator ash was deposited in areas of Jacksonville in the early to mid 1900's and consists of approximately 3,700+ sites in four areas: Browns Dump, Forest Street, 5th and Cleveland and Lonnie Miller. Due to the inefficient technology of the time, the SW materials were not rendered inert and as a result contain elevated levels of heavy metals and PAHs above federal regulatory levels. EPA Consent Order, court ordered legal action called a Record of Decision.

Description or Scope

The approved remediation method is to excavate the upper two feet of soil, replace with clean backfill, place institutional and engineering controls on the parcel. The ash is used as daily cover for the Trail Ridge Landfill. The program is overseen by the EPA and administered by the Solid Waste Division. There are approximately 15 parcels in the Forest Street Incinerator area and along McCoys Creek that require remediation.

Justification

The ash remediation program is a Superfund Site composed of four areas of the City where municipal solid waste was burned in an incinerator as a method of treatment to render the material inert prior to disposal. The incinerator ash was deposited in areas of Jacksonville in the early to mid 1900's and consists of approximately 3,700+ sites in four areas: Browns Dump, Forest Street, 5th and Cleveland and Lonnie Miller. Due to the inefficient technology of the time, the SW materials were not rendered inert and as a result contain elevated levels of heavy metals and PAHs above federal regulatory levels. EPA Consent Order, court ordered legal action called a Record of Decision.

Council District(s)	7
Project No	
Ordinance No	
BT No	

Project Comp Date	TBD
Dpt Ranking	84
Prj ID	89
Useful Life	

Description or Scope

The project scope is design and construction of Streetscape improvements along 8th Street from I-95 to Jefferson Street. Landscaping, tree planting & hardscape Improvements (brick pavers, irrigation, historic lighting, benches, etc.) within the existing 8th Street right-of-way to match the recently completed streetscape improvements on Jefferson Street between 8th Street and 10th Street.

Justification

This is one of three projects identified to enhance the Shands Hospital area. The other two projects are the Jefferson St hardscape project (completed) and the 11th and 12th St. connector (not yet completed).

Council District(s)	7
Project No	
Ordinance No	
BT No	

Project Comp Date	TBD
Dpt Ranking	85
Prj ID	90
Useful Life	15-30 years

Description or Scope

Landscaping renovation of 10 Downtown Pocket Parks and medians: Riverside Ave Median (bet Peninsula Pl and Edison Av), Water Street Median (bet Broad St and Pearl St), Water St Pocket Park, Bay and Broad Street Pocket Park, Independent Drive/Main Street Bridge Ramp, Jessie Smith Pocket Park, Main Library Pocket Park, Howard's Island, Sister City Park, State/Union/Liberty median.

Justification

The downtown pocket parks and medians are highly visible green spaces within the downtown area that have deteriorated because of lack of proper funding for maintenance. These green spaces now require major renovations to make them again attractive assets for the downtown area.

Description or Scope

This funding will be used to renovate the landscaping at medians on the following corridors: Main St, Roosevelt Blvd, Monument Rd and Wonderwood Dr.

Justification

The landscaping at each of these heavily traveled roadways is in very poor condition which presents a poor visual impression to the public. A major landscape renovation is now needed to reestablish an attractive setting for the traveler.

Description or Scope

Renovation of landscape an irrigation on various street medians throughout Jacksonville that are in poor condition. Examples of these are Water Street medians (Broad St. to Hogan St.) and Riverside Ave. medians (Gilmore St. to Rossell St.)

Justification

Medians throughout Jacksonville are highly visible green spaces and many have deteriorated over the years from lack of proper funding for maintenance. Projects now require major renovations to make them again attractive features. In the above to examples both were landscaped over 20 years ago.

Useful Life	

Description or Scope

The work includes 1770 sf building, tree mitigation, large office, mechanical room, storage room, large open area (lounge), bathrooms, electrical room, janitor closet, pantry, kitchen, sidewalks, outside fenced patio, parking with striping, outside lighting, storm water management, landscape, bicycle racks, parking with striping and wheel stops, signage, driveway, utilities, electrical work, mechanical, fire protection, fire alarm, telecommunication, plumbing and all other work required to complete the project.

Justification

Additional items requested by the client as outdoor lighting, teaching kitchen with solid counter tops, fenced back patio and store fronts added additional cost. Designer provided with the 30% plan submittal an estimated cost higher than the available budget. Also, CEI, bidding cost and CEI are needed for this project.

Description or Scope

Capital maintenance and emergency repairs to include hazardous material assessment/abatement, repairs under \$100,000, and downtown core routine maintenance on major equipment.

Justification

Without funding to address special, emergency or hazardous materials projects, the amount of deferred maintenance in the City will continue to increase.

Useful Life	20 years

Description or Scope

Funds existing roofing contract that allows for roofing repairs and maintenance to all COJ roofs experiencing leaks.

Justification

The importance of having funding in place for this project protects the building's envelope, one of the most critical building components. If this project is not funded, minor issues in the building's envelope could grow into a much larger concern very quickly making a facility uninhabitable.

Description or Scope

The facility and its infrastructure are over 20 years old. Additionally this facility experiences heavy use on a daily basis, as such the wear and tear tends to be greater than that of a traditional government facility. Major issues which will be addressed with these funds are: Re-piping of the sanitary and domestic water lines, repair of the concrete stairs and shower pans (showers are leaking from floor to floor), replacement and upgrading of dorm lights and exit lights, a phased in replacement of the chillers and HVAC units, repair of the concrete eyebrows at three facades on the exterior of the building, and replacement of pneumatic HVAC controls.

