Oversight Committee Presentation
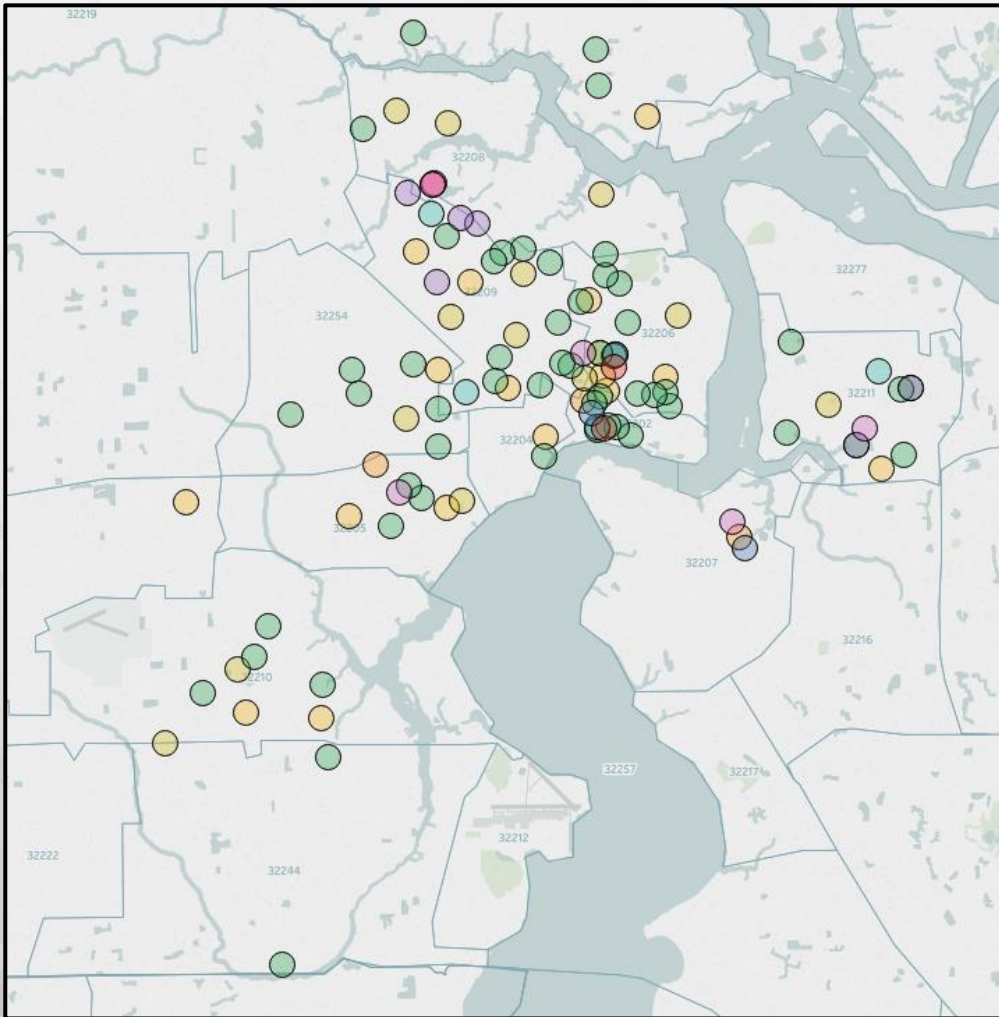

Prepared by NLP Logix
June 12, 2017

Agenda

- Data Collection Updates
- Map of Jax Journey Programs
- Family Foundations / 1,000 in 1,000 Complete Data Review
- Department of Juvenile Justice Initial Data Analysis

Data Collection Update

- Data Sharing Agreement 1
  - Initial data received (2005-Q1 2017)
    - Waiting for Census Tract data
- Data Sharing Agreement 2
  - Currently with DJJ Legal Counsel
- Duval County Public Schools Data
  - Estimated Receipt in July
    - Teen Program/Juvenile Intervention Program Review
    - Summer Camp Literacy Score Baseline

Location of Jax Journey Programs

Legend:
- 1,000 IN 1,000

- Diversion Programms
- Early Learning Coalition (ELC)
- Ex-Offender Programs
- Expungement Juvenile Records - JALA
- Juvenile Intervention Program - Daniel
- Library Enhanced Access Program (LEAP)
- Local Initiatives Support Corporation (LISC)
- Rec N Roll
- Teen Programs
- Workforce Development 16-24 YO

Jax Journey

Family Foundations
1,000 in 1,000

Data Received from Family Foundations

Fourth Year or Later
6%

First Year in Program
12%

Third Year in Program
39%

Second Year in Program
43%

Family Foundations submitted data for 241 clients from 2012 to present. Of these clients:

- 37 participants have successfully closed their case

- 3 have been in the program for at least 1000 days
  - One of which has completed the transition from poverty.

