Notes:

832¹ - Italics indicates new Count Station for 2019

Facility Name² - City of Jacksonville jurisdictional roads

Roadway Type³ - FDOT Functional Classification: the assignment of roads into the systems according to the character of service they provide in relation to the total network

Max Daily Capacity* - The highest number of vehicles for a given level of service

Principal Arterial - A signalized roadway that primarily serves through traffic with an average signalized intersection spacing of 2 miles or less;

Minor Arterial - A signalized roadway that primarily serves through traffic composed of trips of moderate length, and provides connectivity to principal arterials and other higher classification roadways. Minor arterials have approximately one signal every 1/4 mile and a posted speed

Collector - A roadway providing land access and traffic circulation with residential, commercial, and industrial uses.

Currently Not Classified - Streets which have not been designated as arterials or collectors; have a relatively important property access function and serve to funnel traffic between local streets