Justification

It is vital that we properly maintain this facility since it is an integral part of maintaining public safety.

Description or Scope

This funding will be used to replace all of the Variable Air Volume (VAV) boxes over the next two years. These VAV boxes are critical components of the HVAC system in this facility.

Justification

The facility's HVAC system is approximately 34 years old. The VAVs have been determined to only have approximately 30% estimated life remaining.

Department	Public Works	
Program Area	Public Facilities	

Council District(s)	7
Project No	PW0749 03
Ordinance No	
BT No	

Project Comp Date	September 2021
Dpt Ranking	103
Prj ID	61
Useful Life	12 - 20 years

Description or Scope

The facility and its infrastructure are nearly 30 years old. Major issues which will be addressed with these funds are: phased in replacement of the Variable Air Volume (VAV) boxes, phased in replacement of the rooftop air conditioning units, replacement of four 30-ton AON units, and waterproofing the east and west wings of the building.

Justification

The facility's HVAC system is nearly 30 years old. The MAUs have been determined to only have approximately 5% estimated life remaining, the RTUs have been determined to need a planned replacement program, and the VAVs have been determined to only have less than 10% estimated life remaining. Additionally, water infiltration is causing structural and cosmetic damage which can potentially lead to biological growth.

Program Area	Public Facilities

Council District(s)	County-wide
Project No	PW0677 02
Ordinance No	
BT No	

Project Comp Date	Ongoing
Dpt Ranking	107
Prj ID	73
Useful Life	varies

Description or Scope

This project will focus on assessing and remediating air quality improvements in building system components in facilities throughout the county.

Justification

This funding will allow us to properly maintain systems so that they run efficiently and provide a clean environment in city facilities.

Project No	PW0771.02
Ordinance No	
BT No	

Project Comp Date	September 2021
Dpt Ranking	108
Prj ID	67
Useful Life	10 years

Description or Scope

The funding will be used for: Recaulking of all joints on the exterior of all the buildings and recoating the exterior of all buildings to keep moisture out while protecting the tilt-up panels and window frames. Additionally funds will be used for replacement and upgrades to the dorm lights in the facility in order to increase visibility and security.

Justification

Cost of completing necessary repairs will continue to increase with delays due to additional damage done to the building and its contents as a result of water intrusion. Also, delays in renovations to the dorm lighting will contribute to a less secure environment for the facility residents and the staff.

Project Title	Fleet Management - Maintenance and Upgrades	
Project Location	2581 Commonwealth Ave	
Department	Public Works	
Program Area	Public Facilities	

Council District(s)	9
Project No	PW0753 04
Ordinance No	
BT No	

Project Comp Date	September 2020
Dpt Ranking	109
Prj ID	65
Useful Life	10 - 20 years

Description or Scope

This is an old facility and the materials used to construct the building are increasingly difficult to repair due to the age. The funds will be used to: Install a TPO roofing system on the main building and the office to prevent water from entering the facility. Additionally funds will be used to mill, resurface and restripe the existing parking lot.

Justification

One of the most important systems of this facility is the building envelope which keeps moisture out while protecting the emergency vehicles, apparatus, and equipment in this 100,000sf warehouse building. The metal roof panels are showing signs of water intrusion and are in need of repair. Additionally, the goal of this project is to increase the safety of the parking lot for the clients and staff of the facility. Any delays to the project will increase the amount of time that Fleet Management operates using a parking lot that is no longer as safe as it should be for pedestrian and vehicle traffic.

Description or Scope

Appropriation will be used to add two 20,000 gallon above ground fuel tanks and relocate an existing 10,000 gallon fuel tank at the Fleet Management facility and resurface asphalt.

Justification

Add additional fuel storage capacity for emergency incidents before the 2018 hurricane season.

Project Location	1050 N Davis St	
Department	Public Works	
Program Area	Public Facilities	

Council District(s)	7
Project No	PR0571 02
Ordinance No	
BT No	

Project Comp Date	September 2021
Dpt Ranking	110
Prj ID	71
Useful Life	20 years

Description or Scope

Remove existing roof system and replace with a TPO system to prevent water from entering the facility through the roof.

Justification

The roof on the ARC Duval facility is currently experiencing leaks in multiple areas. Repairing the leaks and the damage caused by the leaks is becoming more and more difficult due to the age and condition of the roof. The roofing material has more than exceeded its useful life and needs replacing.

Project Title	Medical Examiner Facility
Project Location	
Department	Public Works
Program Area	Public Facilities

Council District(s)	TBD
Project No	PW0105 04
Ordinance No	
BT No	

Project Comp Date	TBD
Dpt Ranking	112
Prj ID	214
Useful Life	30 years

Description or Scope

The District 4 Medical Examiner's Office building was originally constructed in 1968 as a single story building. There was a one story addition to the original building. Subsequently, in 1994 the City of Jacksonville accomplished a renovation of the existing building together with a secondary story addition and a build of the decomposition autopsy building.

Justification

The District 4 MEO has outgrown the space. As the population within the jurisdiction of the MEO continues to grow, the need for autopsy services increases proportionally. The current space allocation is very restrictive in providing both services and staff workspace. Jacksonville is ranked in the top 10 fastest growing metro areas in the nation according to the latest Census information. The existing medical examiner's operating facility was not designed to accommodate a mass fatality situation. The maximum number of bodies that can be accommodated is 45. During the past six months, the MEO has been at capacity several times for normal/workload/processing space.