Recommendations

- Ensure proper data collection in the future
  - NLP Logix will store data for future evaluation
    - This will allow visit by visit tracking of current participants
- Transition to performance based evaluation
- Work with Family Foundations to better understand the 9 pivotal assets
  - Why are families starting with 5-6 assets?
 - Should Parent University be included in these metrics?

Juvenile Justice
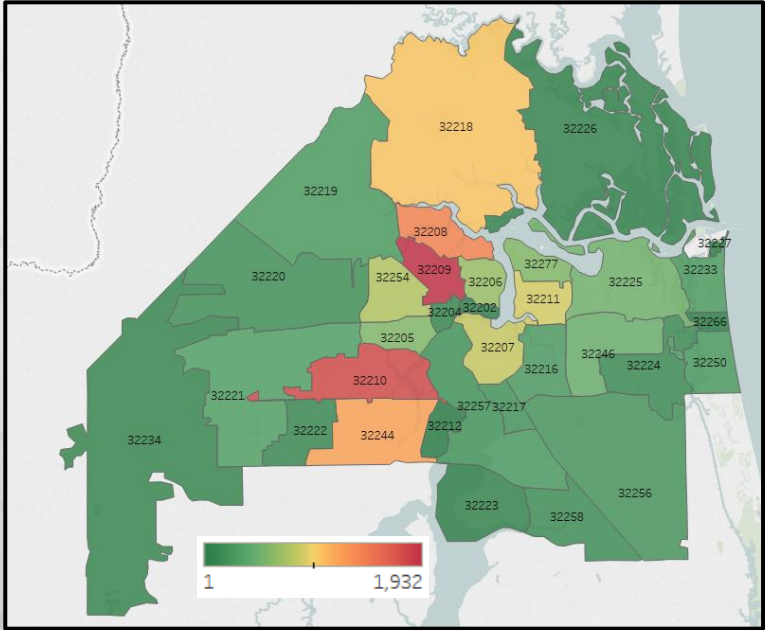

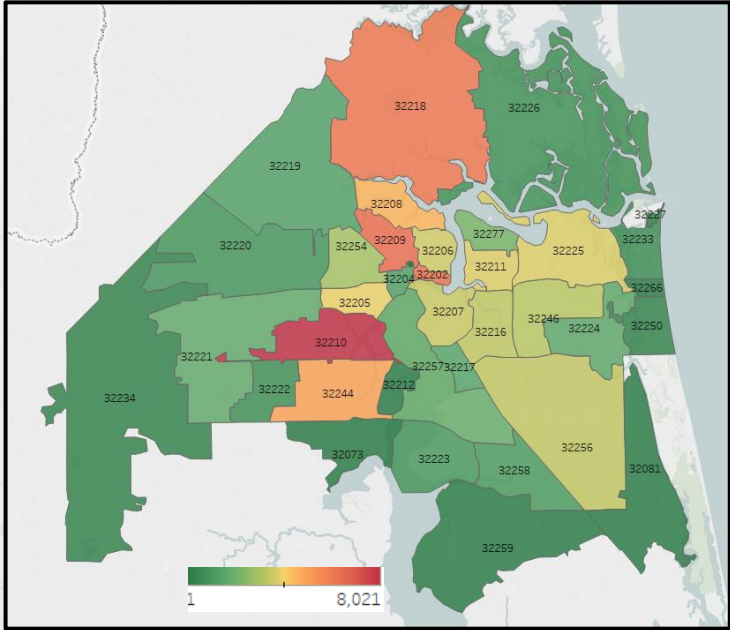

Comparing Crime by ZIP Code
Overall – 2005 to present
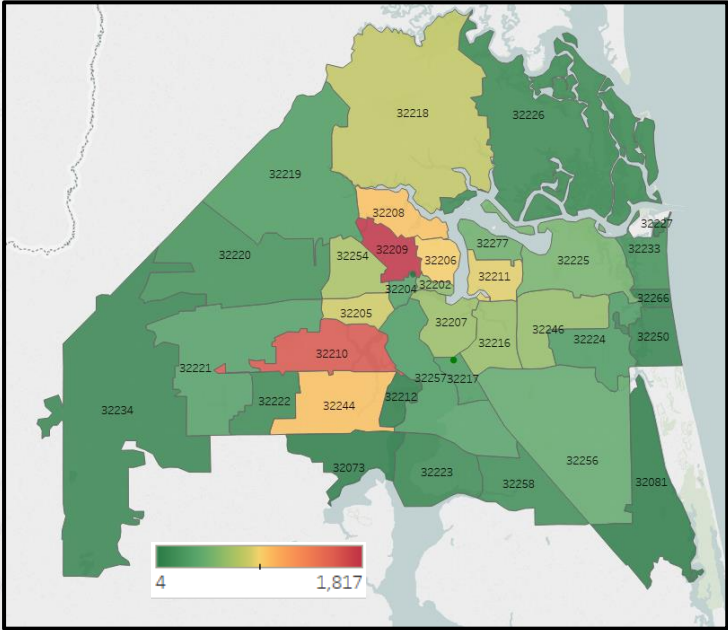

# Comparing Crime by ZIP Code
## Overall – 2015 & 2016

Comparing Crime by ZIP Code
Violent Crime – 2015 & 2016
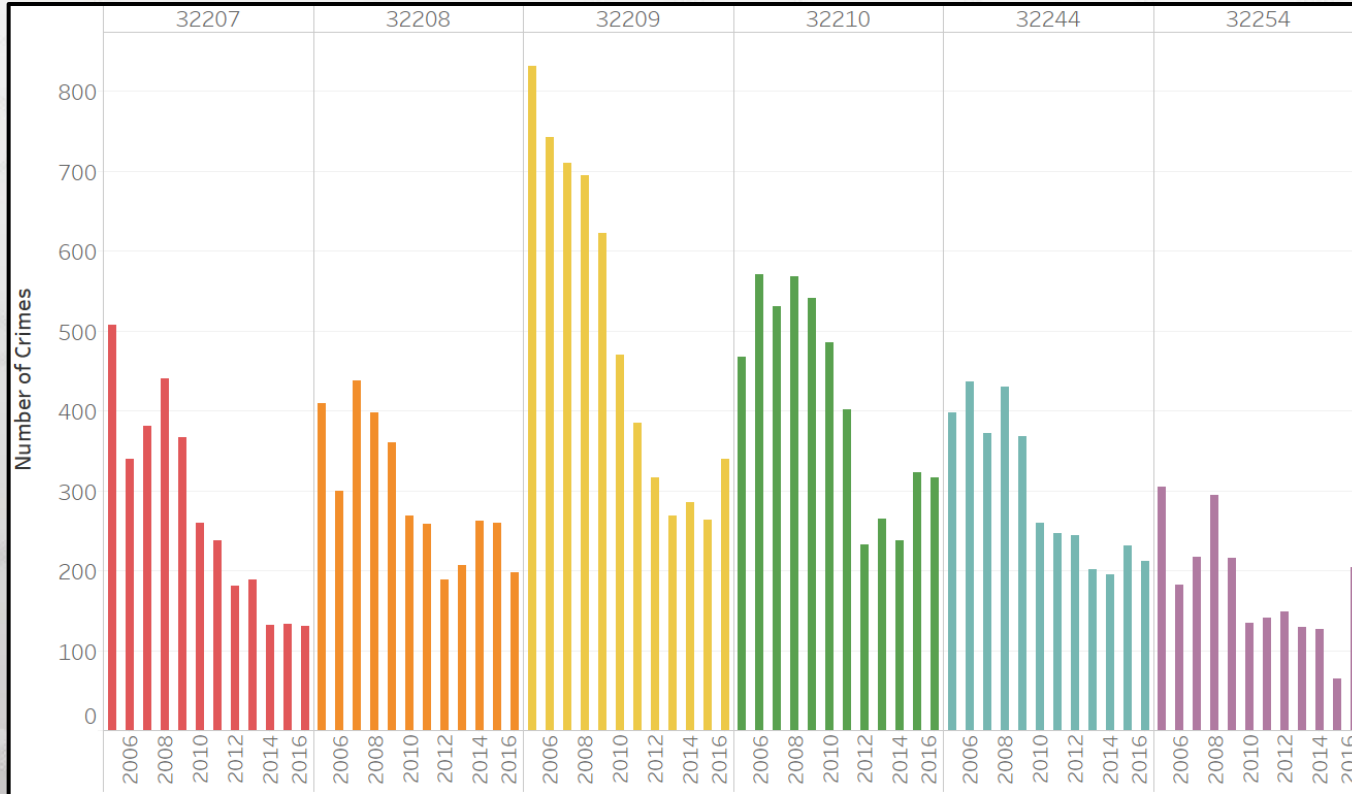

Timeline of Juvenile Crime

Overall, Juvenile Crime has been decreasing from 2008 to present.

