Program Summary:

Program Strategy: Increasing Police Presence and Eliminating Crime

This is a community revitalization strategy aimed at reducing crime havens by implementing non-police strategies such as real estate development involving housing and commercial development; and community building/engagement efforts. LISC Jacksonville works with community development corporations (CDCs) to help them in their work to revitalize neighborhoods. We supply training, funding and advocacy on their behalf. CDCs work with boards made up of community residents and employers and have grassroots knowledge of what the community wants and needs. Jacksonville Journey allows LISC to leverage City of Jacksonville dollars with local and national funding for the betterment of the communities we serve in our joint effort to eliminate crime. LISC takes no administrative fees from these funds.

<u>Program Overall Status and Successes</u>: LISC Metrics for its work with CDC partners supported through Jacksonville Journey funding is based on Crime Prevention through Environmental Design (CPTED) and defensible space strategies. All program activities described occur in Health Zone 1.

- Metro North staff throughout the month of February communicated through social media to 100 residents tips on crime prevention and events occurring in the Metro North community.
- Northwest Jax and Sherwood Community Network Neighborhood Association held a business meeting on February 10, 7 attendees. Discussed the need for an afterschool program for the children in the community. The members stressed that there was a big need for youth activities. A member from the school board was present and discussed the disservice to the low-income neighborhoods and what needs to be done in the public schools system to help schools in these areas. There were safety issues concerns with the basketball court in the back of the Beverly Hills Center and the youth attending the meeting felt that the lighting should be corrected to prevent crime. It was encouraged that the association members contact the appropriate city staff to assist in this matter. There were 7 youth from the community who voiced their concern as well about the park adjacent to the center. Also discussed the beautification projects they have already applied for a mini grant as well as establishing a community garden. The members of the association states the constructing of the garden will enhance the appearance as well encourage healthy eating habits for the community.
- Northwest Jax and Magnolia Gardens Neighborhood Association held a meeting on February 13, 11 attendees. The meeting agenda included the annual Community Block Park which funding is needed. The event this year is April 5 there will be food, games, and vendors for the entire family. The President stated that last there were an estimate of about 3,000 people who attended with their families. Discussed the annual block party and ways to increase the finances to serve even a larger group this year. It was suggested that the fund raising process began immediately after each event so the community can see what goes on and will be more geared to assisting in the project. It was also encouraged that the association began with community initiatives such as beautification and other community identified needs that will lead to the annual "Block Party" as a way of a celebration of the things they have done within the year for the community. It was also suggested that the two associations merge together so they can do more for the Magnolia Garden community. Discussed criminal activity or crime in the area where they reside, the crime which they stated was on the side of Magnolia Gardens where the other association is located.
- Northwest Jax and Planet Watch Neighborhood Association held a forum on February 17, 14 attendees. The community members, along with JSO are collectively 'watching' the area around 18th and Flanders Streets for any suspicious activities. To date, the community residents state that they've realized a reduction in crime.
- <u>Operation New Hope</u> Garden Stewart "Pastor Tom" conducted a kick off of the 2014 planting season on February 8, 8 attendees. During this event, gardeners planted broccoli, mustard greens and collards.

Program Information

Program Metrics/Statistics/Outcomes – CDCs develop targets at the beginning of the grant term for single family housing development, affordable rental housing development, and high impact projects. CDCs also set targets for capacity building activities related to organizational development and community engagement.

This contract reflects a partnership between LISC Jacksonville and the City of Jacksonville where LISC provides funding recommendations, administration and oversight for the city; and LISC leverages City funds 1:1 through various sources to nonprofit community development corporations.

Together, LISC and the City (through the Housing and Community Development Division) make joint funding decisions to strengthen Jacksonville's community development corporations who in turn engage in a variety of physical revitalization and community building activities in an effort to fight crime and improve the lives and economic viability of neighborhood residents and businesses.

LISC does not take an administrative fee for managing the City's funds. LISC further leverages the City's funds through our normal business activities of providing various support services, such as technical assistance and financing to non-profit businesses engaged in community revitalization efforts.