Description or Scope

This project consists of two phases: Phase I was considered capital maintenance and improved the facility's security lighting, stairways and drainage. The "Enhancements" component was funded by the FY 12-13 \$1 million allocation. The future allocation (\$1.4 million) addresses improvements to: pedestrian access, security monitoring, upper deck water proofing/expansion joints, improved office space, improved signage, exterior lighting & long-term structural needs.

Project Title	Landscape Renovations at Jax Public Library
Project Location	Webb Wesconnett, Bradham Brooks & Regency Libraries
Department	Public Works
Program Area	Public Facilities

Council District(s)	1, 8, 10
Project No	
Ordinance No	
BT No	

Project Comp Date	TBD
Dpt Ranking	121
Prj ID	92
Useful Life	15-30 years

Description or Scope

This funding will be used for landscape renovations at the following libraries: Charles Webb Wesconnett, Bradham Brooks, and the Regency Square library. The landscaping at each of these heavily used libraries is in poor condition caused by overuse and an inadequate budget for maintenance, which now presents a poor visual impression to the public. The existing landscaping at the Webb Library is over 38 years old, 23 years old at the Bradham Brooks Library, and 16 years old at the Regency Library. A major landscape renovation is now needed to reestablish an attractive setting for the library user and to insure compliance with the landscape code

Useful Life	

Description or Scope

Funds for this project will be used for upgrading the stage lighting system, sound system, digital projection system, assistive listening system, theatre seating, repairs and restoration to the plaster and paint in the auditorium, replacing the HVAC system, restoring the marquee and canopy, improvements to the bathrooms, roof replacement, elevator upgrades and flooring repairs. This funding reflects the City's 50% partnership with the Florida Theater Performing Arts Center, Inc. (FTPAC). FTPAC will be contributing the remaining 50% for a total partnership contribution of \$5M over the 5 year period.

Justification

The equipment, fixtures, systems and building components are original to the facility and past it's useful life. Furthermore these repairs/upgrades will allow the theatre to meet the needs and demands of today's market and be sustainable with it's operations.

Project Title	Ed Ball Building Power Upgrades Phase 1
Project Location	
Department	Public Works
Program Area	Public Facilities

Council District(s)	7
Project No	PW0557 06
Ordinance No	
BT No	

Project Comp Date	
Dpt Ranking	
Prj ID	473
Useful Life	25 years

Description or Scope
 Funding for this project replaces both emergency back up generators, transfer switch and controls for the Ed Ball building.

Justification
 Both generators have failed leaving the facility without critical back up power should the building lose utility power. This building houses the City's data center, failure to restore back up power leaves the data center open to failure resulting in loss of communication city wide and placing public health and safety at risk.

Project Title	Brentwood Branch Replacement
Project Location	To be Determined
Department	Public Libraries
Program Area	Public Facilities

Council District(s)	7
Project No	
Ordinance No	
BT No	

Project Comp Date	TBD
Dpt Ranking	2
Prj ID	21
Useful Life	50 years

Description or Scope

To replace the Brentwood Branch Library with a new 20,000 SF library in the same area. The new library would focus on serving children and teens as well as adult learners, and provide career services. The building would be sustainably constructed for energy savings. For adults an e-classroom would be a pivotal area of the building providing free training and classes. For children and teens, the space would be STEAM focused. Programs offered free by the library teach people how to apply for work, provide employment resources, teach computer skills and resume writing, and support student learning.

Justification

This building is well beyond its useful life as was determined in the library's Capacity Plan. It was opened in 1930 as a movie theater and converted into a library in 1961. The unique layout has a multi story/mezzanine which is inefficient and expensive to operate as a library. The building also has asbestos flooring, wood rot inside the walls from long term water damage, aging bathrooms that are not able to be fully cleaned, inefficient staff spaces, inefficient HVAC, and insufficient power and data for computer demands.

Project Title	Oceanway Branch Library
Project Location	Unknown
Department	Public Libraries
Program Area	Public Facilities

Council District(s)	2 & 7
Project No	PL0029 02
Ordinance No	
BT No	

Project Comp Date	TBD
Dpt Ranking	3
Prj ID	19
Useful Life	50 years

Description or Scope

Construct a 30,000sf library complete with library materials, computers, children's area, teen area, community meeting rooms, study rooms, computer labs, wireless internet, and drive up book drop. The Oceanway area is as an underserved area for JPL. The projected usage of this location would be 300,000 visits per year. Other than the lockers at the Oceanway Community Center, the closest library (Highlands Branch) to this area is over 10 miles away. The initial cost is for the purchase of the land in this area while good locations for a library remain available. Art in Public Places allocation for FY18/19 is \$3,750.00

Justification

This area serves the third largest Naval fleet concentration in the United States – Mayport, and the major economic engine of the City – JAXPORT. This area is expected to grow 35% in the next 10 years. The Oceanway Branch Library would promote job growth and enhance the quality of life, support economic development and job creation. A library is also an educational hub for homework, study and life-long learning that is in demand by the constituents of NE Jacksonville. This is a fast growing segment of Jacksonville which has no convenient access to library services.