The number of crimes is stable/showing slight increases in the last year, while the number of juveniles involved has continued to decrease.
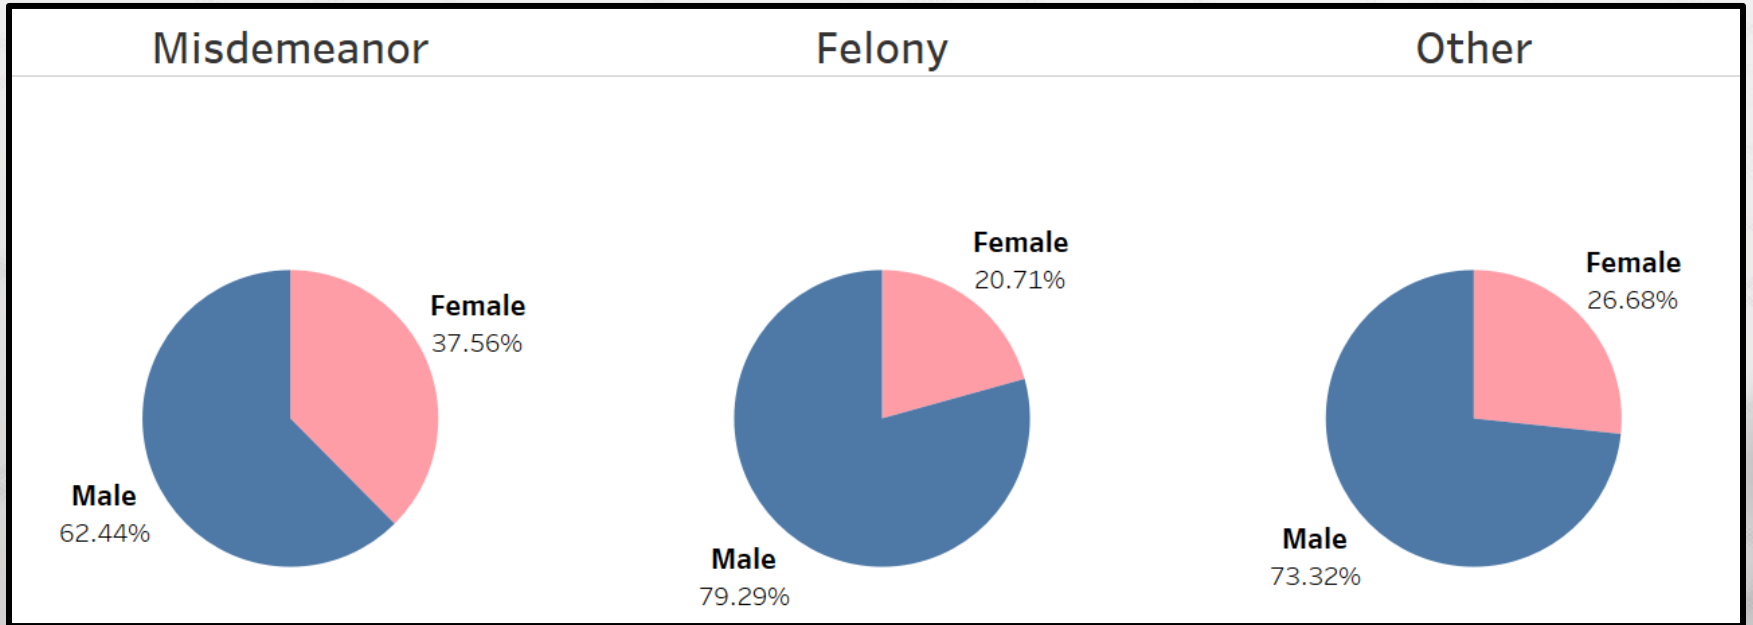

