STARS Statement of Work No. 19 | 2015

shall expire at the end of its current term. In the event all Service Hours are eroded, additional Service Hours may be purchased at reduced package rates or will be billed as incurred at current rates. All subscription and annual services fees are billed on the Statement of Work Effective Date and on its subsequent anniversaries. The terms of the Agreement shall supersede any terms provided by Client unless mutually agreed in writing by both parties. Unless expressly indicated to supplement a prior Statement of Work or otherwise agreed in writing by the parties, this SOW shall supersede prior Statements of Work for the same Services. Fees stated in this Statement of Work have been agreed with Client based on the assumption that the information required for work to be performed is made available by Client and Client key personnel during the course of work. If delays or other unanticipated problems which are beyond Marsh ClearSight's control occur this may result in additional fees, which Marsh ClearSight will discuss with Client as soon as identified. Assumptions Marsh ClearSight has made that Marsh ClearSight deems critical to the process are set forth in the Agreement, Products and Services Schedule and this Statement of Work. Client will provide required resources to facilitate execution of all deliverables by the STARS team within the project schedule mutually agreed before the commencement of the project; this will include time from business users and source system owners for meetings, data requests, gathering of data required and most importantly help obtaining timely decisions from relevant parties.