Project Title	Renovation of Beaches Branch Library
Project Location	600 3rd Street, Neptune Beach FL 32266
Department	Public Libraries
Program Area	Public Facilities

Council District(s)	13
Project No	
Ordinance No	
BT No	

Project Comp Date	TBD
Dpt Ranking	4
Prj ID	22
Useful Life	30 years

Description or Scope

Libraries of today are changing from places where people consume information and obtain knowledge to places where they create information and put knowledge to work. The renovation of the 24,606sf library includes: children's area, teens area, additional study/conference spaces, security cameras, new furnishings, and associated electrical upgrades. Due to older outdated systems this library is not operating efficiently, both in its physical systems and in its set up for children, teens, entrepreneurs, and seniors. There are persistent issues in the functionality of the building that would be corrected in the renovation.

Justification

The Beaches Branch Library opened in 1986 and has an interior layout that is not suitable for a library of the 21st century. Use of libraries has changed in the past 30 years requiring library layouts to change significantly. There are many non-cosmetic issues such as inadequate power and data infrastructure to serve the needs of the current users. There is much wasted space inside and outside the building. The Beaches Branch Library is a vital resource in this community, heavily used but no longer meets the needs of the community.

Project Title	Police Memorial Building
Project Location	TBD
Department	Office of Sheriff
Program Area	Public Facilities

Council District(s)	TBD
Project No	
Ordinance No	
BT No	

Project Comp Date	TBD
Dpt Ranking	1
Prj ID	178
Useful Life	TBD

Description or Scope

Develop a plan for the creation and construction of a new Police Memorial Building. The need for 365,353 square feet of space that will enable growth of the Sheriff's Office building which houses administrative staff for all departments along with the Department of Police Services, Department of Personnel and Professional Standards, Investigations Division, Community Affairs & Special Events Division and Compliance Section. This request is for new construction, but consideration should be given to purchasing or leasing a property as well – based upon the needs of the Sheriff's Office and City officials' preference.

Justification

The Police Memorial Building currently has 200,084 Square Feet of useable office space, excluding the comm center. Over the past 20 years, JSO has had an annual growth of approx 1.65% and are currently beyond maximum capacity. Based on growth rate, if the new facility were to be built with a 40 year life expectancy, additional square footage would be needed. The proposed building would be approx 365,353 sq ft, to include the current needs, additional space to accommodate future growth, and space to accommodate maintenance areas, which usually take about 10% of the usable office space and includes HVAC, electrical, plumbing and house keeping.

Project Title	3,000 Bed Pretrial Detention Facility (replace existing facility)
Project Location	4727 Lannie Rd. Jacksonville, FL 32218
Department	Office of Sheriff
Program Area	Public Facilities

Council District(s)	7
Project No	
Ordinance No	
BT No	

Project Comp Date	TBD
Dpt Ranking	2
Prj ID	175
Useful Life	TBD

Description or Scope

A 3,000 bed detention facility with the primary purpose of holding offenders who stay incarcerated past their initial court date, county sentenced or awaiting transfer to the state or other systems. This facility would house pretrial and post sentence offenders, and would take the place of the current Pretrial Detention Facility.

Justification

This facility may be necessary due to the location, age and condition of the John E. Goode, Pretrial Detention Facility. It is recommended to keep costs down that this facility be built on property currently owned by the city, and be used to consolidate and replace existing structures at the Montgomery Correctional Center that will also be nearing the end of functional life by 2020. The cost provided is an estimate based on available comparables.

Description or Scope

A 500 bed detention facility with the primary purpose of receiving, processing and housing short term offenders. This facility would house those inmates awaiting first appearance and the medically challenging inmates.

Justification

This facility may be necessary due to the location, age and condition of the John E. Goode, Pretrial Detention Facility. This 500 bed detention facility would be able to house and manage those inmates making court appearances and those inmates deemed inappropriate for our other facilities due to medical needs and physical limitations.

Project Title	Homeland Security Narcotics & Vice Building
Project Location	TBD
Department	Office of Sheriff
Program Area	Public Facilities

Council District(s)	8
Project No	
Ordinance No	
BT No	

Project Comp Date	Beyond 2021
Dpt Ranking	4
Prj ID	173
Useful Life	TBD

Description or Scope

Purchase a larger building to replace 711 N. Liberty Street and house all squads of the Homeland Security/Narcotics & Vice Division. The square footage would be between 60,000 and 70,000. '711' is 41.5K sqft (add 4200 sqft for the warehouse offices). A potential/example property has been identified for purchase: The Interstate North Office Center @ 435 Clark Rd: A stand-alone 6-story office building with 64.6K sqft. The building would need HVAC, security, electrical, structural and cosmetic work to build-to-suit and be in code compliance which could cost an additional \$1M.

Justification

711 North Liberty is full and unable to house the whole HS/NV Division. Five additional HS/NV squads have to work from other locations. There is not ample parking and no room for future growth. The cost is negotiable, but a realtor's estimate of \$1.5M was given. It is in an isolated location, backs up to 195 with close to 300 parking spaces on property which is sufficient for all of HS/NV Division with room for future growth. Even with the cost of repairs and modernization, this property is priced low enough that a total price of \$2.5M would still be less expensive than a normal 5-year lease at \$10 to \$15 a sqft for buildings like this in Jacksonville.

Useful Life	

Description or Scope

Replace finishes such as flooring, walls, ceilings, toilet partitions, upholstery and fixtures in main concourses, meeting rooms, ballrooms, public restrooms and general spaces throughout.