We see similar trends for violent crimes and within the Journey ZIP Codes as a whole.
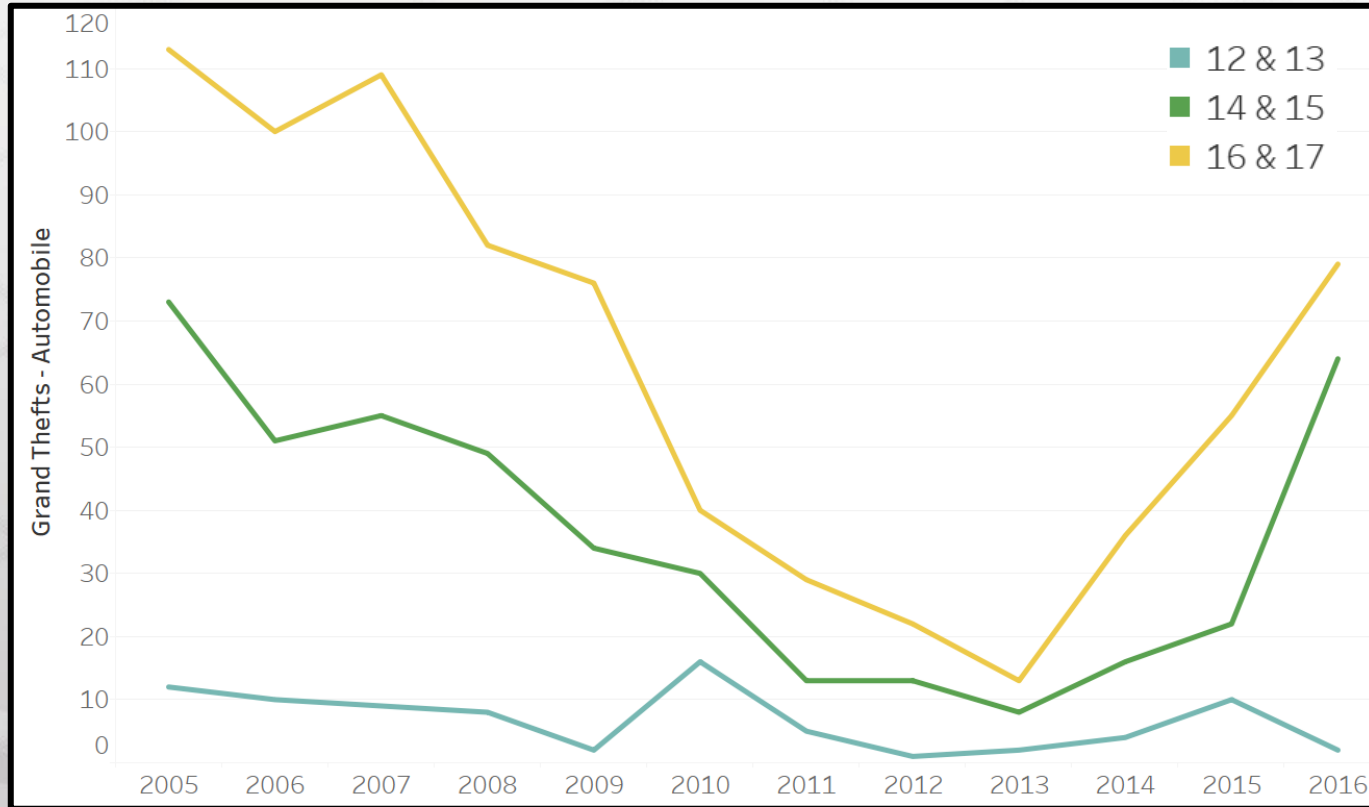

Timeline of Select ZIP Codes

Focusing on the number of crimes within selected ZIP Codes, we see steady decreases from the high numbers seen between 2005 and 2009, with slight upticks in the most recent years.

Number of Juveniles by Gender and Crime Type

Timeline of Grand Thefts – Automobile

The number of grand theft auto charges for youth have increased significantly for three years in succession.

These increases are limited to youth 14 and older.

Timeline of Weapons Charges

Since 2013, possessions of a weapon by a juvenile have more than doubled from 113 occurrences to 237 occurrences. Juvenile use of weapons has also increased from it's low point at 2013.

Location of Weapons Charges

32209 has the highest prevalence of juveniles involved in both types of weapons offenses.

Recommendations

- Develop a metric that heavily incorporates Juvenile data for determination of Jax Journey footprint.
- Investigate further the final dispositions of juveniles.
  - Identify when and where diversions are occurring
  - Consider recidivism
- Identify program coverage for 32210 and 32244.
- Identify and evaluate juvenile programs that are gender specific.
  - Evening Report Center is male specific

Thank You!

One City. One Jacksonville.