Justification

General age of spaces (over 30 years old) have original finishes. New finishes will increase guest experience, generating a positive experience for our clients and make the venues more attractive when competing against alternate local venues.

Project No	PW0883 01
Ordinance No	
BT No	

Project Comp Date	Ongoing
Dpt Ranking	3
Prj ID	181
Useful Life	

Description or Scope

Building wide projects, repairs and replacements such as Building Automation, boilers, chillers, building signage & graphics, concrete repairs, cooling towers, data infrastructure, digital signage, door replacements, electrical equipment, elevator and escalator modernization, exposed structural steel, food service equipment replacements, glass, lighting retrofits, misc. mechanical equipment replacements, parking lot resealing, plumbing equipment replacements, pumps, motors, roof replacements, exterior video signage, VFD's and water heaters.

Justification

Majority of major building systems are from 1986. Units are running ineffectively and inefficiently and have exceeded their useful life. Replacement will provide energy savings opportunities and improve guest satisfaction while visiting the venue.

Project Title	Blue Cypress Pool Demo & Replacement
Project Location	4012 University Blvd North 32277
Department	Parks, Recreation & Community Services
Program Area	Parks / Preservation Land / Wetland

Council District(s)	01
Project No	PR0093 10
Ordinance No	
BT No	

Project Comp Date	
Dpt Ranking	
Prj ID	452
Useful Life	30 years

Description or Scope	
Pool Construction - Demo existing pool to develop new facility	

Justification	
Blue Cypress Pool is located at Blue Cypress Park and Community Center. The pool has been closed for several years and has now become a breeding ground for mosquitoes and an eyesore for this beautiful neighborhood park. Reconstruction of this pool would increase the utilization of the entire park.

Description or Scope

Acquisition of Johnston Island with the Intracoastal Waterway under the Atlantic Blvd Bridge for future public recreational use. Acquisition would be dependent upon equal funding (\$562,000) by the City of Atlantic Beach and the ability to secure a FIND grant for 25% of the cost.

Justification

Activation of Waterways by creating a public recreational destination in a popular area.

Project Title	McCoy's Creek Kayak Launch Sites (3)
Project Location	
Department	Parks, Recreation & Community Services
Program Area	Parks / Preservation Land / Wetland

Council District(s)	9
Project No	TBD
Ordinance No	
BT No	

Project Comp Date	
Dpt Ranking	16
Prj ID	392
Useful Life	

Description or Scope

As part of the efforts to restore McCoy's Creek and improve the linear park and roads along its course, this specific project would provide funding to design, permit and construct up to three separate kayak launches along the creek. These launches would provide public water access for non-motorized, hand-launched vessels. The site characteristics at the selected locations will dictate whether the shoreline can be used for launching or if a floating structure will be necessary to provide water access.

Project Title	Hanna Park 4 - Boardwalks
Project Location	500 Wonderwood Drive 32233
Department	Parks, Recreation & Community Services
Program Area	Parks / Preservation Land / Wetland

Council District(s)	13
Project No	PR0653 08
Ordinance No	
BT No	

Project Comp Date	Beyond 2021
Dpt Ranking	25
Prj ID	139
Useful Life	15

Description or Scope	
Hanna Park 4 - Beach Access Boardwalks	

Justification	
The beach access boardwalks are starting to deteriorate due to the harsh environment and need to be replaced on a phased approach starting with the worst two boardwalks. This project initiates a plan to ensure public beach access at this very popular park and provides an opportunity to upgrade the accessibility of the boardwalks to meet ADA requirements. Hanna Park is a revenue generating operation that attracts tourists / campers from outside the region as well as being a favorite destination for local citizens. The park has not benefitted from any major capital improvements in recent years and needs to remain competitive with other regional beach parks and campgrounds of similar magnitude and entry fees such as Little Talbot Island State Park, Fort Clinch State Park and Anastasia State Park

Description or Scope

Ivey Road Park - Design & Develop per the Master Plan

Justification

Ivey Road Park needs to be designed & developed into a new park per the Master Plan. The park would eliminate the sand pit issue on Ivey Road which has caused the community many issues in recent years.

Project Title	Sheffield Park - Soccer Fields
Project Location	3659 New Berlin Road 32226
Department	Parks, Recreation & Community Services
Program Area	Parks / Preservation Land / Wetland

Council District(s)	02
Project No	PR0381 04
Ordinance No	
BT No	

Project Comp Date	Beyond 2021
Dpt Ranking	31
Prj ID	131
Useful Life	30

Description or Scope	Construction of new multi-use fields and additional parking
-----------------------------	---

Justification	Soccer is becoming increasingly popular with youth and adults in Duval county and surrounding areas, but there isn't a facility close to the William F. Sheffield Park area for constituents to utilize. The current athletic association (Oceanway Sports) manages this area of the park and would take care of field maintenance and preparation for games

Project Title	Palmetto Leaves Rgnl Park - Construct Sports Fields
Project Location	5720 Greenland Road 32257
Department	Parks, Recreation & Community Services
Program Area	Parks / Preservation Land / Wetland

Council District(s)	06
Project No	PR0554 05
Ordinance No	
BT No	

Project Comp Date	Beyond 2021
Dpt Ranking	32
Prj ID	133
Useful Life	25

Description or Scope

Palmetto Leaves Regional Park - Engineer & construct sports fields that consists of 3 rectangular fields, an ADA restroom facility, ADA sidewalks and concession stand

Justification

There exists an increased demand for multi-use sports fields in Council District 06 and surrounding areas, with only Losco Park (2 fields) and Greenland Park (2 fields) offering multi-use fields in the immediate service area. The addition of multi-use fields to Palmetto Leaves Regional Park would provide additional opportunities for constituents in the most southern end of the City and further advance the master plan of the park.

Description or Scope

Seaton Creek Historic Preserve - Design and construct an access road through the preserve to the isolated portion of the park, construct picnic pavilions, restroom area, parking and kayak launch

Justification

Seaton Creek Historic Preserve - the City's newest preservation property, needs an improved road to provide management access and future public use to an isolated portion of the park. This attractive, waterfront area of the park will include the next phase of park development for day-use visitation including picnic pavilions, restroom, parking and kayak launch

Project Title	Jacksonville Baldwin Rail Trail - Repave Trail
Project Location	849 N Center Street 32234
Department	Parks, Recreation & Community Services
Program Area	Parks / Preservation Land / Wetland

Council District(s)	08
Project No	
Ordinance No	
BT No	

Project Comp Date	Beyond 2021
Dpt Ranking	43
Prj ID	158
Useful Life	30

Description or Scope

Jacksonville Baldwin Rail Trail - 14.5 miles of maintenance: repave existing trail [5 miles - \$425K], replace asphalt trail [9.5 miles - \$1.43M], shoulder repair [4 miles - \$60K], tree encroachment [14.5 miles - \$72.5K] removal and restriping lines & wording / signage [\$5K]

Justification

This 14.5-mile paved recreational trail is very popular with walkers, runners, bicyclists, skaters and other non-motorized use. Due to the beloved tree canopy that shades most of the trail corridor, the trail has experienced extensive damage from expanding roots which has resulted in regular patching/repair efforts, as the maintenance budget allows. In order to ensure long-term safety and condition of the trail, the entire trail needs to be repaved, shoulders repaired and select trees removed.

Project Title	Oak Harbor Boat Ramp Dredge
Project Location	2428 Seaway Street
Department	Parks, Recreation & Community Services
Program Area	Parks / Preservation Land / Wetland

Council District(s)	13
Project No	PR0073 03
Ordinance No	
BT No	

Project Comp Date	
Dpt Ranking	
Prj ID	432
Useful Life	

Description or Scope

This project will dredge the boat ramp basin area and access channel to ensure reliable connectivity to the Intracoastal Waterway. This area was last dredged in 1996.

Justification

Oak Harbor Boat Ramp is a well-used ramp utilized by boaters to access the Intracoastal Waterway (ICW) near the intersection with the St. Johns River. The ramp can handle all size vessels, although the access channel has become silted in over the years making it harder for most vessels to navigate at low tide.

Project Title	Mandarin Park Dock & Kayak Launch
Project Location	14780 Mandarin Road
Department	Parks, Recreation & Community Services
Program Area	Parks / Preservation Land / Wetland

Council District(s)	6
Project No	PR0625 03
Ordinance No	
BT No	

Project Comp Date	
Dpt Ranking	
Prj ID	431
Useful Life	

Description or Scope

This project will construct an extension of the floating dock to double the length to approximately 160 feet. This project includes installation of a floating kayak launch with a specialized cradle system to enhance its use by paddlers of all abilities and experience. The kayak launch will be positioned on the opposite side of the boardwalk which offers a good barrier between motorized and non-motorized vessels.

Justification

The boat ramp at Mandarin Park is the most popular ramp on the Southside. There are 2 ramp lanes and 47 boat trailer parking spaces but only 80 feet of floating dock which is inadequate to facilitate efficient launching during peak use. There is also a strong desire from the adaptive recreation community, including Brooks Rehab, to provide an accessible kayak launch at Mandarin Park.

Description or Scope

The Via Valencia ditch and embankment repair project is proposed to repair an established City of Jacksonville right of way drainage ditch and embankment. Erosion of the existing ditch is within close proximity to existing residential homes.

Justification

If not corrected serious erosion will impact existing residential properties. Increases in sedimentation downstream will negatively impacting the drainage capacity of the ditch.

Description or Scope

This project proposes to repair the embankment of a drainage ditch located adjacent to Gaskins Road at Jammes Road. The proposed length is approximately 411 linear feet.

Justification

Replacement of the failing embankment will help prevent erosion into the waterway and stabilize the ground surface.

Description or Scope

This project will help fund design and major fixes, under \$100,000, to the City's drainage system. Once designs are complete, funds in this project may also be used to fund specific drainage projects which exceed \$100,000.

Justification

This is a continuous requirement to design and construct projects that are beyond the capability of the Maintenance Division to correct. Projects are local in nature and at a relatively low cost. The backlog of issues is approaching 120 projects at an estimated cost of \$24M.

Description or Scope

This allocation funds countywide improvements to the City's stormwater drainage system. The improvements are focused on system restoration to ensure that all components function in accordance with their intended purpose. Components such as failed drainage lines and structures make up the majority of these improvements. The funding is projected to be used for continuing maintenance contract services.

Justification

The improved drainage systems will allow the system components to function in accordance with their intended purpose and reduce flooding throughout Jacksonville.

Project Title	Stormwater Pump Stations - Capital Maintenance
Project Location	County-wide
Department	Storm Water Services
Program Area	Drainage

Council District(s)	County-wide
Project No	PW0798 02
Ordinance No	
BT No	

Project Comp Date	Ongoing
Dpt Ranking	
Prj ID	189
Useful Life	10 years

Description or Scope

This allocation funds countywide stormwater pump replacements and capital maintenance. The City currently has 12 pump stations countywide. Each pump station has multiple pumps present with some pump stations having as many as 4 pumps present. The funding is projected to be used for the replacement of deteriorated pumps and capital maintenance and repair as needed.

Justification

The City of Jacksonville utilizes pump stations countywide. The pumps have to be operable to keep the pump stations working. The pump stations convey stormwater and prevent flooding.

Ordinance No	2012 - 433
BT No	

Project Comp Date	Ongoing
Dpt Ranking	
Prj ID	195
Useful Life	

Description or Scope

This allocation funds engineering studies that will evaluate various potential drainage projects throughout the City to determine which ones have cost effective solutions, define what the solutions are, identify what issues will need to be resolved and prepare project cost estimates.

Justification

Public Works has prepared a prioritized listing of drainage/flooding issues that need to be addressed. Feasibility studies can determine if a drainage problem has a cost effective solution and provide a scope and cost. *** PW0554 - 01 "DRAINAGE PRIORITIZE/DEV IMP CITYWIDE" has had \$100K available since January of 2005. This could be an appropriate funding source for this project.

Project Title	LaSalle Street Outfall
Project Location	LaSalle Street near San Marco Square
Department	Storm Water Services
Program Area	Drainage

Council District(s)	5
Project No	PW0708 01
Ordinance No	2009 - 512
BT No	

Project Comp Date	September 2021
Dpt Ranking	
Prj ID	193
Useful Life	20 years

Description or Scope

Project will provide drainage improvements in the San Marco Area to alleviate roadway flooding caused by heavy rainfall and high tides. A pump station would be required to accomplish flood reduction benefits in this area of San Marco. COJ is pursuing real estate acquisition to support a potential pump station site.

Justification

Pump Station would reduce the frequency and severity of flooding.

Project Title	Dunn / Caney (Sapp Road Wet Detention)
Project Location	Caney Branch Creek
Department	Storm Water Services
Program Area	Drainage

Council District(s)	2
Project No	
Ordinance No	
BT No	

Project Comp Date	Beyond 5th year
Dpt Ranking	
Prj ID	201
Useful Life	50 years

Description or Scope

The intent of this project is to improve water quality by improving approximately 1,000 ft. of channel conveyance in Caney Branch Creek and installing a 7.5 acre wet detention facility for water quality treatment. This project will contribute to the pollutant load reduction required by the Lower St Johns River (LSJR) Basin management Action Plan (BMAP) and NPDES permit requirements. (Project CN-1A in MSMP)

Justification

Surface water quality impairments and legal requirements to meet the BMAP obligations require the City to execute stormwater projects to meet pollutant load reduction goals.

Program Area	Drainage

Council District(s)	10
Project No	
Ordinance No	204
BT No	

Project Comp Date	Beyond 5th year
Dpt Ranking	
Prj ID	204
Useful Life	6 years

Description or Scope

Maintenance dredging of Wills Branch Creek to remove sediment build up from Old Middleburg Road to approximately 6,000 linear feet downstream.

Justification

In accordance with our agreement (executed November 25, 1996) with the U.S. Army Corps of Engineers (USACOE), the City is required to maintain the bank armoring and channel improvements constructed by them in 1999 and completed April of 2000. Continued siltation of the channel requires maintenance dredging every 7 to 9 years to restore the Wills Branch channel to the original COE depths to minimize house flooding. The last dredge of the channel was done in FY 2009.

Department	Storm Water Services
Program Area	Drainage

Council District(s)	7
Project No	
Ordinance No	
BT No	

Project Comp Date	
Dpt Ranking	
Prj ID	290
Useful Life	

Description or Scope

This project will design and implement a stormwater treatment plan for Hogan's Creek to help address the creek's water quality and lack of treatment. This would also help to decrease fecal coliform contamination and promote recreational access and utilization. This system could include the use of "flexflow" to protect downstream public health and improve aquatic biology in Hogan's Creek and potentially the St. Johns River.

Description or Scope

Trail Ridge & North Duval Municipal Landfills generate a significant amount of leachate that requires disposal. Leachate is collected in storage tanks, transported by tanker truck to JEA's Buckman St Wastewater Treatment Plant and is causing permit exceedances where JEA is requiring the City to pay higher disposal fees to compensate for the added work to keep the facility in compliance. Construction of an evaporator unit using the landfill gas generated by the expansion area for leachate disposal will provide an off-set to the ever increasing leachate disposal costs.

Justification

Leachate transport runs almost non-stop Monday-Friday from Trail Ridge and 4 to 5 times per week from North Landfill. Leachate disposal costs have increased from \$80,000 per year to over \$1,000,000 per year and JEA has indicated the disposal cost will increase within the next several years. Currently there are no plans for utilizing the landfill gas that will be generated by the expansion area other than flaring. Use of the landfill gas for leachate disposal will also reduce operational costs for running another flare at the facility.

Project Title	Trail Ridge Landfill Expansion
Project Location	5110 US Highway 301, Baldwin, FL 32234
Department	Solid Waste Disposal
Program Area	Environmental / Quality of Life

Council District(s)	12
Project No	SW0005 06
Ordinance No	2014 - 466
BT No	

Project Comp Date	September 2019
Dpt Ranking	
Prj ID	168
Useful Life	33 years

Description or Scope

Trail Ridge Landfill has only 4 years of air space left for the disposal of solid waste; with 18 months of operational air space. The site has approximately 977 acres of which 400 are occupied by existing landfill footprint and supporting infrastructure. The remaining 577 acres are located to the north of the current disposal hill. The landfill expansion into this 577 acre area will provide landfill capacity to Duval County residents at the current lowest feasible disposal cost for approximately 33 years of capacity. The expansion of the existing hill to the north into the first disposal unit along the north face of the current hill will capture a "valley" and provide \$150 million in new revenue to the City for the first 5-10 years of operations. The hill is approaching the time frame when there will be no space available for the placement of the ash materials the City is required to dispose of per the Consent Decree with US EPA. Loss of the hill as the disposal site due to capacity constraints would result in an increased cost of \$15-\$20,000,000 to the ash program.

Justification

It is critical to have continuum funding to avoid mobilization and de-mobilization costs, and disruption of solid waste disposal capacity since the current hill will run out of usable space during the anticipated full construction time frame for all infrastructure and ancillary facilities for the expansion project.

Description or Scope

This project focuses on the cleanup of various contaminated sites throughout the city. These dump sites are subject to a Memorandum of Understanding between the City of Jacksonville and the Florida Department of Environmental Protection to assess and remediate unlined dumps and any other contaminated sites the City owns or is designated as the Principal Responsible Party of cleanup. Examples of locations include the Imeson Landfill, Hema Road, Linden Avenue, Burke Street Pond and Confederate Park.

Justification

Sites are being remediated pursuant to MOU with City of Jacksonville and FDEP. The lawsuit for the Confederate Park Site will be settled this year and we must have funding for remediation construction pursuant to the FDEP Consent Decree. Additionally, the assessments for Imeson Landfill, Crystal Springs, Linden Avenue, Nevada-Greeland and Owens Avenue Landfills will be completed in the near future and remediation will be required to commence this FY due to FDEP consent orders. Imeson LF - \$1,750,000, Crystal Springs \$1,000,000, Linden Avenue \$1,000,000, Nevada-Greeland \$2,500,000 and Owens Avenue \$1,000,000 leaves \$4,500,000 for Confederate Park. Hema Road which was discovered during the assessment of Gold Merit/Pope Place site will require additional funding.

JACKSONVILLE PORT AUTHORITY - CAPITAL PROJECT SUMMARY
5 YEAR CAPITAL PLAN

CAPITAL COMMITMENTS							
PROJECT NAME	Total		TENTATIVE				
	5 YR Plan Cost	Per Budget	2020	2021	2022	2023	2024
Blount Island Marine Terminal Projects							
Rehabilitate Wharf Structures (BERTH 33 & 34)	32,500,000	26,500,000	6,000,000				
Container Terminal Upgrades	31,000,000	15,000,000	16,000,000				
Breasting Dolphin for Berth 22	550,000	550,000					
RxR Tressel Rehabilitation	500,000	500,000					
Construct container area at Wash Rack Location	500,000	500,000					
Pile, Cap and Beam Rehab BIMT	2,000,000	400,000	400,000	400,000	400,000	400,000	400,000
Tenant Asphalt Facility Rehab	875,000	175,000	175,000	175,000	175,000	175,000	175,000
Restrooms on Berth 33/34	150,000	150,000					
Intermodal Drive - Pave ditches (design, permit, pave)	75,000	75,000					
New Gates at BIMT	2,750,000		2,750,000				
Two Acre Concrete Pad for Heavy-Tracked equipment at Berth-22	2,500,000		2,500,000				
Construct container area at 832 building	750,000		750,000				
Improvements to 15 Acres St. Johns River Power Park	500,000		500,000				
Transit Shed #3 (Demo & Pave)	500,000		500,000				
Transit Shed #1 (Demo & Pave)	3,200,000		200,000			3,000,000	
Roof Replacement Access Control/Operations Building	50,000		50,000				
Resurface/Seal Access Control/Operations Parking Lot - 1/2 Acre	40,000		40,000				
Design Berth 31 (3A) and Berth 30 (3B)	1,500,000						1,500,000
RORO Pier - T at Berth 20	21,500,000					1,500,000	20,000,000
Total BIMT	101,440,000	43,850,000	29,865,000	575,000	5,075,000	22,075,000	
Dames Point Marine Terminal Projects							
August Drive Bridge Sheet Pile Wall Replacement	2,200,000	2,200,000					
Asphalt Rehab Tenant (MOL/Trapac)	2,000,000	400,000	400,000	400,000	400,000	400,000	400,000
Environmental Permitting/Auto Processing Facility	200,000	200,000					
Cruise Terminal Baggage Screening Facility	200,000	200,000					
August Drive Widening & Connection to Heckscher Dr.	2,000,000					2,000,000	
Berth 18 RORO Expansion	2,200,000	200,000	2,000,000				
Tenant Lighting - Dry Bulk Terminal	50,000		50,000				
Cruise Terminal Passenger Boarding Bridge (Articulating)	1,500,000					1,500,000	
Cruise Terminal Seating Expansion	500,000					500,000	
Total DPMT	10,850,000	3,200,000	2,450,000	400,000	4,400,000	400,000	400,000
